A Great Scotch Night.

The eyes of the world are on Canada today, and from all points of the compass the people are pouring in to the fair Dominion. In Scotland in particular, the land of brown heath and shaggy wood, which has sent and is sending its best blood, and whose sons have played, and are playing such an important part in building up this Canada of ours, the ceaseless stream of emigration is arousing interest in Scotchmen and awakening deep thought. It is but natural therefore that the Singer in common with others should desire to widen his horizon by a tour in our wonderful country. It is but natural that the sons and daughters of Scotland on Canadian hill and plain, even to the fifth generation should yearn to hear from time to time, "the auld scotch sangs" rendered by a master. Many more or less famous scotch singers have come and gone, but the greatest of them all has hitherto refused all tempting offers to visit this country. Music loving Scotland could ill spare her favorite son, but this consummation so devoutly to be wished has at length come to pass and during this fall the King of Scottish Tenors, J. H. Hamilton, the man who has done more to popularize Scottish song than any living vocalist comes from Scotland at the head of his own company, The Imperial Scots. The company is already heavily booked, the opening date being Nov. 6th, at Carnegie Hall just three days after their arrival in New York by the giant liner Lusitania. This greatest of Scottish Attractions will be in Woodstock on December 3rd.

The Imperial Scots Concert Company which is booked to appear here on Tuesday, Dec 3rd includes one of the finest scotch sopranos that Scotland has ever produced, and fully the equal now of Jessie MacLachlan who on her various visits here has made such a tremendous success. This is Miss Mary McLeod of Glasgow. Miss McLeod is but one of a company of scotch artists who cannot avoid making a very brilliant success here. Miss Craig the scotch humorist will also be a great hit, as her work is of a new order. Don't forget the date, December 3rd.

Notes by Calvin Green.

The C. P. R. owns and controls one of the largest and longest railways on the globe. Every part of Canada is favored with this great road. They do a great business on this Northern Division. From McAdam they average from 8 to 10 trains a day, and specials about 365 days in the year. The engines on this division haul from 28 to 90 cars per train. This division is 250 miles long, more or less. Mr. Newcomb is the right man in the right place. Under his able direction everything moves like clockwork. He has very able men in the right place to assist him. They assist me by purchasing the Home Herald.

A few years ago the C. P. R. enlarged their Woodstock plant and now they have done some more in that line. This is a good evidence that the line runs through a prosperous section. The freight house has been enlarged 70 feet. The office is well planned and convenient. The men in charge are in the right place. Mr. Manzer is the Station Agent. He is a man of ability.

The C. P. R. has recently lengthened the siding at Green Road. If our governments in the past had managed the business for the Dominion of Canada as well as the C. P. R. manages their business by sea and land then we would be clear of debt. The C. P. R. is a good example for the rulers of the Dominion of Canada to take notice of, local government included. Mr. Newcomb is fortunate in having a staff of convenient and well qualified assistants in all branches of railroading. Station agents, Conductors, brakemen, baggage masters, and section men included. The C. P. R. is all right in every sense of the word. They lay the foundation with cement and rock.

In connection with the vast territory at a rough estimate from 16 to 20 thousand miles by sea and land, more or less with powerful locomotive guided by competent engineers, around mountains, over prairies, encircling lakes, crossing rivers and precipices from two to three hundred feet, it is very evident that the C. P. R. can go where any engine goes if its to the top of Mount Canaan. The C. P. R. has a number of large ships that do business on the sea from one nation to another. The prospect is that the C. P. R. is doing more by land and sea than any other company on this side of the globe. The prospect is the C. P. R. will extend their line in the future as they have in the past. The Houlton branch, the Gibson branch, the Tobique branch and the branch to Fort Fairfield and Presque Isle.

The meats that satisfy are the kind that are for sale at The People's Cash Market.

A Jonah for Sure!

Certain Opposition organs, including the local one, are making dutiful references to the great strength of the men already nominated to carry Mr. Hazen's colors in the provincial elections. One of these gentlemen, whose name is Jonah, has been put up in Albert County. He was a member of the County Council last year representing the parish of Elgin, but in the municipal election a few days ago the people of that parish turned him down good and hard when he sought re-election. He will now be able to sympathize in advance with his friends in general. A man turned down in his own parish has a poor show of carrying the county.

THE KICKER.

A Woman's Back

Has many aches and pains caused by weaknesses and falling, or other displacement of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness. If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over forty years of cures. It is the most potent invigorating tonic and strengthening nerve known to medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful, or habit-forming drugs. Its ingredients are all printed on the bottle wrapper and attested under oath as correct.

Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of woman's ills.

You cannot afford to accept any medicine of unknown composition as a substitute for this well proven remedy of known composition, even though the dealer may make a little more profit thereby. Your interest in regaining health is paramount to any selfish interest of his and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for.

Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by Dr. Pierce over forty years ago, much imitated but never equaled. Little sugar-coated granules—easy to take and
