#### Women Suffer Agonies from Kidney Trouble

GIN PILLS CURE THEM

There is Mrs. Ripley, for instance. She suffered terribly with her back. It ached, ached, ached-all the time. Even in bed, it seemed as if she could not get easy. It finally became so bad that housework was impossible.

She certainly was a discouraged woman when she began to take GIN PILLS. And there isn't a happier. healthier woman in the Dominion than this same Mrs. Ripley to-day

Williamsdale East, May 9th.

I cannot refrain from writing you the benefits
I have received from Gin Pills. Before I had
taken Gin Pills I suffered dreadfully with my
back, and had suffered for twenty years. I
have tried almost everything but got no relief
until I got "Gin Pills."
I have taken six hore. I have taken six boxes and now I have not the sign of a pain or an ache in my back. I am now 48 and feel as well as I ever did in my life. There is nothing can hold a place with Gin Pills for pains in the back to which women

MRS. MILLANOR P. RIPLEY. Mrs. Ripley had serious Kidney rouble. And the sick kidneys were those splitting headaches-were sapping her strength-and dragging her down. GIN PILLS really saved her life. GIN PILLS cured her kidneys. She has grand medicine for women.

Try them at our expense. Mention this paper when writing and we will do for you. The Bole Drug Co., Winnipeg, Man.

50c. a box-6 for \$2.50. At all dealers.

Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently, though safely, it surely equalizes the blood circu-

lation.

If you have a headache, it's blood pressure.

If it's painful periods with women, some cause,
If you are sleepless, restless, nervous, it's blood
consection—blood pressure. That surely is a
cell'ainty, for Dr. Shoop's Headache Tablets stop
it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain —always. It's simply Common Sense. We sell at 25 cents, and cheerfully recommend

INSPECTOR MEAGHER'S RE-PORT.

We give below some extracts from the annual report of F B Meagher M A, Inspector of Schools.

"A review of the year's work shows some encouraging features, among which may be noted a marked advance in the district pay of teachers; school house improvements; additions to apparatus; the successful operation of school gardens and manual training departments and their steady growth in popular favor; a growing demand for first class teachers, and a less evident reluctance to give to teachers of all classes the higher salaries which they can now command.

In this connection, I am glad to be able to say that the minimum yearly salary of female teachers of the first class is now about two hundred dollars, and it goes as high making her back ache-were giving her as three hundred dollars, whereas not long ago one hundred and eighty dollars was the maximum amount received, so that even if a much less been well ever since. GIN PILLS are a rate of increase be maintained for a few years to come, we need no longer fear that the West will drain our send you a free sample so you can see teaching ranks of some of their best for yourself just what GIN PILLS will material, or that other occupations will prove more attractive, at least from a financiai point of view.

That there has also been an increase in the effectiveness of the teaching work may partly be seen in the large number of students from Carleton County in attendance at the University and Normal School, and their high standing in both institutions. Further evidence is afforded also in the fact that nearly all the teachers of the schools in that county are themselves the products of those schools, and that scarcely any of their number are of the third class.

I think it may also be safely said that there are less disorganized disany other Inspectorate of the Province, and fewer schools closed on the average during the course of each year.

Nothing of importance was done during the year in the way of district consolidation. The children of Lower Northampton, No 2, Northampton, are now conveyed to the school in Ferryville, No 2. The other district, exclusive of Florenceville, in which the children are thus conveyed, are Glassville, No 4, Aberdeen, and Third Tier, No 6, Wakefield. At the annual meeting it Centreville, in the year 1905, a vote was taken in favor of consolidabut some of the latter did not view the proposal with favor, and the question was closed for the time. Since then, Centreville has decided to build a new school house suitable to its own needs only, and consolidation is thus practically ended in that

In fact, I doubt very much if con solidation will ever be adopted to any general extent throughout this Inspectorial District until a wider and more liberal scope be given to the management of school affairs by the establishment of Parish Boards. Property interests are a stumbling block to this, as well as to other reforms, but if the people at large could only be made to realize the benefits of such a measure, they would, I think, be strongly in favor

of its adoption. The school exhibit at the County Exhibition in Woodstock in September last, was a decided success, and one of its most attractive features. The products of the school gardens, the manual training work, the display of botanical specimens, and the collections of native wood, gave a pleasing variety to the exhibit, and were of particular interest to the visitors. The essays submitted, and the specimens of map drawing, writing and letter-writing, were uniformly good, and it is worthy of note that in map-drawing and writing the country schools carried off

the first prizes. There was also a Manual Training exhibit from the Woodstock schools at the last exhibition in St John, to which several first prizes were awarded for specimens of individual

I think that the general effect of such exhibits is good, as they tend to interest the public in our schools, and give many people an insight into some phases at least of our school work which they would not otherwise obtpin."

THE FLORENCEVILLE CONSOLIDATED SCHOOL.

Extract from Report of Chief Superintendent.)

This school was opened in September last. The building is of brick and stone throughout. It is magnificently situated on a high bluff commanding an extensive view of river, valley, meadow and woodland scenery. The school grounds cover about 31 acres, affording ample space for school garden and playground. The build- the County for at least some weeks, ing contains five good class rooms, a laboratory for nature study and chemistry, a manual training department, and a household science room. The sanitary arrangement for girls is tins.

## our Doctor

Can cure your Cough or Cold, no question about that, butwhy go to all the trouble and inconvenience of looking him up, and then of having hisprescription filled, when you can step into any grug store in Canada and obtain a bottle of SHILOH'S CURE for a quarter.

Why pay two to five dollars when a twenty-five cent bottle of SHILOH will cure you

Why not do as hundreds of thousands of Canadians have done for the past thirty-four years: let SHILOH be your doctor whenever a Cough or Cold

SHILOH will cure you, and all druggists back up this statement with a positive guarantee. The next time you have a Cough or Cold cure it with

located on the upper flat. In the basement are found the boys' sanitary offices, two play or lunch rooms, and the fuel and furnace rooms The is about \$12,000.

W J Smalley constituted the Tem- by none in the market. porary Board of Trustees on whom devolved the responsibility of erecting and furnishing the building and organizing the school. The District is greatly indebted to these gentle men, especially to the Chairman of the Board, Dr D W Ross, for the time and effort gratuitously given to bring this important enterprise to a successful issue.

Only three districts have entered into this consolidation. Two others, Cogswell and Greenfield, declined to unite, although the building was erected and furnished with a view tricts in this Inspectorate than in of providing accommodation for the five districts.

The school is so situated that only two vans are required. The van routes are three miles and five miles respectively. The total cost for conveying the children will be about \$750 per annum.

The school was opened with a staff of three teachers. The Principal is F C Squires, B. A., a graduate of the University of New Brunswick. and a teacher of considerable experience. The number of pupils enrolled at the opening of the school was 124, and the average attendance 98. In matter of attendance, order and discipline, the experience of the tion with the surrounding districts. first term has shown that the united school is far in advance of the conditions which obtained in the three separate schools. While it is yet too soon to gather data upon which one might draw exact comparisons between the results of the new order of educational operations at Florenceville, and those under the former arrangements, it is confidently asserted that the interest taken by the pupils in their studies is far

BABY'S SMILE.

individual schools.

greater than was manifested by the

same children when attending their

Baby's smile indicates that he is well and happy. It is only the sick child who is cross and restless. And the mother can depend upon it that when her baby cries he is not crying simply to be ugly-that is not his nature—he is crying because he is in pain-most probably his little stomach is out of order. The mother will find Baby's Own Tablets a never failing cure for all the minor ailments of little ones. In the homes where the Tablets are used there are no cross, crying babies-nothing but bright, happy and playful babiesthe kind that are a joy to the home. Mrs Jos Legere, Caraquet, N B says: "At the time I sent for Baby's Own Tablets my little one was weak and failing. He would cry night and day, and I did not seem able to get anything to help him. After giving him the Tablets there was a great change and he has since thrived finely." The Tablets are sold by druggists or by mail at 25 cents a box from The Dr Williams' Medicine Co., Brockville, Ont.

James W Delong of Brookville, and W J Cheney of Bloomfield, two prominent gentlemen, called at this office on Monday.

20 Years of Vile Catarrh.—Chas O Brown, journalist, of Duluth, Minn., writes: "I have been a sufferer from Throat and Nasal Catarrh for over 20 years, during which time my head has been stopped up and my condition truly miscrable. Within 15 minutes after using Dr Agnew's Catarrhal Powder I obtained relief. Three bottles have almost, if not entirely, cured me," 50c =73. Sold by CHAS A McKEEN.

CLARK'S PORK AND BEANS, Are fine-try them plain or with Chili er Tomato Sauce. 5 and 10 cts In Memoriam

The community was saddened to learn of the sudden death of Mr David Kennedy, which occurred at his residence, Kirkland, Thursday morning, Feb. 21st, 1907. Although he had been suffering with heart trouble for some time, he had not been confined to the house. The deceased was eighty years of age and leaves three daughters and one son to mourn the loss of a devoted father. He united with the Presbyterian Church of McKenzie Corner, and for nearly thirty years, was an elder in the Presbyterian Church of Kirkland, faithful in attendance, active in the work of the church and a distinct influence for good in all the relations of life. The funeral was held on Saturday Feb. 23, the Rev. A J Polly of McKenzie Corner officiating .- (Com.)
