Ald Fawcett Doing Good Work.

Ald Fawcett is doing valiant work for the town. Although new to the Council he has taken hold of things in the most vigorous manner, and on every occasion calls a spade by its proper name. As a sample of his efforts to serve the community we quote the following extracts. Monday night of last week, reporting on certain claims, he said—I have attended to several matters since last meeting. I find that Wm M Connell has no claim against the town. Winslow never had any claim, in fact the town has a claim against him for allowing rubbish to be thrown over his land. Milmore has not a shadow of a show, because the cave in from our gravel pit is at least six feet from his land, in fact my land is injured worse than his and I am making no claim for damages. Mrs Hanson has no claim now, but may have if anything happens to a tree that is holding back the earth on her land. The gravel over the river is no better than the gravel a our pit near Bull's spring, and I would suggest that our gravel be used this summer for street purposes.

Again at the Friday night session he spoke right out from the shoulder on the Scott Act situation. These are his words:—"The Scott Act in town is being trifled with. The law is far too easy on the rum sellers. Instead of paying a fine or loafing here in jail a month feeding three or four times a day on the fat of the land they should be sent to Dorchester on bread and water for three years on the first charge, and six years if they are caught selling again. The Inspector seems to be not much good. If he can't do any better we'll have to help him. In a way Lindsay doesn't seem to be the right man. The proper men to run the Scott Act are the police. Kelly and McCarron could go into places to ferret out lawbreakers where Lindsay dare not poke his nose. Nobody expects the present Inspector to be out of his bed all night, but the police are on the beat the whole evening, when the most of the pocket peddling is done. The situation is pretty bad, and we all need to wake up."

Very naturally the men responsible for the leading article in Monday's Press are not pleased with the appointment of John S Leighton Jr. as Claims Agent of the I O R. These ground hog grunts will do Mr Leighton no harm, and will scarcely rebound to the credit of the sheet which publishes them.

John McCormac "Removed."

Our Mr Munro has given his little axe another swing, the weapon this time descending on the neck of John McCormac J P, caretaker of the Bridges. The salary is only \$5 a month, but even this huge remuneration was sufficient to attract more would be caretakers than flies to a drop of molasses on a hot summer day. Out of the number Mr Frank A Glidden has been selected to become caretaker. In so far as he is concerned we have no fault to find, but it does seem to us a pretty small piece of business to remove a man like Mr McCormac, who although a Liberal to the core, has never given the slightest cause for dismissal. It is surely a sign of the small bore school of politicians being in power when such an uncalled for thing as Mr McCormac's dismissal is brought about.

Dairy Instruction.

When N S Dow was removed from his position as dairy instructor the three local members had everything hung out for John McDougall to get the vacancy but William Love who is likewise a faithful supporter and in addition a man who knows something about the business, became busy. He got right after the place, and of course Mr Smith and Mr Flemming couldn't afford to turn him down. This split in the ranks had the effect of postponing the whole business, and it now looks as if Hon Mr Landry will look pretty thoroughly into the qualifications of these would be lecturers before saddling one of them on the country. Of course, as the Gleaner would say, "it's the people's money, and who cares?" Mr Love has at least the merit of considerable practical experience in dairying, and would doubtless make a pretty good official.

Road Race Postponed.

Owing to the very bad condition of the roads, due to the late spring, we have decided at the request of many of the boys to postpone the big Road Race which was set down for May 25th. It was represented to us that there has so far been no opportunity for practice, and to expect a successful event under these conditions would be out of the question. As these representations seemed to be well founded we have accordingly decided to postpone the race until some time in the summer when every thing will be favorable. In this course we feel a certain sense of regret, but after all it seems the only thing that could be done in justice to those who are entered for the contest. Due announcement will be made of the date on which the race will come off.

Newburg.

As I have not seen any news from this place for some time, decided to jot down a few lines this week; the roads have been in such a state that there was not much going to town; it is about time the new government was fixing them up somewhat.

Farming has begun, although not very briskly yet as the season has been quite wet. Most all the spare hands are on the drive.

We are glad to report that Mrs M Burke who has been confined to her bed for several days, is able to be about the house again. DOLLY.
