TRAIN FOR EUSINESS

Most men train their brains and al most entirely neglect their bodies They do not seem to realize that keen. ness of judgment and clearness o thought depend as much on the body as on the brain itself. Any man can prove this to his own satisfaction by attempting to decide a weighty business problem while suffering with an acute attack of indigestion dr a violent spell of biliousness.

The amount of work that the brain can do depends much on the health. fulness of liver, bowels, kidneys and skin

"Fruit-a-tives" are fruit juices in tablet form. They act directly on liver. bowels, kidneys and skin-and enable these vital organs to rid the system of all impurities. Thus the blood will be kept pure and rich, the brain active digestion sound, and life made pleasant. "Fruit-a-tives" are now put up in two sizes-the new 25c box as well as the regular 50c size. If your dealer does not carry them, write Fruit-atives Limited, Ottawa.

Ames and his Magic Lantern in trasts which might be used in illusthe West.

It is coming at last, Mr Herbert Ames; M P., the kid-gloved amateur Sherlock Holmes of the Conservative party in the Dominion Parliament, who has taken to his peculiar kind of politics as other young men with inherited wealth have taken to yatching, or horse-racing, or mountain-climbing, is to be seen and heard in the West in his great and original scenic production of oratorical high flying, with stereopticon accompaniment. This; unparalleled attraction begins its tour through the Saskatchewan constituencies on ture in the current issue of the mag. Monday next. In addition to Mr azine Canada West, showing a spec-Ames himself, and the stereopticon ial train of three hundred settlers plant and the necessary staff he has who travelled in Pullmans from Nebrought with him from Montreal, the braska to Wilkie, bringing their efaggregation will be joined by Mr J fects with them and many thousands K McInnes, of Regina, and Mr R S of dollars. Over 50,000 such settlers Lake, Conservative member for came across the line last year to Qu'Applle, and by occasional local make their homes in Western Canspeakers as the tour proceeds. These ada. will be strictly subordinated to the star performer, of course; the stereopticon will not be used in connec tion with their turns, but will be em ployed exclusively for the production of novel and beautiful lighting effects while the great and only spectacular Herbert himself is performing. The intelligent electorate should not miss this wonderful opportunity to be thrilled, horrified and amazed; all highly moral and

instructive-admission free.

Bertie is awfully pleased with himself over having been struck by this bright idea of having a stereopticon to accompany his oratory. He is doing the thing quite regardless of cost. It is understood that an acquaintance dilating upon his great stereopticon idea, suggested that All Trains run by Atlantic Standard the show be given in the open air on fine evenings, with a display of fireworks to wind up with; but Bertie who really has a dreadfully suspicious nature, imagined that the man was making fun of him. And anyway, he disliked the fireworks idea, because he had not thought of it himself. So it had best be under stood, in order to avoid disappointment, that there will be no pyrotechnical display. A novel moving picture stereoptic on effect will show the foes of all that is pure and noble in politics fleeing across the prairie at the news of the high-browed detective-statesman's coming; they will be plainly seen curling up in terror, as they scamper for cover. Of the powers that work for wickedness and for those too heavy to scamper will be shown in another view, quaking in their boots. The forces of evil will be depicted in all their terrible hideousness; and the intelligent electorate having thus been artfully amazed and depressed by these views morally and instructively manipulated by the stereopticon man, will find encouragement and uplifting inspira tion in the impressive spectacle of Mr Ames himself as a self-procliamed force for all that is pure and good. Nothing can shake this gentleman's Holmes on the trail of Governm ntal wrong doing. When he started out in Parliament his party expected to be something more than an irresponsible lightweight; but those ex pectations have long since come to nothing. Every member of Parlia. ment except himself; is thoroughly well aware now that Bertie is what his stereopticon man or any other theatrical worker would describe as a "glass crash"-the reference being to a harmless box filled with broken bottles, which when manipulated behind the scenes by skilful hands gives forth an alarming sound, like that of an automobile going through a plate glass window. It is understood that during his tour in Saskatchewan, he is to make a specialty of attacks npon the administration of Dominion lands, and particularly of the arrangement made, so greatly to the public interest, with the Saskatchewan Valley Land Company. That line of attack has been d:ouped by the Conservative leaders; Mr Ames sticks to it with a zeal that says much for his tenacity, but little for his judgment. He is announced to speak at Saska. toon, Hanley, and Davidson-places which have a vital interest in that theme. He should show stereopticon views of Saskatoon ten years ago, and of Hanley and Davidson to-day

Out in the young prairie province the local contest last Friday resulted in a victory for the Scott govern ment, the latest available returns ensuring it a majority of ten or eleven in a house of 41. This will prove a large enough working majority for all practical purposes. Two of the confidence in himself as a Sherlock ministers, however, Hon J A Calder and Hon W R Motherwell, suffered defeat. In the case of the former it seems that his disaster came about that perhaps, he might show himself by reason of the active opposition of wealthy Conservative land agents, while Hon Mr Motherwell was up against both money and race prejudice. His opponent is a quarter. breed Scotch gentleman bearing the not unfamiliar name J A Macdonald. Blessed with great wealth, and having much influence among the half and quarter breeds, he wa able to defeat the minister, at personal expenditure it is said of close to \$50,000. While the victory is certainly a remarkable one, it cannot be said that either federal party can derive abundant comfort from it, so many local issues having been factors in the battle, and the constituencies so different for federal purposes. On the whole it proves that Saskatch-
