## Here Is The Chance Of a Life Time.

May be there has been some one overlooked at Xmas that you still wish to remember. I still have a large stock of exquisite Jewelry, Brilliant Cut Glass, artistic Silverware, both plated and sterling, and beautifully designed Clocks, which I am sure you will be able to make a selection from.

## Velox Post Cards

Make use of your last summer's vacation. Negatives and print Velox Post Cards in the long winter evenings. They print by lamp light. Very interesting work.—You can please all your friends. I KEEP VELOX and all the necessary materials for working it. Give it a try.

### Letter from Georgia.

DEAR SENTINEL:—This is the first day of February 1907 and it is raining and has been for three days. This comes a little hard on us following such a beautiful spell of weather as we had for several weeks previous to this rough spell, but we must take what God sees best to bestow in His wisdom to the workmanship of His hands. Fruit men report the peach crop safe, as this cold weather will keep blooming back until all danger is past. This generally blooms in February and after that time fruit is seldom hurt. It is reported that great damage has been done to the orange trees in Florida. This seems a calamity. Since I wrote you before I have been from home about one hundred and fifty miles to a big protracted meeting. It was in power and demonstration of the spirit far in excess of anything I have witnessed since the historic reformation in New Brunswick in 1842 and 1843 when the gospel flame spread almost over the entire province and hundreds were saved and made happy in God. How fresh those days are in my mind yet, though over 60 years have rolled by since that time. I wonder how many are living there now who remember those scenes? But about this meeting: I want to say the Lord wrought a marvellous work of grace in that little town of Adrian. It might be called a mill town, as it grew up from the establishing of a large saw mill and planer, and other industries. And a great many of its citizens are working people and needed just such a blessing. Over one hundred were converted among them men hardened in sin from past middle age down to youths and some children. Doctors and lawyers, merchants, bankers. These conditions applied to both sects, rich and poor. But I must leave out the editors, for unfortunately for them there was none of them there. I spent about a week there drinking it in as far as I was able to receive it. The meeting closed last Sunday and I learn the fire is still burning. God grant it may continue until every un-saved soul is reclaimed and all the dross and stumbling blocks are burned up and the way clear for the coming of God's Kingdom all over Georgia. Many young men and girls after conversion when the invitation to come to the altar was given would go out in the audience and bring their companions and friends to the altar, and there bow with them and try to persuade them to surrender their lives to Christ. There were grand scenes with grand results and lasting good to all who would embrace the opportunity.

The farmers here have planted their fall oats and rye and are fixing for cotton and corn. This has been a very good year for business in this country for while some fall others prosper, but it has been an average business year. Mules are very high and labor scarce and unreliable. Our state is moving in an emigration scheme. I hope it may be a success for more labor is needed in all of the cotton belt, both in agriculture and manufacturing departments. Our College for girls is flourishing with about four hundred pupils and our free school has about two hundred students; mixed—boys and girls. We need one more law in our state to perfect our educational system, compulsory school attendance. I suppose you are enjoying the snow and ice common to Canada. From a private letter from Maine I learn they had two feet of snow; such information will make a Georgian shrug his shoulders and hitch closer to the fire with the remark, "I don't want to live in such a country as that," but I say those people do not suffer more than here with the cold so long as it lasts here. I am glad to see the temperance sentiment on the increase all over this continent, but I am sorry to see your city is so much in debt. Can't the wise boys (City Fathers) economize a little more; perhaps not; so you must do the best you can and forge ahead, and may God bless and prosper you all in every honest move for the good of all the people. E. T. MALLORY.

The government evidently intends to bring on the Victoria—Mada-waska by-election at an early date. We hear that a nominating convention is to be held next week in Edmundston. The standard bearer will possibly be Rius Michaud, barrister, a young man of much capacity. Other names are mentioned as well. The disposition of the opposition is unknown, yet they are beginning to pluck up courage sufficient to make at least a show of resistance.

Mrs. Walter Hay is visiting friends in Millville, York Co.

### The Convention.

Word comes from every section of the county indicating intense interest in the Convention to be held on Tuesday. The delegates from Northampton are Charles F. Rogers and Conn Phillips. Solomon Perley and William Everett will represent the Upper Woodstock poll. To-night there is to be a big rally at Johnville. To-morrow (Saturday) evening Hon. Mr. Jones and F. B. Carvell M. P. are to hold a meeting at Centreville for the parish of Wilmot and Back Wicklow. This will be an important gathering. By all means let as many of the rank and file of the party as possibly can do so be in attendance at the Convention. Remember the date and place: Tuesday afternoon in Graham's Opera House. Monday night there will be a meeting for the town of Woodstock in the K. of P. Hall on King St. for the election of delegates. All Liberals are invited. The chair will be taken at 7:30 sharp.

### Fewer Dismissed.

At the first meeting of the new council Joseph Fewer, commissioner of Water Works and Sewers, was unanimously dismissed. Every other town official was unanimously re-appointed. No reasons were given for the exception in the case of Mr. Fewer. If he has been a good official the council will have difficulty in defending their course. We sincerely trust that party feeling has not contributed to his overthrow. If there be any valid reason why Mr. Fewer should be dismissed, and all the other officials retained, the people would certainly like to possess the information. If no excuse be set up, the dismissal will be regarded as a rather childish action.

Major Harry McLeod, as Mayor of Fredericton, would probably consider his chances better to become H. F. McLeod M. P. in the next local election. Another Capital barrister with an eye on a seat in the House is Mr. Arthur Slipp, who is being urged to run in Queens, but that is very poor soil for tender opposition plants to thrive upon. The removal of H. A. Powell ex-M. P. from Sackville to St. John is said to be largely with a view to political activity. It is well known that the opposition leader has a high estimate of Mr. Powell's ability, and would welcome him as a candidate in the city of St. John. The leader himself has no intention of abandoning his Sunbury friends, but may be induced to run as well in the city, a bold move to inspire greater confidence in the ranks of the faithful.

Garnet Baird is now with a G. T. P. surveying party. He recently shot an eagle at Prince Rupert, on the Coast, and sent it to the proprietor of the Winnipeg Hotel to be mounted.

## SEND

FOR  
THE

## Doctor

Symptoms signify the approach of some disease—what disease few can tell. It takes years of study and experience to do that. Send for one who does know—your doctor. He will diagnose the case and write for the needed remedies. And, by the way, the remedies should be exactly right—pure and accurate to the fraction of a grain.

### Bring Your Prescriptions to Us.

and you'll get what the doctor orders. It's as important to have your medicines put up by our experienced pharmacist as it is to employ an experienced physician.
