

PASTOR AND PEOPLE PRAISE PSYCHINE (PRONOUNCED SI-KEEN)

A Marvellous and Triumphant Record
of Victory Over Disease.

No medicine has ever effected as large a number of wonderful and almost marvellous cures as Psychine. It has had one continuous record of victories over diseases of the throat, chest, lungs and stomach. Where doctors have pronounced cases incurable from consumption and other wasting diseases Psychine steps in and rescues numberless people even from the very verge of the grave. Coughs, Colds, Catarrh, Bronchitis, Chills, Night Sweats, La Grippe, Pneumonia, and other like troubles, all of which are forerunners of Consumption, yield quickly to the curative powers of Psychine.

Mrs. Campbell, one of the many cured, makes the following statement:

"I cannot refrain from telling all who suffer of my remarkable recovery with Psychine. In April, 1902, I caught a heavy cold which settled on my lungs and gradually led to consumption. I could not sleep, was subject to night sweats, my lungs were so diseased, my doctor considered me incurable. Rev. Mr. Mahaffy, Pastor of the Presbyterian Church, recommended Dr. Sloan's Psychine to me, when I was living in Ontario. After using Psychine for a short time I ate and slept well, the night sweats and cough ceased. Months ago I stopped taking Psychine, as I was perfectly restored to health and today I never feel better in my life. Psychine has been a god-send to me."

PSYCHINE never disappoints.
PSYCHINE has no substitute.
There is no other medicine "Just as good."

BY LAW ON BEER.

The legislation for which the Town Council is asking, contains a provision by virtue of which power is sought to pass a by-law regulating the sale of non-intoxicating drinks, such as lager beer, ginger beer, soda water, etc. The idea of those behind the measure, is we think, largely along the lines of putting the traffic more in the open. No complaint is made concerning the soda water men. What the promoters do ask, however, is to be placed in a position whereby beer must be sold just as publicly as soda water is now served. There must be no screens, back rooms, or any other device to hide the traffic. This, we believe, is the pith of the whole matter. Perhaps in the case of lager there will be an age limit keeping it from very young boys, and no doubt beer licenses will contain a proviso calling for early closing. The idea of a high license will scarcely receive undivided approval and we may safely assume that it is not the intention of the Council to make any money. What action the Legislature will take remains to be seen. There will certainly be some opposition.

JUST AS WE PREDICTED.

The Mayor's little reception in the Council Chamber Friday night was attended by about a score of ratepayers. There were addresses by His Worship, ex-Warden Bailey and ex-Mayor Belyea. All were in favor of fixing the engine, as of course any sane man would be. The meeting decided to recommend the repairs put on at once. The mayor, of course, very bravely had a little characteristic fling at this paper, behind the back of any representative. The next time he had anything to say let him wait until there is someone there to answer him.

Your Doctor

Can cure your Cough or Cold, no question about that, but why go to all the trouble and inconvenience of looking him up, and then of having his prescription filled, when you can step into any drug store in Canada and obtain a bottle of SHILOH'S CURE for a quarter.

Why pay two to five dollars when a twenty-five cent bottle of SHILOH will cure you as quickly?

Why not do as hundreds of thousands of Canadians have done for the past thirty years; let SHILOH be your doctor whenever a Cough or Cold appears.

SHILOH will cure you, and all druggists back up this statement with a positive guarantee.

The next time you have a Cough or Cold cure it with

Mr Bourassa has done well to demand that the insinuations, reflecting upon the honor of members of Parliament, flung out by Mr George W Fowler, the member for Kings, N.B. shall be made good or retracted. The private conduct of members, unless it is such as to constitute a public scandal, should not be made the subject of Parliamentary discussion. The deplorable thing is that a man so lacking in good taste as to make insinuations of that sort against fellow members should have a seat in Parliament. If Mr Fowler imagines that he can choke off discussion of the Northwest land deals of the Tory syndicate by dark threats about "wine women and graft," he is making a sad mistake. If he desires to "carry the war into Africa," he may be given the opportunity to make his promised revelations when the report of the Insurance Commission comes before the House. In the meantime he has so far repented as to admit that he spoke in heat.

BE THERE A WILL WISDOM POINTS THE WAY.—The sick man pines for relief, but he dislikes sending for the doctor, which means bottles of drugs, never consumed. He has not the resolution to load his stomach with compounds which smell villainously and taste worse. But if he have the will to deal himself with his ailment, wisdom will direct his attention to Parmelee's Vegetable Pills, which, as a specific for indigestion and disorders of the digestive organs, have no equal.

A Square Deal

Be assured when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent cures are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz—pure refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and indigestion, derangements of the stomach, liver and bowels. Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages, it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchitis, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hacking coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

THE CONSERVATIVE TICKET.

We are not going to follow the foolish tactics of the opposition organ and say that the other fellows have nominated a very weak ticket, when every man who has a mind of his own knows the very reverse to be the case. We will give credit where it is due, and state right here that the Conservative Convention by its action on Saturday last placed a strong ticket in the field—perhaps the strongest three available,—yet without that, a ticket in no way superior, and in many respects inferior, to Messrs Jones, Carvell and McCain, the opposition trio.

We do not think Mayor Munro or any of his friends will claim for the chief magistrate a degree of strength at all commensurate with that of Mr Hartley, who in 1903 was an opposition candidate, but in the present fight is far too wise to play the part. As to Messrs Smith and Flemming, they barely secured election last time when luck was with them, as well as the advantage gained by unfortunate dissensions within the government ranks (now, happily, healed and forgotten), and if that was the best they could do struggling with the wind and tide, where will they be when the elements are against them? Compared with the government nominees, Messrs Smith Flemming and Munro are by no means an improvement. The Solicitor General is certainly quite as intelligent as the Mayor, Mr McCain is just as capable as Mr Smith, and surely the benefit of Harry Carvell's solid common sense would be better for the country than all the pleasing though ineffective platitudes Mr Flemming could utter in the next five years.

The nomination of Mayor Munro is the culmination of an idea that first developed over two years ago. In his campaign for the mayoralty of 1906 it will be remembered that H D Stevens was first in the field, and although a pretty stiff conservative, the Liberals had no thought of opposing him. In a week or so Mr Munro took the field in response to the request of a machine delegation. The outcome need not be given. The factional fight resulted in but a small Liberal vote going to the polls, but of the conservatives, every man the machine could pull, voted for Munro. After the election the leaders told the defeated candidate that he had to be unmercifully slaughtered in order to make the other man appear exceedingly popular, and therefore in line as a candidate for higher honors. Evidently those who planned the plot knew what they were doing.

We predict right here, and if we are wrong we desire someone to remind us, that Carleton County will return the Liberal ticket.

PREVENT DISORDER.—At the first symptoms of internal disorder, Parmelee's Vegetable Pills should be restored to immediately. Two or three of these salutary pellets, taken before going to bed, followed by doses of one or two pills for two or three nights in succession, will serve as a preventive of attacks of dyspepsia and all the discomfort which follow in the train of that fell disorder. The means are simple when the way is known.

The Smoot Case has been settled. It will be recalled that some two or three years ago the Utah legislature elected Reed Smoot to the United States Senate. Senator Smoot is a prominent Mormon. He is not, however, a polygamist. A great many goody goody folk conceived the idea of starting a great moral crusade to drive Smoot from the Senate. After a long and senseless persecution Smoot has been declared eligible by a majority vote of his colleagues.

If you just go to Bermuda for the onions you had better stay at home, because all the onions are exported. But if you can make up your mind to do without onions, you will have a splendid time. In the first place, there are no railroads, and, oh, blessed thought! no trolleys on the islands. You can forget the hurry and the fret and rest tired nerves. You can bathe, you can sail on the wonderfully clear, still water within the rampart of coral; you can fish, and look through water glasses thirty feet down on the teeming life under sea. The Bermuda boats are rigged with something which is almost a balloon jib and a leg-o'-mutton, or jib-headed mainsail, and they are of very deep draught. But they work pretty handily, and will stand up and sail fast in rough water, so that you can take them out beyond the protected water without fear. At any rate, they add to the attractiveness of the islands to everybody who cares for sailing.—Travel Magazine.
