

Shines at Night

"Black Knight" Stove Polish makes stoves shine by night as well as by day. Can't burn it off, either—no matter how hot you make the stove.

Once you polish the stove with

"Black Knight" Stove Polish

and give it a touch after using, you will always have a beautifully shiny stove. For a quick, lasting shine, there is nothing else to equal "Black Knight".

Silverdale.

Well here I am again to bother the Editor for a little space in his paper. The small snow storm we had last week set the roads in a better condition.

Sandy Shaw has returned to the bush again.

Hubert Brown is holding special meeting in the Primitive Baptist church in Lower Wakefield. We hope much good will be obtained.

Miss Jennie Merrithew spent a few days with her sister Florence, at Wm Kearney's.

Has anybody seen the new "love making machine." They say he carries it in the back of his sleigh and stops somewhere near the pines.

"Vales" are sort of going out of fashion. I wonder why. PAT.

RHEUMATISM IN THE BLOOD

Cure it by Enriching the Blood With Dr. Williams' Pink Pills.

There is only one way by which rheumatism can be cured. It must be treated through the blood. Liniments and outward applications may give temporary relief, but they can't possibly cure the trouble. And while you are experimenting with liniments the trouble is every day becoming more firmly rooted in the system, and more difficult to cure. The poisonous acid that causes rheumatism must be driven out of the blood, and you can only do this by making new, rich, red blood through the use of Dr. Williams' Pink Pills.

Mr Chas H. Lumley, of Brickford, Ont., is one of the best known farmers in Lambton county. About three years ago, while Mr Lumley was engaged in threshing, he became overheated, and this was followed by a severe chill that started the rheumatism pains. Mr Lumley says: "I did not think anything of it at the time as I was accustomed to being exposed to all kinds of weather. As a result I was unable to go about next morning. I had severe pains in my arms and legs which I treated at first with the usual home remedies. As these did not help me, and the trouble was growing worse the family doctor was sent for, but he did not have any better success. He told me I was suffering from a severe attack of rheumatism, and there can be no doubt about it, as I was confined to my home about four months before I was fortunately advised to try Dr. Williams' Pink Pills. I sent for a supply, and it was not long before I found they were helping me, and by the time I had taken a half dozen boxes the trouble had entirely disappeared. In other respects the pills also greatly improved my health, and I never felt better in my life than I have since taking them. I therefore most cheerfully recommend Dr. Williams' Pink Pills to other similar sufferers."

Dr. Williams' Pink Pills make cures of this kind after doctors and common medicines fail, because they actually make new blood. They don't cure the mere symptoms. They go right to the root of the trouble in the blood. That is why this medicine cures anaemia, indigestion, neuralgia, palpitation of the heart; and the headaches and backaches brought on by the ailments that fill the lives of so many women with misery. Do not take any pills without the full name, "Dr. Williams' Pink Pills for Pale People," on the wrapper around the box. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Seed Wheat.

C M Sherwood, Centreville, is importing the 2nd lot of "White Fife" Seed Wheat this winter.

This wheat was grown in Manitoba, and when reproduced here the kernels are much larger than the imported seed.

Like all other hard wheat, this variety makes better flour and more of it than the soft wheat formerly cultivated in this County. Farmers should not wait until seed time, as this wheat is sold at actual cost to help raise the standard of excellence, and the price is too high this season to carry any over. (tf)

Denatured Alcohol.

The attention of farmers is again called to the possibility of denatured alcohol as a source of heat, power and light, by the proposal of the Dominion Government to make an enquiry into it.

The United States has already authorized the production of alcohol on farms by means of sealed tanks which when full, are removed to a central government station, the contents denatured and returned to the farmer. This is the German system, which has been largely taken advantage of by farmers. In France

SHIRTS

The Colored Neglige Shirt is the popular shirt to-day.

A short time ago negligee shirts were worn only in summer.

Now the best dressed men wear them all the year round.

They find them much more comfortable for daily use, than a stiff-bosomed shirt.

Not only are they more comfortable, but they wear longer, because they make fewer trips to the laundry.

It is no the use of a shirt that wears it out it's the laundry that does it.

The name Tooke on a shirt means Fit, Wear and Comfort—look for the name.

also the manufacture of alcohol has been freed from unnecessary restrictions.

Consul-General Skinner at Mar-seilles has been making an exhaustive study of French methods, and his report has recently reached Washington. Some French farmers have their own small stills. Others employ an itinerant distiller who comes with his plant, much as the American thrashing machine owner takes his equipment from farm to farm. The best crops are never distilled with any profit, but poor or damaged crops, whether grapes, potatoes or grain, are regularly used, and so, also, is the residue left in the process of wine manufacture and other waste products of the farm. Bets can be grown and used directly for this purpose, except when the price of alcohol falls very low.

A damaged crop, a poor grade, or a crop in time of such low prices that the cost of gathering is prohibitive, as is occasionally the case with our apple crops, could be used to advantage by the farmers of this country, especially when the material will keep until harvest time is over and the farmers have comparatively little work to do.

It is safe to predict that the farmer of the future will pay ever greater attention to incidental sources of profit and experimentation on the present line should not be unduly delayed. For what it is, it seems fully worthy of official encouragement.

A CAREFULLY PREPARED PILL—Much time and attention were expended in the experimenting with the ingredients that enter into the composition of Parnee's Vegetable Pills before they were brought to the public. Whatever other pills may be, Parnee's Vegetable Pills are the result of much expert study, and all persons suffering from dyspepsia or disordered liver and kidneys may confidently accept them as being what they are represented to be.

Weak Kidneys

Weak Kidneys, surely point to weak kidney nerves. The kidneys like the heart and the stomach, are the organs that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the kidneys alone, is futile. It is a waste of time, and of money as well. If your back aches or is weak, if the urine is dark or is dark and strong, if you have symptoms of Bright's or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tobacco or Liquid—and see what it can and will do for you. Druggist recommend and mail.
