You Can Bank on OAK HALL

Ready-to-Wear Clothing,
Overcoats, Winter Underwear,
Gloves, Caps, Hosiery, Sweaters, &c.

Oak Hall Clothes pay big interest on your investment. They are sold to you with the expectation that you will be coming in to see us again.

When we sell a man an Overcoat we are giving him the best that money can buy. We are here to make good anything that goes wrong.

The new coats show distinctiveness in fabric, style and fit; they are not ordinary coats. Greys and Blacks are leading sellers, but pattern coats have also a big place in the choice of good dressers.

OVERCOATS, \$6.00 to \$18.00
SUITS, \$5.00 to \$18.00

3 ENTRANCES:

Main, King and Wellington Streets.
Oak Hall. MANZER.

TOWN COUNCIL

The Council met Monday night in regular monthly session, the Mayor presiding, and the full board present. In the absence of the Clerk, John P. Maloney took the minutes.

The Town Treasurer's report showed receipts of \$1692 during month, and a credit balance of \$1241.52 on Oct 31st. Up to date the expenditure for the year is slightly in excess of \$30,000.

The Marshal's report of tax and license collections for October was submitted, showing \$496.30 in receipts.

The Mayor asked why Lyons, the man on King Street, paid only \$30 license, while Yerxa, the grocer was held up for \$60. Ald Noble in reply said the by-law provided that the fees should be \$5 per day, \$20 per week, \$30 per month, and \$60 per year. Yerxa had applied for a yearly license while Lyons asked for only a month, and the request was acceded to in each case.

On motion of Ald Burt, ex-Mayor Jones was heard concerning the wharfing along the creek which he claims is damaging his building by pushing it gradually into the stream. He thought the town should go ahead and look after the matter, as unless it is soon remedied there will be serious loss. The committee secured an extension of time, with the understanding that it should report this (Friday) night.

Ald Burt from the special committee on Gold Street, reported satisfactory progress.

Ald Dunbar re the money due the John McDougall Caledonia Iron Works on their contract for the new pump, said the concern want the town to pay the expenses of a man to come down and represent them at the test provided for in the contract. The Mayor wanted to know how much we owe the McDougalls. He said there was a penalty for delay which should be kept back, and this council would never pay the bill in full. Ald Dunbar replied that the bill should be paid for the simple reason that the town had suffered no loss, in fact the town would have been the gainer if the pump had never started at all. He would go for paying the whole bill.

Mayor Munro figured that the company was 78 days late in getting the pump ready, therefore \$780 should be deducted. He said the concern had never operated the pump satisfactorily for a week, as provided in the agreement. This remark aroused Ald Dunbar's ire. Said he "Do you mean to say that my concern didn't run that pump a week for the Company, whom we represent as agents in installing it?" This had the effect

of causing his worship to haul in his horns a trifle, and Ald Hagerman then took up the parable. He wanted Ald Dunbar as chairman of the Water Committee to name suitable experts to officially test the pump, in the presence of the Council and citizens. Seconded by Ald Burt, this was carried.

Ald Dunbar again brought up the liquidate damages which it is proposed to keep back from the John McDougall Caledonia Iron Works. He wanted the thing fixed up. The Mayor said he for one would go for retaining the \$780, and let company enter action if they saw fit. Ald Sutton and Ald Hagerman said their sentiments entirely concurred with those of His Worship.

Marvin Smith sent in a request for a license to start a bowling alley in the Payson building, Connell St. A division took place at this point. Ald Fisher wanted to have consideration laid over until Friday night. Ald Noble wanted it threshed out at once. The vote was a tie, Burt, Noble and Sutton wanting to settle it right off, and the mayor giving the casting vote in their favor. Ald Noble, seconded by Ald Sutton, moved that the request be not granted.

Ald Hagerman said bowling alleys were no harm. He moved in amendment that the request be granted. Ald Fisher agreed with Ald Hagerman, and seconded the amendment. He said the bowling alley is rather a help than a hindrance. Discussing the point Ald Hagerman said pool rooms and bowling alleys should be encouraged, rather than hampered. He wanted any person who thought differently to get up and prove it.

Ald Noble accepted the challenge and said there was temptation to boys to defraud their employers. Ald Burt said level headed men would no doubt get along safely while patronizing a bowling alley, but to give Smith a license would be a hurt rather than a help. Ald Hagerman wanted to know what worse it is to run a bowling alley than a bank. Ald Burt said if the business were a proper one why license it at all. After a mix up in which a lot of councillors got excited, the division was taken, only Couns Fisher and Hagerman voting for granting the license. Ald Sutton explained that he had no great objection to a license providing the premises for which license is asked be situate along the Main Street.

A number of bills and accounts were read and referred to the finance committee.

Ald Dunbar said a lot of water pipes along Grover street are almost above the ground. Someone suggested that conditions in Wellington Ward were about as bad. "Folk up Grover Street need a smart man like Ald Hagerman to look after their interests" said Ald Noble. "He's like myself" replied Ald Dunbar "his committee has no money."

Ald Hagerman wanted to know what is being done to get a whistle for fire alarm purposes. He suggested having one installed at some plant where they have steam every hour in the day. The Mayor suggested an automatic blower or compressed air. Ald Dunbar said it takes about 50 lbs pressure to blow the whistle. Ald Fisher thought it would be well to keep up enough steam to blow the whistle any time of day at the pumping station. This appealed to Ald Hagerman, who seconded by Ald Dunbar, moved that this be done during the coming winter. Ald Hagerman said the place must be kept from freezing, and surely the extra expense will be very slight. The motion passed unanimously.

Ald Dunbar brought up the question of help at the pumping station. He felt that the work is altogether too onerous for one man. He had always held this view. Ald Hagerman agreed that more help is necessary during the winter. The Mayor wanted to know if anything is being done to stop the leaks. Ald Sutton said the leakages are not in cellars or streets or around the pump. The trouble is that a whole lot of people pay for one tap, and use two or three. He said the proper way is to make every man use a meter. Ald Dunbar replied that meters were out of the question, because they would nearly all freeze up. Engineer Barbour condemned meters for Woodstock under existing conditions. The Mayor advised Supt Carr and Chairman Dunbar to get all possible leaks fixed up before the ground freezes. "If the Supt can't do the work himself he should get someone to go around and examine every service" said the mayor. Ald Dunbar in moving that Supt Carr carry out the Mayor's suggestion, expressed the view that 50 per cent of the town water is wasted. Ald Sutton, as seconded, said that while Supt Carr was doing the best he could and

perhaps all that he is paid for, he felt that the Supt should be a man who can take a wrench, cut pipe, or do any work in his line. Ald Fisher said this was a poor compliment to the present official. Ald Hagerman sought to enlighten the board concerning the duties of a superintendent, who to his mind, should be an overseer, not a mere workman. Richmond Street has been encumbered with rocks too long to suit Ald Sutton. He asked to have them removed. Ald Hagerman complained of a mound attached to a man-hole on St Gertrude Street. "Why don't you as chairman of sewers fix it" was the reply of the mayor. "I called the Supt's attention to it" said the Alderman.

Supt Carr addressed the Council. He said he had been called down by some whom he had urged to clean up the Streets. If the councillors could only get away from their own dooryards they would find that more work has been done on the roads this summer than in the previous three years. Last year a hole on St Gertrude's Street was filled in and cost \$80. This year similar work hadn't cost a cent.

Ald Fisher said Supt Carr's remarks were correct, but he for one did not find fault with the work that was done but rather because of that which was left undone even after a unanimous order of the board. He instanced several instances in connection with necessary repairs to Richmond St the delays in connection with which to his mind were simply gross negligence.

Ald Noble wanted a few places in Chapel street fixed up, but Ald Dunbar said there was no money. He moved that there be no special repairs, but that all defective spots be righted, provided there is money. Seconded by Ald Hagerman, this was carried. It was ascertained that a balance of just 21 cts remains to the credit of the Supt for road repairs, and no doubt this sum will be judiciously expended under the terms of the motion.

A Sunday school has been organized at the Bateman school, five miles north of town, and Geo H Stokoe has been appointed superintendent. It is held at 2 o'clock on Sunday afternoon, and it is hoped to have a regular preaching service following at 3 o'clock each Sunday.—Daysland Press.

Yes, We Do.

The Premier denies that the important office of attorney general had been hawked about the country from lawyer to lawyer. We know now who succeeded Ananias.—Press.

Add to your lengthy and ever increasing list of prominent liberals in this county and Victoria—who are liberals still—now supporting the opposition party, the names of James E Porter ex M P P, government candidate at last election in Victoria and that clever young lawyer M L Hayward L L B of Hartland.—Press, same issue as above.

We always thought the modern Ananias was not far removed from the author of the political articles in our contemporary. Just to show that our impression is fairly well-founded, we print herewith a flat contradiction from one of the gentlemen whom the Press says is now in town with Hazen. Here is the letter.

Hartland, N B, Nov 6th.

Editor Sentinel,
SIR,—My attention having been directed to a paragraph in Monday's Press to the effect that I had withdrawn my support from the local government, I wish to take this opportunity of saying that I am not supporting the Opposition and it is not my intention to do so. The article came as a complete surprise, and is of course, utterly groundless.

Yours, etc,

M L Hayward.

Mr Aaron Perry, M. A., has resigned from the Victoria, B. C., high school and accepted the position of teacher of English in the Okanagan College—the Acadia of the West. The outlook for the college of which Professor Sawyer, of Wolfville, is the principal, is excellent. Two brothers, James and Rev Thos Ritchie, have put up a fine \$30,000 building, and donated it, with a twenty acre lot, for a campus, to the Baptists of British Columbia. The school opened on the 10th of October with a large attendance.—Maritime Baptist.

Rev CF Rideout passed through the city Saturday night from Wolfville enroute to his home in Middle Simonds, where his sister, Della, will be united in marriage on Wednesday next to Murray R Cliff, of Lower Queensbury, York county.—St John Telegraph.
