The Major absolutely withdrew all his charges, greatly to the disgust of the Opposition members who thought they had material for a first class scandal. The members of the committee were Messrs Geoffrion, Carvell, Macdonald, and Barker.

## East Florenceville.

Having read the epistle which someone from Bristol so kindly put in the Press, I feel that it needs an answer. I am one of the young ladies who helped to serve supper for the Base Ball Boys the night the Glassville boys played the Tartars. We served supper before this to different teams and they generally thanked us but either Glassville forgot or never heard of such a thing. I know not but they walked away as if we had injured them in some way. As to the young ladies who were with them, they flew up town as soon as we began to set the tables and were not seen again until after everybody had eaten and gone. We of course cleared the tables as soon as possible so that our dishes would not be destroyed and then we wished to see the game. We started supper at 5.30 and the tables were not cleared up until about 7. During that time we fed a good many beside the Base Ball Boys.

Now to the game. I know the game through and through, therefore I know what I am to say.

The famous Centreville Battery belongs to our Tartars the same as do Kelly and Davis of Bristol and Grant and Foss of Esdracelon belong to the Glassville Team. Anyway Frank West our pitcher proved to be far too much for Glassville. The reason the Hartland men were taken on was that our battery had not arrived and the places could not be filled by old women as they were scarce so they put two men of the Hartland Team in. If on May 25th the game between Hartland and Glassville had resulted in a victory for Glassville there would have been no objection in the least to putting on Sprague and Martell. They were little afraid and therefore had to kick as they did all through the game. It would have been better for their team had the Captain thoroughly instructed his men as to Base Ball rules. They did not know a block ball from a block of wood. Even the pitcher did not know where his box was. As to the two flies that were exactly alike, McIntosh foul went outside first while the fair ball went inside third base. The only kicking done was by Glassville, but then they did not know any better. The umpire knows more about Base Ball and can umpire a better game than anybody Glassville may ever hope to raise. They say they made one overthrow and our boys got four runs from it. They must have very strong arms and very slow legs that they could not throw a ball and go get it in that time. O No!

Mr Glassville or Miss Bristol who ever knows so much you made more than a dozen overthrows and it was almost a merry-go-round to see the scores coming in for our boys. If Glassville had known enough they would have thanked the umpire for calling the game for they looked like so many cats after one mouse. They were running after the ball. They came in with the idea that they could walk over the Tartars but they were mistaken. But never mind children come in again and we will beat you just the same. So good bye little Mr. Who Wants Fair Play. I will send you a doll to play with someday. X Y Z.
