This Stallion is a great producer, six of his get having entered the list in 1906, a record unequalled by any other horse in the Province.

A. D. McCAIN,
 Florenceville.

Elmwood.

The weather is quite warm and springlike and the snow is melting rapidly. The roads are getting bare and bare spots are coming in the fields.

The mill has shut down for the season.

Several of the farmers have been hauling out their potatoes during the past week and laying in a store of fertilizer for the coming crop.

Miss Eurie Kirkpatrick of this place spent April 13th with relatives in Houlton.

Frazer Veness of Benton and Chas Sypher past through Elmwood on a business trip on April 18th.

Dr Griffin and J C Hartley of Woodstock made a trip to Elmwood on April 20th.

Mr and Mrs James Finnigan spent Sunday afternoon at William Kelly's. George Martin is feeling very much elated over the arrival of a young colt at his place.

William Bean, who has been staying at Mr Martin's for sometime, has recently left there. I dare say he is a good deal missed.

It seems to me the one who left the dead horse up here in the woods ought to destroy it. The smell will be very disagreeable to say nothing of the danger to the health of the community.

A Successful Furnace

A Good Article Effectively Advertised Finds a Ready Sale.

McClary's "Sunshine" Furnace in Use from Halifax to Vancouver.

With this issue of the SENTINEL the McClary Manufacturing Co., of London, Ont., commence their advertising for this year using a series of attractively illustrated advertisements. One of the series deals with the ash-pan feature of the furnace, and from its perusal the advantages of an ash-pan in a furnace, and this one in particular, can readily be understood. Another ad. describes the large double feed doors, explaining the ease with which the "Sunshine" furnace can be fed. A third explains the strength and security of the fire pot, while the fourth covers the very important fact that the "Sunshine" burns any kind of fuel successfully. The McClary Co. claims to be the largest manufacturers under the British flag, and to a very great extent this immense growth is due to the persistent and carefully prepared advertising campaigns.

While the McClary people are large users of daily newspaper space they do not think that an advertising campaign could be made successful in Canada without using the high-class weekly publications of which they have over two hundred on their list.

Oakville.

A large number were present on Sunday evening to hear Mr Squires preach from Luke 13. 32. "Go ye and tell that fox."

Miss Bessie Belyea was the guest of Miss Clara McLellan on Sunday.

Miss Alice Williams spent Sunday at John T McBride's.

John A Davis has sold his store and lot to Robt Bell and we understand that special bargains are being offered in order to reduce stock.

Chas Briggs is now engaged in sawing shingles, most of his rotary work being done for this year.

Master Karl McLellan was the guest of Isaac Bell on Sunday.

 Everybody should use it!
 Makes friends everywhere!
 Is its own good advertiser!
 Once tried, always used!

5 Cent Packages only, at all Grocers.

The Session of Parliament.

(Continued from sixth page.)
 Of the very limited programme laid out for what it was known would be a restricted session have had to be abandoned. Mr Oliver's new Lands Bill incurred the hostility of Mr Greenway and the Manitoba element. Mr Templeman's patent medicine bill proved too contentious. The admirable Juvenile Delinquents' Bill of the Senate never reached consideration in the House.

Private bills were exceptionally few and uninteresting. None of them excited any violent protest except that of the Hamilton Radial Electric Co., which had to combat the whole force of the wave of so-called Provincial Rights enthusiasm in Ontario, and was talked to death. Many public works schemes were laid over owing to the absence of the Minister, notably the Georgian Bay Canal surveys.

The general result of the session so far as the parties are concerned has been to hammer into the public mind the effect of the Insurance Report findings against Messrs Foster and Fowler and in less measure Messrs Bennett and Lefurgey; to demonstrate the ability of the Liberal front rank to hold its own spite of many absentees, and to sicken both the House and the public very effectively of a kind of warfare having personalities as its object and using women and wine-checks as its weapons. On the Liberals side it has been a very poor session for everybody but the front benchers. Scores of able men have had scarcely an opportunity to raise their voices since the House met. On the Conservative side there has been no such restriction, but the development of parliamentary talent has not been noticeable.—(Montreal Herald).

Dropsy and Heart Disease.—“For ten years I suffered greatly from Heart Disease, Fluttering of the Heart and Smothering Spells made my life a torment. Dropsy set in. My physician told me to prepare for the worst, I tried Dr. Agnew's Cure for the Heart. One dose gave great relief, one bottle cured me completely.”
 —Mrs James Adams, Syracuse, N. Y.—107.

Minard's Liniment used by Physicians.

Straw Matting!

Delightfully cool looking and pleasant for summer and has an air of comfort and cosiness even in winter. Easily put down and kept clean. Can be turned so as to wear both sides. With a good thickness of paper under, it wears well. The better the quality the longer it lasts.

We have a Large Assortment of Patterns and Qualities from

14c. to 40c

Undertaking given Special Attention

A. Henderson Furniture Co., Ltd.

The "Daisy" CHURN

Is the easiest working churn on the market to-day and the only churn that has cream breakers made that can be put in or taken out in a moment's notice. Every churn should have a cream breaker, as they break up the cream and cause the butter to come quicker. The Daisy Churns are only sold by us at our store, Woodstock, and at our branch store at Centreville.
