A Historic Parallel.

"But, Sir what do they tell us? What do they tell old Liberals? They would have old Liberals believe that we have not applied our principles. It would be well, perhaps, to tell a tale from the history of England, which perhaps has some reason for its application to this case. Charles II., was King of England, and he was not a very good man in some things like myself—(Laughter)—because, gentlemen, I read daily the press of the Conservative Party and I have read it every day for thirty years. Charles II., had some good points also. Charles II., had no children—and that perhaps is another point of comparison—and his brother was the heir, who became James II., and who had not the good points that Charles had. One day he told his brother that bad news had come to him, that he had received notice that there was a plot to assassinate the King. Charles simply tapped his brother on the shoulder, and said: 'They will never kill me to make you King (Laughter.)' 'I have this to say: That there is not an old Liberal who will take power away from me and my friends George P. Graham and Rodolphe Lemieux to give it to the hands of Mr. Borden or Mr. Foster.' (Cheers.) Sir Wilfrid Laurier at Niagara Falls.

ILLS OF CHILDHOOD,

HOW TO CURE THEM

In thousands of homes Baby's Own Tablets is the only medicine used when children are ailing, and the mother who keeps this medicine on hand may feel as safe as though there was a doctor constantly in the home. Baby's Own Tablets cure all stomach and bowel troubles, break up colds, expel worms, and make teething easy. The mother has the guarantee of a government analyst that this medicine contains no opiate or poisonous soothing stuff. Mrs. H. B. Bonnyman, Mattall, N. S., says:— "I have used Baby's Own Tablets for my little girl while teething and for constipation, and think there is no medicine can equal them." Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Noble Words.

"Great Britain is compassed today by what may be well said to be a galaxy of young nations, and amongst those daughter nations Canada, by all consent, holds first rank. I don't pretend that this, as the culmination of the last twelve years, can be claimed as the work of the party in twelve years. It has been the work of generation after generation of Canadians, but I think I can claim that when the pages of history are unfolded to the eyes of the future generations it will be regarded that, though the generations which have laid the foundations, the supreme honor of crowning the edifice was reserved to the Administration which you placed in power in 1896, the man date which you renewed in 1900 and in 1904, and which mandate, I believe, you will also renew as soon as the bugles sound the call of duty at the polls.

"I don't make any predictions as to the victory. I leave that to our opponents. They will do as they have done in the past, and we will do as we have done." They crow before election day and we commence to crow after election day."—Sir Wilfrid Laurier at Niagara Falls.

REASONS!

A FEW, JUST A FEW, OUT OF THE MANY REASONS WHY I VOTE FOR CARVELL.

In the first place I vote for Carvell on account of the man. His ability to legislate has never been questioned by any. Even his worst opponents admit this. His morals in public and private life are the best. I vote for Carvell because he is a true and tried Liberal. Because he is the best man in sight. Look the province over to guard our principles. A man the sons of Carleton are justly proud of for his real public worth as an administrator. I vote for Carvell because he so ably supported the present administration at Ottawa, who are carrying on the business of the country to my satisfaction. Who assists nature to give back to toiling man ample reward for labour done by stimulating trade in opening the avenue of commerce by the expansion of our railways and our canals and the developing of our docks and harbors which will facilitate the exportation of our surplus products to the outside communities. Because the different departments have shown unparalleled skill and business ability in the performance of the great work imposed upon them. Take for example the Post Office department. The Hon. Wm. Mulock altogether different from his predecessor under Tory rule who exacted over one third more money from the people's pockets and with it heaped up large deficits year after year as long as they were allowed the maladministration of the country. Note the difference between the Liberals and Tory business acts. Mulock under Liberal rule says, I can run the Post Office department successfully taking only two cents from the people no matter where they send their letters instead of the three, and five cents under Tory rule, and his surpluses have justified his act. This with the improved service giving daily mail where it was only semi-weekly and establishing new offices with one-third less money is certainly not worthy and a great credit to the Government. Suffice it to say as it is in this department you will find the same business principles for the country and good in all the other departments. Now is the prosperity of Canada to be wondered at when we have such executive ability at the helm? Therefore if you vote for Carvell you vote for your own good and your country's prosperity.
