He was a beautiful child and will be sadly missed by his parents. It seems the little one was sitting on the floor playing. The mother removed a bottle containing turpentine from its reach. She went out doors for a minute or so when she came in the child was lying on its back apparently strangling. It is thought it must have picked something from the floor. STILL BOOM SIR HIBBERT.

Tories Think He Is Coming Leader.

Montreal, Dec 2 .- Sir Charles Hibbert Tupper, accompanied by Lady Tupper, arrived here this morning. and the interesting report gained swift currency that his visit has a most important bearing on the question of the leadership of the Conservative party. Leading Conservatives in Montreal do not conceal their desire for a change of leaders, and declare that if the Conservative party is ever to get into power they must make a change. One influential Conservative said that while the party might conceive that it had an old score against the Tuppers it was their wisest policy to forget the past. "Sir Hibbert," he said, "is still young; he has had Ministerial experience. His past bears no record against him. He has capacity, vigor, energy and power, and these are what we want in our leader."

"It is said that there is little love lost between him and Mr Foster. How

will that affect the situation?" "I do not see how that need affect it at all. Mr Foster is simply out of the question. Sir Hibbert I believe to be not only personally desirable, but the best choice we could make," Sir Hibbert, who passed through Ottawa without breaking his journey, will make only a short stay in Montreal. He goes to England and the purpose of his trip, it is said, is to discuss the situation with his veteran father and ascertain his views as to the advisability of acceding to the wishes of many members of the party.

Seem To Be Nature's Provision For Keeping Man Healthy and Warding Off Disease.

Cereals, vegetables and meat supply the elements needed for man's nourishment. Yet fruit - though it has very little food value-has proved to be absolutely necessary for perfect

Careful investigation has shown that all the common fruits act on the Liver, Kidneys, Bowels and Skin. These are the organs that rid the body of dead tissue and waste products, and the fruit juices stir them up to more vigorous action, thus keeping the whole body clean and healthy. But few people eat enough fruit. Realizing this, after several years of experimenting, a prominent Canadian physician succeeded in combining the juices of apples, oranges, figs and prunes in such a way that the medicinal action is many times multiplied. Then he added valuable tonics and made the combination into tablets called "Fruit-a-tives." They are really Nature's cure for Constipation, Indigesion, Biliousness and Stomach Trouoles. Mr Pinder's Opportunity

There was a report, when Mr Hazen had formed his cabinet, that Mr J CPinder withdrew the sunshine of his favor from the new premier, and for some time walked with lowered brows and gloomy visage. Mr Pinder has undoubted claims. He has been a sturdy fighter, when certain other gentlemen were a doubtful political quantity. He had made sacrifices for his party. But in the hour of triumph the king of bred, fast and handsome horse, but of duty done is about the only reward to be found. Others had press-

During one of his idle moments recently, James J Jeffries, retired heavyweight champion of the world, fell to sizing up the present-day big men compared to those of ten year ago. He still claims that the present crop of heavies are not to be considered in the same class with the men Free Press.

According to Jeff's way of thinking Tommy Burns, the present holder of the title, would be mere putty in the hands of such men as Sharkey, Fitzsimmons and Corbett. To be a contender in those days, claims Jeff, a man had to have something besides a few press agents, letterheads and a typewriter. That kind of stuff didn't win championships, and to be considered with favor by the public had to do some fighting instead of spending his time filling music hall and vaudeville engagements.

In Jeffries' mind, Corbett was one of the greatest fighters that the world has ever produced. "They called him a great boxer. He was more than that," says James; "he was a great fighter. It has been said that Corbett wouldn't punch, but nobody that ever faced him in the ring had this to say after the fight was over. I consider Corbett one of the greatest fighters that the game has ever known. He was a toxer, ring general and a fighter all in one."

The present generation of fightfollowers will hardly agree with the big boiler-maker. Fight writers all over the country are firm in their belief that the French-Canadian is the equal of any that has ever held the title, possible barring the giant Californian. They point out the fact that Burns has beaten everybody that he has been asked to meet, and has completed the job in such a decisive manner as to leave no doubt in the minds of the public as to who

was the better man. As far as being inferior to Sharkey, Corbett and Fitzsimmons. I can't agree with Jeffries," says Billy Mc Intosh, a close friend and admirer of Burns. "Burns is just as big as Sharkey, when in condition is just as hard a hitter and 20 per cent faster. Then, when Sharkey's fight with the big boiler-maker is taken into consideration, which, if Sharkey had been given his just dues, should have been called a draw, I don't see where Jeffries has the license to declare Gurns out of the list of greatfighters. one of best neighborhoods in the county, for sale very cheap.
