Drug Store Truths.

Our Story of Success.

The success of our Prescription Department is not a question of something bound to "happen", but the gratifying result of having earned the confidence of physicians and public; handling every prescription in the most careful manner, using only the finest quality of Drugs, all tested for purity; acquiring every modern apparatus for scientific work. When a Doctor gives you a prescription, he means that you are to take the medicine ordered. He looks to the Druggist for purity in ingredients and carefulness in compounding. Bring your next prescription to us, so that doctor and patient will know that the medicine will be prepared as expected. There are no prices lower than ours, if you reckon price according to the high quality of Drugs we employ and the results you will obtain from the medicine. Any other reckoning is not sound.

You are earnestly invited to bring all your prescriptions here.
