

**The Lock That Cannot Slip**

The "Maritime" fence lock absolutely holds fast in position and cannot slip.

Not bent in any short twists, the fibre of the wire is not destroyed, and there is no danger of the "Maritime" fence lock snapping off when the weather is at a very low temperature.

The "Maritime" fence lock holds every strand tight and in position, and "Maritime" fences never sag.

**STOP, WOMAN!**

AND CONSIDER  
THE ALL-  
IMPORTANT FACT

That in address-  
ing Mrs. Pinkham  
you are confid-  
ing your private ills to a  
woman—a woman  
whose experience with  
women's diseases covers  
a great many years.  
Mrs. Pinkham is the  
daughter-in-law of Lydia  
E. Pinkham and for  
many years under her  
direction, and since  
her decease, she  
has been advising  
sick women free  
of charge.

Many women  
suffer in silence  
and drift along from bad to worse, know-  
ing full well that they ought to have im-  
mediate assistance, but a natural modesty  
impels them to shrink from exposing  
themselves to the questions and probable  
examinations of even their family physi-  
cian. It is unnecessary. Without money  
or price you can consult a woman whose  
knowledge from actual experience is  
great.

**Mrs. Pinkham's Standing Invitation.**

Women suffering from any form of  
female weakness are invited to promptly  
communicate with Mrs. Pinkham, at  
Lynn, Mass. All letters are received,  
opened, read and answered by  
women only. A woman can freely talk  
of her private illness to a woman; thus  
has been established the eternal confi-  
dence between Mrs. Pinkham and the  
women of America which has never been  
broken. Out of the vast volume of ex-  
perience which she has to draw from,  
it is more than possible that she has  
gained the very knowledge that will help  
your case. She asks nothing in return  
except your good-will and her advice  
has relieved thousands. Surely any  
woman, rich or poor, is very foolish if  
she does not take advantage of this  
generous offer of assistance.

If you are ill, don't hesitate to get a  
bottle of Lydia E. Pinkham's Vegetable  
Compound at once, and write Mrs.  
Pinkham, Lynn, Mass., for special advice.  
When a medicine has been successful  
in restoring to health so many women,  
you cannot well say, without trying it  
"I do not believe it will help me."

**Average Wages Paid in Differ-  
ent Occupations.**

The census and statistics bureau  
has issued a blue book as to wage  
earners in Canada by occupation  
according to the returns to the last  
decennial census.

The average yearly earnings at reg-  
ular work of all classes of occupa-  
tions is \$387.16 for males, and \$181.98  
for females.

Trade and transportation pays an  
average wage of \$503.62 for every  
male employee.

Professional men, including clergy,  
government employees, musicians,  
teachers, engineers, etc., earn \$676.88  
per year on the average.

Average earnings of men employed  
in manufacturing \$403.15; in agricul-  
ture, \$207.55; in domestic and per-  
sonal services, \$222.46.

Of the whole number of wage ear-  
ners, \$14,930, the males constitute 81.17  
per cent, and females 18.83 per cent,  
and comparing the totals of wage  
earners of both sexes by classes with  
the totals of all classes, it is found  
that the agricultural class gives em-  
ployment to 8.93 per cent, and do-  
mestic and personal class to 25.61  
per cent, the fisheries class to 0.91,  
the forestry and lumbering class to  
2.02 per cent, the manufacturing  
class to 38.83 per cent, the mining  
class to 2.93 per cent, the profession-  
al class to 6.34 per cent, and the  
trade and transportation class to  
19.37 per cent.

The statistics with regard to  
salaries paid to school teachers are  
especially illuminating. The average  
salary for male teachers in all  
Canada is \$486, and for female  
teachers, \$245. The average by pro-  
vinces are as follows:

Province	Males	Females
British Columbia	\$876.84	\$563.08
Manitoba	487.00	410.22
New Brunswick	412.52	227.61
Nova Scotia	384.03	237.66
Ontario	537.85	307.75
Prince Edward Island	246.15	180.03
Quebec	450.13	138.44
The Territories	498.12	428.32

Female housekeepers, laundresses,  
nurses, midwives, char and washer-  
women and sextons are better paid  
than female teachers in Quebec;  
while ranch foremen, farm superin-  
tendents, garden and nursery man-  
agers, hotel employees and foremen in  
many trades are better paid than  
male teachers in Ontario.

**Newburg.**  
Again the sweet notes of the Robin  
we hear,  
And all the air fills with that music  
so clear;  
Again the lambs bleat o'er the fields  
broad and fair,  
For nature is sending her charms  
everywhere.

The gay babbling brook as it hurries  
along,  
Tunes every sad heart with its rip-  
pling song;  
The hillsides and valleys with joy  
seem to ring,  
For now we are greeting this fair  
season Spring.

The recent rain left the roads in  
this section unsuitable to travel on,  
which makes it disadvantageous for  
some folks.

We are glad to hear that Mr Spar-  
row, who is ill with lagrippe, is im-  
proving slowly.

Nearly all the young men from this  
section, who returned home from the  
woods in the latter part of the win-  
ter, have gone on the drive, accom-  
panied by some of the older residents.

Miss Cassie McDade, East New-  
burg, spent a short visit with her  
friends the Misses Mattie and Gertie  
McGuire of this place.

James Owens, Rusagornis, has re-  
turned home after spending an en-  
joyable visit with relatives here.

Little Walter Sparrow son of Mr  
and Mrs W Sparrow met with a se-  
rious accident, while at play his feet  
slipped and he fell striking his head  
on a rock cutting it quite badly.

Two prominent young men, John  
Gallagher of Newburg Jet, and Chas  
Hourihan of Pembroke, took their de-  
parture for Butte Montana, there to  
dwell near western skies for a few  
years, and they will be greatly miss-  
ed by their host of friends, who join  
in wishing them prosperity. DAISY.

The secret formula employed by  
John Ellmore, the cobbler of Altoona  
Pa., in making his liquid for the  
burning of coal ashes has been found  
out by the chemists. It is 1 pound of  
common salt in one gallon of water,  
mixed with 2 ounces of oxalic acid.  
If this mixture is used to moisten  
three parts ashes to one part coal  
the mass is said to burn with greater  
heat than that of pure coal. As a  
consequence ashes at Altoona are at  
a premium.
