WOODSTOCK, N. B.

BANK OF MONTREAL

The Semi-Annual Statement of the Bank of Montreal, for the half year ended 30th April, printed elsewhere in this issue, conveys the tidings of another most successful period in the history of that great financial institution. Upon examination it will be found that the Bank has a paid up capital of \$14,400,000 with a Rest Account of \$11,000,000, and in addition a balance of profits carried forward amounting to \$422,689.98. The paper currency of the Bank in circulation amounts to \$10,751,307, while the Deposits total the stupendous sum of nearly \$131,000,000. For the past half year the net profits amounted to \$982,858.14, after deducting for all bad debts. The Bank pays its shareholders 10 per cent, and the stock is quoted at 247. These facts show the Bank to be in splendid financial condition. The local agency is conducted by Mr G A White, a gentleman of the highest standing in the community, and most popular with the patrons. Assisting him is a staff of clever banking men, at the head of which is Mr J S Croighton, the gentlemanly accountant, who is also one of our most universally respected citizens.—J W Wallace, teller.—R J Flemming, ledger keeper.—Walter Sprague, discount clerk, —and F D Ruggles junior.

The Council and the Company

His Worship the Mayor and those of the Council who are aiding him in the unfortunate difference between the Town and the Electric Power Company seem to be resting their case upon the exact wording of the Contract, without any regard whatever for the verbal understanding to which His Worship was a party,—viz, that the town wires would be put in good repair before the Electric Power Company commenced supplying the lamps with current. Couns Dunbar and Fisher are in the same boat with the Mayor,—like him they were members of the preceding council, and should recollect the promise agreed upon by the whole Council while formally discussing the plans with the Directors of the Power Co.

At the very time when the Contract was signed, the Town had made a start in the work of repairing their wires, as agreed upon, and on the assumption that the Light Committee would complete the undertaking, the Power Company did not consider it essential to have a synopsis of the understanding put into the contract. That the Town did not do all its representatives morally bound to perform, is no fault of the Company. If it be as is improbable that the four new Councillors are content to rest their case upon the exact wording of the Contract, and thus force the Mayor and his two senior colleagues into a most unpleasant situation, all well and good. Of course in the event of litigation it would be plain enough that the case would have to be decided upon the wording of the contract. In other words this council may if it wishes to stand upon a technicality, refuse to do what the preceding council tacitly bound the Town to perform, as the Power Company trusted the old council, and had every confidence that the new board, more especially the former chairman of the Light Committee, would endeavor to carry out that which the town is morally bound to perform. Failing this on the part of the present council, the Power Company will undoubtedly have to do the work itself. There is an old adage "Put not your trust in princes." Perhaps it might be widened in scope so as to include Town Councils.

Fool Regulations.

The fools are not yet all dead, some of them are even holding high official positions. One of the latest asinine measures to attract public attention is an edict by some irresponsible idiot compelling military cadets to refrain from shaving their upper lips! Just imagine such a regulation in a free country! It is moreover stated that one cadet sergeant who defied the regulation has been reduced to the ranks, and may not pass his final examination this year owing to the deduction in marks consequent upon his infraction of the rule! Shades of the Inquisition! If this is not enough to make young men sick of military training we should like to know what would be sufficient.

A Snap.

We have a big lot of 6 line bill heads, which we wish to clean out. The biggest snap ever offered. Come in and quiz us about them.

A Possible Slate.

Our provincial premier, it seems, has made up his mind to resign. Some papers which should have sources for getting reliable information, place the time of his stepping down quite near at hand. Though the date for the St John by-election has not been set, the Premier doubtless feels that having undertaken the task of capturing a seat in another field, it is part of his present duty to step down and out, in order that the local government may at once come under the leadership of him who is destined to lead the party to victory.

Hon Clifford W Robinson is of course to be the new Premier. He is a young man of great ability, a Liberal to the core, and personally popular. He has never known defeat save in the campaign of 1896, when as a mere stripling he confronted Mr H A Powell in the then tory hive of Westmorland in what seemed to be a forlorn hope, with the result that Mr Powell had his majority cut to fifteen. Having thus broken the back of the tory party in the banner Eastern County, Mr Robinson accepted a nomination for the Legislature, to which he was triumphantly elected, and ever since the county has been in the Liberal column. It is not known who will be called to serve in the new cabinet. Rumor has it that Hon Messrs Sweeney and LaBillois are to leave the stormy sea of political life and embark upon a period of rest on flowery beds of ease. We do not pretend to have any inside information, but give the following as a mere guess concerning the personnel of the new cabinet.

Premier and Provincial Secretary, Hon Clifford W Robinson.
Attorney General, Hon Wendell P Jones, K C.
Solicitor General, Ora P King.
Commissioner for Agriculture, Hon L P Farris.
Chief Commissioner of Public Works, Hon C J Osman.
Surveyor General, T M Burns.
Without Portfolio. Some Acadian, and perhaps a St John gentleman.

Men's and Boys Furnishings. Every line is full of fashion, wearing quality and at a price lower than competitors. Come in—get our quotation—compare them and prove for yourself that our prices are right. Shirts, Collars, Ties, Hats, Caps, Hosiery, Underwear, Sweaters, Braces, Gloves and Overalls—Everything a man or boy needs in dress or working clothes is here.
