

The Badge of Honesty

Is on every wrapper of Doctor Pierce's Golden Medical Discovery because a full list of the ingredients composing it is printed there in plain English. Forty years of experience has proven its superior worth as a blood purifier and invigorating tonic for the cure of stomach disorders and all liver ills. It builds up the run-down system as no other tonic can in which alcohol is used. The active medicinal principles of native roots such as Golden Seal and Queen's root, Stone and Mandrake root, Bloodroot and Black Cherry bark are extracted and preserved by the use of chemically pure, triple-refined glycerine. Send to Dr. R. V. Pierce at Buffalo, N. Y., for free booklet which quotes extracts from well-known medical authorities such as Drs. Bartholow, King, Scudder, Coe, Ellingwood and a host of others, showing that these roots can be depended upon for their curative action in all weak states of the stomach, accompanied by indigestion or dyspepsia as well as in skin affections, blotches, pimples and eruptions as well as scrofulous swellings and old open running sores or ulcers are cured and healed. In treating old running sores, or ulcers, it is well to insure their healing to apply to them Dr. Pierce's All-Healing Salve. If your druggist doesn't happen to have this Salve in stock, send fifty-four cents in postage stamps to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and a large box of the "All-Healing Salve" will reach you by return post.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine or known composition, not even though the urgent dealer may thereby make a little bigger profit. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

Indigestion

Stomach trouble is but a symptom of, and not itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain condition. Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop's Restorative. With out that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend.

Dr. Shoop's Restorative

Canadian Order OF Chosen Friends

is a Purely Canadian Order under Government inspection organized 23 years ago. Granting Insurance to both Ladies and Gentlemen from the age of 18 to 81 years. Paying half of Insurances to members disabled by Accident or Disease and paying Insurance to all members who live to their 75th year and grant a sick benefit to both Ladies and Gentlemen for sickness and accident.

By your Furniture of The A. Hen derson Furniture Co. New goods constantly arriving.

Pugsley at St. John.

"Ladies and Gentlemen.—While speaking of railways, I want to speak to you, and by means of the press which is represented here this evening, to the people of this province, with reference to another railway project which is very dear to my heart, and which I want to see accomplished, and which I shall see accomplished in the near future. I refer to the construction of a line of railway down the Valley of the St. John River, from the fertile lands of Carleton County to the city of St. John.

"Our opponents are in a somewhat unfortunate position in regard to this line of railway. In some sections of the province, I notice that Mr. Hazen speaks of it as if it were already built, as if the bonds which were proposed to guarantee had been already issued, as if the province was liable for the interest now, as if the road was not paying anything, and the province was liable for the whole obligation which it was proposed to assume for its construction. In other portions of the province where we would expect this to be the case, notably, in the city of Fredericton, his supporters are urging that the St. John Valley Railway will never be built, that it was only an election dodge, and that I and the government were never sincere in the action we took regarding this road.

"Let me say to you, ladies and gentlemen, that the fact that the government came before the legislature with the proposition to guarantee the bonds to be issued upon this road to the extent of \$15,000 per mile, an amount far away beyond any which had ever been proposed for a railway in this province, is an event since Confederation, shows we were assuming a grave responsibility, a responsibility which we could only be justified in taking because we felt that the construction of the road was in the best interests, not only of the section of country which would be traversed by that line, but in the best interests of the whole province. The legislature realized, as those of us who have given any thought to the subject have realized for years that those districts bordering upon the St. John River, being the oldest settled portion of the province, were entitled to railway accommodation, and it was most gratifying to me to find that our friends, not only in the St. John Valley, but from the north shore, from all sections of the province, rallied to our support upon this great question, giving to the measure their hearty assistance, and scarcely any measure, I can say truthfully to-night, scarcely any measure was ever introduced in the legislature which seemed to meet with more general approval than the proposition to liberally aid the construction of the St. John Valley railway.

"While in asking aid to such a large amount we felt it necessary to surround the measure with every possible safeguard, we had an assurance from MacKenzie & Mann, who are now building a third transcontinental railway, that if aid to this amount were given they would send an engineer to examine the road, look into the traffic prospects, and if the report was favorable they would enter into a contract for the construction of the line. We made a condition of the execution of the guarantee that the road must form a part of a transcontinental system and be leased to a company operating a transcontinental line or leased to the Intercolonial. We thought that was a proper safeguard, because we felt that to ensure the road to earn a sufficient amount to pay the interest upon this large bonded indebtedness it must be part of a through system.

"Unfortunately, upon examination it was found that the road would cost to build it as part of a trunk line more than was anticipated. MacKenzie & Mann proposed that it should have grades of not more than five-tenths of one per cent., nearly equal to the grades of the National Transcontinental line.

"There are now, I may say to you, however, other companies, particularly one which I have in mind, a strong railway company, which is negotiating and making inquiry with regard to the line and has surveyors actually at work through the northern part of the state of Maine, and if MacKenzie & Mann do not take hold of the line as a part of their transcontinental system there is every reason to believe that this other company will avail itself of the assistance granted and construct the line through the St. John Valley and across the state of Maine to the city of Quebec. In that way it will become not merely a local line but part of a through system. It will give the most direct line of railway between the city of Quebec and the city of St. John, and I think we might reasonably anticipate that it would be a paying line, and in view of the traffic which would be developed I would think that the Government would be running no risk if they were to alter the statute of last winter to a sufficient extent to enable the present aid to be given, provided the road is leased to a strong railway company and forms part of a through system from the city of St. John to the city of Quebec.

"At all events, Mr. Chairman, I desire to say to the people of New Brunswick, and to the people of the St. John Valley especially, they are entitled to have this road built and that the representatives of this province would be given were ridiculed by our opponents, how it was urged that we were spending unnecessarily on delegations to Ottawa. Year after year the claim had been pressed without any result upon both the Conservative and Liberal Governments. But we finally succeeded and the claim was paid.

"So also in regard to increased subsidies. You will remember that the late Premier and his colleagues, including myself, year after year were getting this readjustment and increased subsidy. When we moved in the matter of increase and went to Quebec in the fall of 1902, where the provincial conference was held, our opponents said we were wasting our time and chasing sun shadows, but we persevered. You will remember how the speeches from the throne, which upon our advice were uttered by the Lieutenant governor from time to time, stated that we could not hope soon to be able to announce that the increased subsidy

ONCE MORE WELL

"FRUIT-A-TIVES" ALONE CURED HIM

Clarence J. Placey is a farmer of Ulverton, Que., known as a man of integrity and good judgment. He writes in no uncertain terms of the great benefit he derived from taking "Fruit-a-tives" for a long standing kidney trouble.

Ulverton, Que.

I suffered for many years with kidney trouble, with bad pain in the back and all symptoms of disease of the kidneys. I took every known kidney remedy and kidney pill but nothing gave me relief and I was getting discouraged. I was advised to try "Fruit-a-tives" and I did so—and this medicine cured me when every other remedy failed. I used altogether fifteen boxes of "Fruit-a-tives" and from the outset they gave me relief and I am now practically well again, no pain in the back, no distress, and all the symptoms of severe kidney disease have entirely left me. I am very thankful to this statement for the sake of others who may suffer as I suffered and to them I say "Try 'Fruit-a-tives'." 151 (Sgd) CLARENCE J. PLACEY.

"Fruit-a-tives"—or "Fruit Liver Tablets"—are sold by dealers at 50c a box—6 for \$2.50—or will be sent on receipt of price. Fruit-a-tives Limited, Ottawa.

vince will fail in their duty if they do not take every reasonable means to secure its early construction. I regard this as not a matter of local concern at all, but a matter of inter-provincial interest. It is a matter which will affect the prosperity of a vast section of the country, its claims appeal to both the provincial and the federal governments and while the experience of the past has shown that the present provincial government has never yet failed in its duty to the public, I think you will agree with me that the federal government has shown a disposition to meet the reasonable demands of the people in all sections of Canada, and you will not suppose for a moment that they will fail in doing a full measure of justice to the people living along this rich and fertile valley whose prosperity will be promoted by the construction of the St. John Valley railway.

"But what is the policy of the opposition regarding the St. John Valley railway? You will by a reference to their platform see that upon this great question, in which the people of St. John and the whole valley of the St. John River are so deeply interested, they are silent. It is because Mr. Hazen had not the courage to present his views to the people, or that he has no policy whatever in reference to it?

THE GOVERNMENT'S RECORD.

"Now, Mr. Chairman, some Conservative newspapers are warning the public against promises which I may make upon the eve of this election. Ladies and gentlemen, may I say to you that I did not come here for the purpose of making promises; I came here for the purpose of showing you what I have done for the benefit of the people of New Brunswick and what the government with which I was so long associated did; to speak of the policy of the party which is at present in power and to claim for the present premier and for his colleagues, as representing honest and progressive administration of affairs, your confidence and your support. So far as the present premier is concerned, that man is yet to be found who can point the finger of suspicion at him, and say that either in public or in private life he has ever done one act which would dis-entitle him to the confidence of the people. So far as I am concerned, while my course is not an issue in this campaign, yet I think I can appeal to you and appeal with the utmost confidence upon my record, and I am going to appeal to you to-night upon that record, and will ask you whether there has been such a marked difference between my promises and my performances as to entitle you to have any suspicion that what I may say will not be carried out.

"Take the Eastern Extension claim, for instance. You will remember, those of you who have followed political events for the past few years, how year after year when we were pressing this claim we were ridiculed by our opponents, how it was urged that we were spending unnecessarily on delegations to Ottawa. Year after year the claim had been pressed without any result upon both the Conservative and Liberal Governments. But we finally succeeded and the claim was paid.

THE INCREASED SUBSIDIES.

"So also in regard to increased subsidies. You will remember that the late Premier and his colleagues, including myself, year after year were getting this readjustment and increased subsidy. When we moved in the matter of increase and went to Quebec in the fall of 1902, where the provincial conference was held, our opponents said we were wasting our time and chasing sun shadows, but we persevered. You will remember how the speeches from the throne, which upon our advice were uttered by the Lieutenant governor from time to time, stated that we could not hope soon to be able to announce that the increased subsidy

would be given were ridiculed by Mr. Hazen. However, the criticisms of our opponents did not turn us from our course, and as a result of our efforts, jointly with the efforts of the governments of the other provinces, the subsidies were readjusted and the Province of New Brunswick today is in receipt of \$130,000 per year more than it would have received but for this readjustment, and bear in mind, ladies and gentlemen, that no matter what may happen, whether our population increases or decreases this increase of \$130,000 a year will go on for all time. It is equal to the adding on a basis of 4 per cent of \$3,250,000 to the capital of the Province. It means that by this one act the Province of New Brunswick as a Province has become richer by \$3,250,000 and that it has this additional sum of \$130,000 a year to apply towards the improvement of roads and bridges, towards the improvement of our educational system, the increase in the salaries of school teachers and other important public services of the Province. (Applause.) Therefore, I think you will agree with me that we have made good so far as our promises are concerned. You will agree with me that these promises have not been based upon mere airy expectations or made simply with a desire to catch the popular vote or win the popular approval. (Applause.)

FLEMING'S DECEPTION.

"And I also charge Mr. Fleming, who has been for some years the financial critic of the Opposition and who poses as an honest man, would like to have the people believe he is an honest man, would like to have the people believe that he is a little better than the ordinary politician—a little better than his leader, I charge him with conduct equally unjustifiable—equally worthy of condemnation. In a speech which he made a few nights ago at Moncton, in a report in the St. John Telegraph as having stated that the Government had added, during the past year \$1,500,000 to the permanent debt of the Province. When Mr. Fleming made that statement he knew perfectly well that that amount was a loan raised in England by the Government on very favorable terms, raised through the Bank of Montreal on terms which I venture to say, considering the then state of the money market, could not be surpassed by any province in Canada. (Applause.) Mr. Fleming knew perfectly well that that loan was for the purpose of being applied to the capital indebtedness of the Province and that a very considerable portion of it was to pay off advances which had been made by the Bank of British North America for the purpose of extinguishing maturing debentures, that a very considerable portion of it was for the purpose of wiping off other debentures, and that the whole of it was for meeting indebtedness of the Province which had already been incurred and which was already a permanent debt. But Mr. Fleming, with a knowledge of these facts, tried to make the people believe that this indebtedness had been incurred on current account and that it had been changed from current indebtedness into the permanent debt.

"Why is it, Mr. Chairman, ladies and gentlemen, that some public men who in ordinary affairs of life who in private life are honest and truthful, will, when they come to deal with public matters and to criticize the acts of government, resort to all kinds of misleading and defamatory statements? To injure the credit of the Province seems to them a matter of no consequence. Without rhyme or reason and without the slightest consideration of what the effect of their words would be they falsely charge that the Province is on the eve of bankruptcy. Without the slightest consideration of the feelings of their opponents they falsely charge members of the government with maladministration of the affairs of the Province and with having published false and misleading statements with regard to its finances; and they do this for what reason? Simply in order if possible that they may succeed to power, and to accomplish these things they are prepared to resort to the widest measures of defamation, of slander and of deceit. (Applause.) Surely there is nothing in the position of a member of the Government, a position which involves care and toil and responsibility, which will warrant man in so forgetting all sense of honor, all sense of right, all regard for the truth as to be guilty of such conduct.

Not a Miracle But Medical Science

Dr. T. A. Sloenn, Limited, Toronto, Ont.

"Some time ago I began to lose flesh and failed every day until I had to quit work. My physicians and all my friends said I had contracted consumption. I failed from 165 pounds down to 119. I was advised to go to the Rockies or to the coast. I went to both places under heavy expense. I continued to fail, and was advised by the doctors to come home as nothing more could be done for me. Hope seemed to have left me.

"I tried Psyche and since starting its use I have gained from 119 to 141 pounds. I have used \$10.00 worth of the medicine. I am a well man and I cannot say too much in praise of Psyche. The strongest recommendation would be weak in view of the fact that I believe it has saved my life. It is without doubt the best remedy for run-down conditions and weak lungs. I sincerely hope and trust that you will continue your good work of saving run down people and consumptive from the grave. Wishing you and Psyche continued success, I remain, one of Psyche's best friends."

ALEX. McRAE, Sault Ste. Marie, Ont.
Almost every mail brings me letters like the above. Psyche will repeat this record in every case. It is the greatest medicine known. At all druggists, 50c and \$1.00, or Dr. T. A. Sloenn, Limited, Toronto.

Minard's Liniment for sale everywhere.

THE AUDITOR GENERAL.

"Now, gentlemen, before I pass away from the financial condition of the Province, I ask you to consider how impossible it would be for the state of the public account to be in any respect different from what they are shown to be in the Auditor General's report. The Auditor General's report is made up at the close of the fiscal year, showing all receipts for the year, all the accounts of the current year are submitted to the public accounts committee, consisting of members of the Government side of the house and members of the Opposition. The accounts current of the Province with the banks are submitted to the committee for its examination and inspection and, therefore, you will see how utterly impossible it would be that the public should be deceived as to the true state of the provincial finances. To conceive such a thing possible would be to believe that the Opposition for years past had been wholly forgetful, wholly oblivious of the duties devolving upon them as representatives of the people. They never ventured to make in the legislature, where they could be confronted with the actual facts, the reckless statements which they are now making throughout the country. (Applause.)

THE COST OF GOOD HEALTH

Will Be Lessened By the Timely Use of Dr. Williams' Pink Pills.

How much money is wasted on useless medicines. How much time is lost, how much pain endured simply because you do not find the right medicine to start with. Take the earnest advice of thousands who speak from experience in favor of Dr. Williams' Pink Pills and you will save time, money, and above all, will find perfect health. Proof of this is found in the statement of Mr. J. A. Roberge, a well known resident of Lachine, Que., who says: "I am a boatman, and consequently exposed to all conditions of weather. This exposure began to tell on my health. The cold led to weakness, loss of appetite, pains in the limbs and side. I tried several medicines but they did not help me. My condition was growing worse and a general breakdown threatened. I slept poorly at night and lost much in weight, and began to fear that I was drifting into chronic invalidism. One day while reading a newspaper I was attracted by the statement of a fellow sufferer who had been cured through the use of Dr. Williams' Pink Pills. I had spent much money without getting relief, and I hated to spend more, but the cure was so convincing that I decided to give these pills a trial. I am now more than thankful that I did so. After the first couple of weeks they began to help me, and in seven weeks after I began the pills I was as well as ever I had been. I am now convinced that had I tried Dr. Williams' Pink Pills at the outset I would not only have been spared much suffering, but would have saved money as well."

Rich, red blood is the cure for most of the ailments that afflict mankind. Dr. Williams' Pink Pills actually make new rich blood. That is why they cure such common ailments as anaemia, indigestion, rheumatism, neuralgia, heart palpitation, erysipelas, skin troubles, and the headaches, backaches, sideaches and other ills of girlhood and womanhood. The pills are sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Grippe is sweeping the country. Stop it with Preventives, before it gets deeply seated. To check early colds with these Little Candy Cough Cure tablets is surely sensible and safe. Preventives contain no Quinine, no laxative, nothing harsh or sickening. Pneumonia would never appear if early colds were promptly broken. Large box, 48 tablets, 25 cents. Vest packet boxes 5 cents. Sold by ALL DEALERS.

SOMETHING SWEET AGAIN!

Last week it was Sugar.—You know what a bargain we gave. This time it is

Molasses for 35c Gal.

Come and get some

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 28, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age to the extent of one-quarter section of 160 acres more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader. The homesteader is required to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent in the vicinity of the homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother.)

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowance crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. CORY,
Deputy of the Minister of the Interior N. B.—Unauthorized publication of this advertisement will not be paid for.
