

The Modesty of Women

Naturally makes them shrink from the indelicate questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription with the least of the examinations and local treatments. There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures debilitating drains, irregularity and female weakness. It always helps. It almost always cures. It is strictly non-alcoholic, non-secret, all its ingredients being printed on its bottle-wrapper; contains no deleterious or habit-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those most eminent in the several schools of medical practice. Some of these numerous and strongest of professional endorsements of its ingredients, will be found in a pamphlet wrapped around the bottle, also in a booklet mailed free on request, by Dr. R. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials.

The most intelligent women now-a-days insist on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of known composition. It makes weak women strong and sick women well.

Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. R. V. Pierce, Buffalo, N. Y., 31 one-cent stamps for paper-covered, or 50 stamps for cloth-bound. If sick consult the Doctor, free of charge by letter. All such communications are held sacredly confidential.

Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels.

W F Dibblee & Son
Woodstock & Centreville.

ROUND HILL, N. B.,

April 24th, 1907.

C. GATES SON & CO.:

DEAR SIR,—I can highly recommend Gates No. 1 SYRUP for Dyspepsia and Indigestion, and also a great remedy if not a positive cure for Piles, when they are induced by constipation.

I can also recommend your **LIFE OF MAN BITTERS** as a purifier of the blood, and speak from experience, as I have used your Remedies in my family for many years.

Yours very truly,

C. W. SHORT.

One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. **The Wood Medicine Co.,** (formerly Windsor) Toronto, Ont.

THE BEST Fire Insurance

Is that which gives PERFECT SECURITY at the most equitable rates. The Non-tariff Companies, which I represent, have more paid up capital in proportion to risks involved than any other Companies.

They do not take hazardous risks, and can therefore do a safe business at lower rates than other Companies can.

Many of the best business men in the Dominion, and in this County, insure in these Companies.

GEO. L. HOLYOKE,

District Agent,
Woodstock, N. B., June 28, 1906.—L.E.S.

Minard's Liniment Cures Distemper.

Town Council.

Council met last Friday evening. Present Mayor Munro and Couns Sutton, Burt and Hagerman.

Minutes on Monday's session read and approved.

Treasurer's report showed an overdraft at Bank of Montreal of \$7492.77. Marshall Kelly reported for June a total collection of \$117.10—taxes, \$44.10; licenses \$23; scales \$50. Referred to audit committee.

Magistrate Dibblee reported from January to June, inclusive; fines paid, \$28; unpaid \$55; costs, \$7.50; balance due town, \$20.50. Referred to audit committee.

On motion Ald Hagerman, seconded Ald Burt, the tender of Pickel & Davidson, for sewer on Elm street, \$250, and \$1.00 a foot for ledge, was accepted, and a contract was entered into with the firm.

Mayor Munro said that the steam fire engine had arrived yesterday, but that he had not yet received the invoice; the freight bill was \$148. The engine is now in engine room. He suggested that the fire committee be given authority to complete the repairs on engine.

On motion Ald Hagerman, seconded Ald Sutton, the fire committee was authorized to complete the repairs on engine, having the same painted and re-tired.

Ald Hagerman reported that Dr McLean wished to connect his house in Regent street with the sewers; but as there were no sewers laid in that street and it was thought that the appropriation would not stand any more new work this year, nothing could be done in the matter.

Council went into committee of the whole on bills and accounts, with the mayor in the chair, and after a thorough investigation the bills were ordered paid, with the exception of a bill of Fewer Bros for \$13.30, and a bill of J S Leighton for \$50, which were referred to different committees.

Voted that all salaries be ordered paid.

Voted that an order be drawn on Treasurer for amount of bill under the Electric Light contract.

Voted that the street committee make arrangements with Mr Smith of Upper Woodstock for five or six boiler tubes for street purposes at 80c a hundred.

Voted that the street committee look into the advisability of having the catch basin on Chapel street moved nearer Main street.

Voted that the bill of Alfred Price for 190 feet of granite curbing, \$152, be paid at \$104, and that an order be drawn on treasurer for the balance \$48 in favor of W Fisher.

Voted that the town clerk be requested to write to the W E R L & P Co and the N B Telephone Co asking them to use all care possible in the management of their wire while working around the streets so that the life and property of citizens may not be endangered. Carried.

Voted that the street committee take legal advice from the Solicitor to have rock piles removed from Richmond street.

Voted that the light committee be authorized to have the limbs of all trees clipped that obstruct the Electric Light. Carried.

Rules for Repairing Roads.

Principles of importance in the repair of roads are:

1. Use the same material in the repair of roads as was used in construction.

2. When square shoulders of earth and sod form at the sides of gravel or stone roads, they should be cut away with a grader, turning this material outward—never drawing it to the centre of the road.

3. Never allow hollows, ruts or puddles to remain on the roads, but fill them at once; if an earth road, use earth; if a gravel road, use gravel; if a stone road use stone.

4. Deep holes in gravel and stone roads should have the earth and soft material cleaned out of them before putting in new metal.

5. Ruts and holes should be filled a little above the surface of the road so that there will not be a depression when the material is consolidated.

6. Loose stones should be raked into piles, to be taken up by a wagon and hauled away. This stone should be collected in a convenient place to be used afterward for crushing, putting into fills, or in such other manner as occasion may require.

7. It is especially necessary that all ditches and drains shall flow freely in the early spring, so that the cold water may be drawn away as quickly as possible, permitting the frost to come out of the ground quickly. If the ditches are not in condition to drain the macadam promptly, heavy loads will cut through the macadam into the wet and soft sub-soil, forming holes that are costly to repair.

8. The ends of culverts should be watched to see that they are not obstructed by leaves, grass or other material. Snow and ice should be removed from culverts whenever there is an accumulation likely to

cause obstruction in case of a thaw. Special care should be taken in this respect prior to the time of spring freshets.

9. Water should never be allowed to flow in the wheel tracks, especially on steep grades, care being taken to preserve the crown so that the water will flow to the side ditches.

10. Waste material from adjoining farms should not be allowed on the road. Any person using the roadside as a dumping ground for stone or other rubbish should be prosecuted. Noxious weeds and brush should be cut and removed.

11. For the surface of a stone road never use stones larger than will go through a two inch gauge; finer is preferable.

12. Use chips or screenings as a binding material on stone roads.—Earth, sod, dust and similar soft material will ruin the best road ever built.

13. Do not allow dust and mud to lie on the surface of a gravel or stone road. Dust becomes mud in wet weather; and mud keeps a road in a wet condition for weeks, where it would dry in a few hours if the blanket of mud were removed.

14. The rake is the most useful tool for making repairs, and should be frequently used on gravel and stone roads to keep wheel tracks filled with the metal forced out of them. This is especially true during the first year after construction.

15. On earth roads, establish a system of regular treatment with the "split-log" or a similar implement.

16. Smooth roads wear longest.—They shed water quickly.

17. Roads should receive constant attention. This is the most economical and satisfactory system of making repairs. Repairs should be made, not once a year, nor twice, but as soon as signs of wear appear. Special attention is needed in early spring and early fall, as at these two periods much can be done to prepare the roads for the ensuing season of particularly severe conditions.

Vulnerable.

The Winnipeg Tribune independent which has been a bitter critic of the Liberal Party, has recently been pouring hot shot into the Opposition whose weaknesses and worse than weaknesses have come in for severe condemnation. Dealing with Mr Sproule's latest fanatical outburst, the Tribune says: "The French members of Parliament may be guilty of all the things of which Dr Sproule accuses them—but to accuse them is mighty bad taste in any active member of the Borden-Foster-Fowler Opposition. Graft is not peculiar to any one part or section of the Parliament or Dominion of Canada. The French may be as bad as they are painted—BUT FOR THE REAL, SMOOTH, YET VARNISHED, ARTICLE, THE ENGLISH-SPEAKING MEMBERS OF THE OPPOSITION, WHO SIT IN A CIRCLE, A FEW YARDS IN DIAMETER, AROUND DR SPROULE, CAN MEASURE UP PRETTY WELL WITH THE BEST ON THE MARKET. Of course, Dr Sproule knows this—but, then, he does so love a good broad joke!" And these are the men and the leaders who are exploiting "scandals" and shrieking "graft!"

An automobile dashed along the country road. Turning a curve, it came suddenly upon a man with a gun on his shoulder and a weak, sick-looking old dog beside him. The dog was directly in the path of the motor car. The chauffeur sounded his horn, but the dog did not move—until he was struck. After that, he did not move.

The automobile stopped, and one of the men got out and came forward. He had once paid a farmer \$10 for killing a calf that belonged to another farmer. This time, he was wary.

"Was that your dog?"

"Yes."

"You own him?"

"Yes."

"Looks as if we killed him."

"Certainly looks so."

"Very valuable dog?"

"Well, not so very."

"Will \$5 satisfy you?"

"Yes."

"Well, then, here you are." He handed a five-dollar bill to the man with the gun, and added, pleasantly, "I'm sorry to have broken up your hunt."

"I wasn't going hunting," replied the other, as he pocketed the bill.

"Not going hunting? Then what were you doing with the dog and the gun?"

"Going down to the woods to shoot the dog."—[Youth's Companion.

Rev Father Robichaud of St Ann's, Madawaska, was in town this week the guest of Rev Father McMurray. The grand annual picnic at St Ann's will be held on Tuesday and Wednesday, 23rd and 24th inst.
