The Duty of the Liberal Party.

This may be set down in a single word,—Organize. The Provincial Convention to be held next month in St John will doubtless be an occasion for getting in the preliminary steps. With a hostile government in the saddle at Fredericton, and the Dominion contest sure to be on in less than two years, it behooves all friends of the party to be on the alert. When all is said and done it must be admitted that it is the quiet work between fights that counts. Organizer Hubbard did yeoman service for the local conservatives during the past two or three years, and the results were plainly in evidence when the ballots were counted. In spite of the reverse which has fallen upon the Liberals in the local election, it is not yet too late to close in the ranks and form an organization which will come out of the next big battle with the accustomed majority on the right side. After all, to occasionally suffer a reverse may not be the worst thing that can happen to a party.
