### Political Notes.

To-morrow (Friday) there will be a Liberal meeting at McAdam.

Mr Carvell spoke last night in Tara Hall, Johnville, to a big audience. That portion of Kent, which four years ago gave him a rousing majority, promises to do even better this time.

Electors, Frank Smith buys your potatoes, but anybody would do that. Mr Carvell, your representative in parliament, had the duty raised five cents per bushel on potatoes, making the price just that much higher. Carvell also took a leading part in securing the passage of the Pure Seed Bill. The son of a farmer, born and raised on a farm, Mr Carvell has shown himself the farmer's friend while Mr Smith has assisted the farmer by doubling his road tax!

A militant tory, driven to bay in an argument, as a clincher gave this reason why he was going to vote for Smith: "If I wanted something and they wouldn't give it, he'd swipe it for me." Is that the kind of argument that counts with the independent voter?

Mr Smith sat five or six sessions in the Legislature, and the sum total of his accomplishments for the county is the magnificent new road law, by which the taxes have been practically doubled. Oh, beg pardon, there are some more Justices of the Peace, and at latest accounts about eleven bushels of promises to all and sundry, with the quantity rapidly increasing.

Love not to talk;  
 Love not to boast;  
 Grief comes to him  
 Who brags the most.

Dedicated to the Press, the Gleaner and others who are prophesying (lying) about the result of the election.

Up to date neither Mr Flemming nor Mr Munro has given the electors a hint of that great agricultural policy. Mr Smith has stolen a lap on them, but his patent adjustable bridge policy has proven to be a rank boomerang.

St John's independent newspapers the Telegraph and the Times, which in 1904 opposed Laurier and last winter supported Hazen, have come out strongly in favor of Pugsley and Pender. It has become a maxim that "As the Telegraph goes so goes St John." Dr Daniel, who is a first rate physician but a mighty poor politician, will have more time to look after his patients after Oct 26th. As for poor Alec McRae, well his huge clientele will be able to find him almost any day this winter in St John. Dr Pugsley's address will continue to be Ottawa.

Mr Smith, who according to Prin Squires is the moral, physical and intellectual superior to even Sir Wilfred Laurier, must have made a pretty juicy promise to get a certificate of that kind. Better look out Mr Simms. The schoolmaster has the inside track.

The discredited Haze government with its broken pledges, increased taxation and uncalled-for bungling, does not scruple to use its patronage to assist the federal tory candidates, but what a howl these goody goody boys, Smith, Flemming and Munro, raised last winter when it was even suggested that federal politics might enter into the local campaign.

We are informed that Mr M. L. Hayward, the hero or shall we say the victim, of the dog incident in St Thomas, addressed a meeting here recently, composed of about 27 persons in the Young Conservative rooms. The local canines, some what more used to seeing him, seem not to have interfered.

### A Potato Record.

Daniel Holmes Esq. of Maplehurst, dug 15 pecks of potatoes from 42 hills, which was only a fair sample of the whole piece. Who can beat it?

### BERRIE-THORNE.

A wedding which is attracting much interest among the many friends of the bride takes place this afternoon at four o'clock at the residence of J. L. Thorne, 102 Carmarthen street. The event is the marriage of his daughter Catherine C. to J. Charlton Berrie, of Woodstock. The ceremony will be performed by Rev Dr Flanders and the bride will be given away by her father.

The bride's costume is of white lace over white silk with veil and orange blossoms. She will carry a bouquet of bridal roses. Mrs O. P. Nixon a cousin of the bride, who will act as matron of honor, will wear pink chiffon over pink silk and will carry a bouquet of pink carnations.

After the ceremony Mr and Mrs Berrie will leave on the evening train for a trip to Boston and New York. The bride's travelling costume will be of green broadcloth with champagne colored vest and hat to match. On return to the province they will reside at Woodstock where Mr Berrie is engaged in business.

Among the many beautiful presents received by the young couple are a handsome cut glass bowl from Centenary Sunday School and a silver salver from the infant class of which Miss Thorne was the teacher. St John Star.

One of the greatest blessings to parents is Mother Graves' Worm Exterminator. It effectually expels worms and gives health in a marvellous to the little one.

**Amatite ROOFING**  
 READY TO LAY  
 MINERAL SURFACE  
 NEEDS NO PAINTING  
 DIRECTIONS INSIDE OF CAN

**PAINTING a roof is work.**  
 Buying the paint is expensive. Both are needless if your roof is Amatite.

When you finish laying Amatite, take away your ladder, pick up your hammer and knife, go away and leave the roof to take care of itself. A few years later you may go back and look at it if you care to, but it won't be necessary, and there won't be anything to do.

This is due to the fact that Amatite has a real mineral surface—a surface that is too strong to need protection—too durable to require painting.

If you buy one of the smooth surfaced roofings you will have to paint it every two or three years to keep it from leaking. In fact, such roofs depend on the paint almost entirely for their waterproofing qualities.

Amatite on the other hand depends for its waterproofing upon double layers of Coal Tar Pitch,—the greatest known enemy to water.

Amatite comes in rolls of 110 square feet ready to lay. No special tools are required, and anyone can lay it properly.

A Sample of Amatite will be forwarded free on request. Send for it and see how much better it is than the kind which requires painting to keep tight.
