

DOCTORS MISTAKES

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their easy-going or over-busy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, ignorant of the cause of suffering, keeps up his treatment until large bills are made. The suffering patient gets no better, because of the wrong treatment, but probably worse. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and insulating comfort instead of prolonged misery. It has been well said, that a disease known is half cured.

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any condition of the female system.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," run-down, debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nerve tonic "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

Notice of Sale.

To Frank H. Wright of the Parish of Canterbury, in the County of York in the Province of New Brunswick, Farmer, and Carrie A. Wright his wife, and all others whom it may, doth or shall in anywise concern:

Minard's Liniment Cures Dandruff.

Sent up for Trial.

Police Magistrate Dibble rendered judgement Saturday afternoon in the case wherein B. Frank Smith, M. P., is accused of fraudulently receiving logs without the consent of the owners. Mr. Smith was sent up for trial at the term of the county court which will be held on the second Tuesday in July. J. C. Hartley and George E. Balmain went bail for the accused, the recognizances being fixed at \$200 personal and \$100 each for the sureties. Mr. Dibble in giving his decision spoke in part as follows: "As there seems to be quite a desire on the part of some persons in this town to make this matter appear partly political and partly a case of malicious persecution on the part of the deputy sheriff against Mr. Smith and believing as I do that the administration of justice is often injuriously affected by misrepresenting the motive of public officers in the performance of their duties, I wish to call the attention of all concerned to the facts as disclosed in the evidence and not in any way contradicted. Mr. Foster was appointed an inspector of the St. John River for the Log Driving Co. on the eighth day of May. Some time about the middle of the month he was at Bristol, and that day after tea he received information that one Tize Dyer was picking up logs. Foster immediately laid information against Dyer, arrested him and took him to his own house for the night. Next morning he took him to the home of Smith and allowed the two to have a private interview. After this the deputy permitted Dyer to have an interview with Mr. Tompkins, without in either case hearing what took place, and in answer to Mr. Hartley on cross-examination Foster had said he had been willing to have Dyer plead guilty to stealing the logs. Right here it must be noted that while the company hired Deputy Sheriff Foster as an inspector and had him make arrests they put the prosecution in the hands of their legal adviser, who was willing to take all responsibility for refusing to allow a formal plea of guilt to be entered by Dyer."

After some further exoneration of the deputy sheriff, the magistrate went on to state that after a careful reading of the evidence as brought out at the examination, he was forced out of regard to his oath to order the case sent up to the higher court. Mr. Hartley stated that bail to any amount could be furnished. The magistrate in reply said he had no reason to impose irksome conditions, and would even be prepared to accept the defendant's personal recognizance, but on the suggestion of the defense that the statute had better be strictly observed, sureties were entered into as above mentioned.

EVIDENCE.

Tize Dyer, (Sworn). To Mr. Carvell—I live in Bristol in the County of Carleton, in the parish of Kent. My occupation is common labourer.

Q What were you doing during the early portion of the year 1906 after the ice ran out of the river?

A I was working for Mr. Smith—Mr. B. Frank Smith.

Q What were you doing this year after the ice ran out of the river?

A I was not doing any thing very much. After the ice ran out I was rafting for Mr. B. Frank Smith.

Q Where were you rafting first?

A At Bristol.

Q When you got through there what did you do?

A Went to Bath and rafted.

Q Where is Bath?

A Three miles above there, in Carleton County.

Q What did you do there?

A I rafted logs for Mr. Smith.

Q What logs were they, give us some intimation?

A Spruce logs.

Q From whom did you get them?

A From Harry Giberson I think.

Q Was there anything among them except Spruce?

A Qes, I think, poplar.

Q Anything else?

A Fir.

Q Mostly Poplar and fir?

A No, mostly spruce.

Q Do you think there would be two-thirds spruce?

A Oh, yes, I think it would be more.

Q There was some poplar and fir among them?

A Yes.

Q Large or small spruce?

A Good logs, I would call them.

Q Had any of them laid in the river the year before?

A I don't think it.

Q Where did you get them?

A On the bank.

Q Was the bark off any of them?

A Not that I know of.

Q All new bark logs?

A Yes.

Q Would there be any difference from those logs that laid in the river?

A I should say there would be.

Q Any difference in the logs from those that had come down from the upper portion of the river?

A Yes, there would be.

Q Could a lumberman tell the difference?

A Yes, I think he could.

Q What did you do there?

A We rafted all we had and ran them to Bristol.

Q Did you see Mr. Smith in the meantime?

A Yes.

Q Where?

A At Bath.

Q What took place?

A He told us to finish up there and run them to Bristol.

Q Did he tell you anything else?

A Yes, he did not say anything else himself.

Q Tell what took place?

A Adolphus Lovely was working with me, Adolphus Lovely and Billy Brnham and myself.

Q What took place?

A Lovely says, "Mr. Smith there is lots of prize logs running."

Q What did Mr. Smith say?

A I think he said why don't you put them in the raft?

Q Have you any doubts about his saying that or words to that effect?

A I think that is what he said.

Q "Why don't you put them in the raft?"

A Yes.

Q Did you put them in the raft?

A The next day we did.

Q How many?

A Six or seven.

Q Did you consider they were prize logs?

A Yes, we did.

Q Were there any marks on them?

A There was one had a couple or three hacks, there was one with a M mark.

Q That was a very nice one?

A I don't know it was any nicer than some we had, it was a good log, I guess.

Q In the corner of the raft was it, locate that log?

A I could not say.

Q Was it on the up river corner next the Bath shore?

A I could not say.

Q You know it was a good spruce log with three hacks on it.

A Yes. All I noticed there were three hacks, I did not notice very particularly.

Q After you got that raft floated at Bath, how many joints did you have in it?

A Five joints.

Q What did you do with it?

A Ran it to Bristol.

Q Before you had rafted this raft did you pick up any other logs?

A When I was rafting at Bristol I picked up some.

Q How many?

A I don't just know how many.

Q As near as you can come?

A 17 or 18, I guess.

Q Enough to make a joint?

A Yes.

Q Did you have them fastened together?

A Yes, fastened together in a way.

Q Did you have any talk with Mr. Smith about them?

A Well, he came up to Bath, he seen the logs and asked me who they belonged to; I told him I guessed they belonged to me; he asked me what I was going to do with them; I told him I thought I would put them in his raft. That is all was said.

Q He did not tell you not to, nor to do it?

A No.

Q When you went down with your five joints what happened?

A We went down and the raft ran into this joint at the shore and broke it up.

Q Did you get any further word about this joint of logs?

A Well, the morning I went to Bath to finish up Smith sent word by Adolphus Lovely, so I understood—(Obj.)

Q You did have some talk with Lovely about this joint, did you?

A Yes.

Q When you ran down you ran into this joint and partly broke it up?

A Yes.

Q Then what did you do?

A I rafted over again.

Q What did you do with it?

A Put it into the raft—the Smith raft.

Q Which end?

A The lower end.

Q That made a raft of how many joints?

A Six.

Q Who was there at that time?

A When we put on the other?

Q Yes?

A Nobody but ourselves, when we put it on, but Mr. Smith and John R. Tompkins when we rafted.

Q How close to this joint when you rafted it?

A 10 feet I guess.

Q Did you see them on the logs, on the raft or joint of logs?

A No.

Q Were they on the main raft?

A Yes.

Q Within ten feet of the joint while you were fastening the main raft?

A I would not say ten feet, within 20 feet anyway.

A Did they survey this raft?

A I supposed they were surveying
