## CANADA'S NAVY NATIONAL ONE; BRODEUR MAKES ANNOUNCEMENT

Does Not State What Will Compose It, But Canada Will Have to Build and Will Be Well Able to Do So.

(St John Times)

"Canada must have a navy of her own. I am not in position, to state how that navy will be composed of warships, cruisers, destroyers, torpedo boats, or submarines, but what I can say is that our navy will be a national one, and that it will be above all party questions. Our ships we shall have to build, and I am convinced that we shall be able to build them with our men, our materials and on our own soil."

These are the main declarations of Hon L P Brodeur, minister of marine and fisheries, who arrived from England on Saturday.

"I am perfectly satisfied with the imperial defence conference, in which Great Britain, Australia, New Zealand, Cape Colony, Natal, Orange River Colony, Transvaal, Newfoundland and Canada were represented and discussed the military and naval defence of the empire."

"All the deliberations were marked with the greatest frankness, and the most sincere loyalty. The imperial government, by its authorized representatives, made it clear that autonomous colonies were left entirely free in the choice of their means of participating in imperial defence."

"In all the conferences that have taken place since 1887, there was thought of a possible change in constitutional relations between the Empire and its colonies. The idea did not receive the support of the imperial federation but had anticipated in the last conference all idea of centralization of confederation was put aside, and the fullest liberty accorded our deliberations had a good deal to do with the results of the conference."

SIX YEARS AGO

In 1903 the Canadian government stated that a Canadian navy would answer to our national aspirations and would be more popular than a monetary contribution. The other colonies favored different views, especially the contribution of money as hinted by Mr Chamberlain.

"In 1907 the English government, instead of laying stress on a direct contribution, expressed the opinion that the colonies might see to the protection of their own coasts by establishing fleets. No conclusion was reached, but the idea was well received."

"It is to be remembered that some colonies went further than the wishes then expressed by Lord Tweedmouth, but their offers were not received with great enthusiasm."

"In March last, when there was nearly a panic at Westminster, on account of the strength of the British navy, the Canadian government adopted a resolution

but is not a member of the church.

Several days ago she went to W C Williams, chairman of the state commission on publication, and told him of her vision. She said that in the revelation she had been told that Mrs Eddy was dead and that she was to be her successor. She also told Mr Williams that a young man she knew, and who is not a Christian Scientist, was designated as a sort of deputy leader.

Williams said that no Christian Scientist believes that there can be a successor to Mrs Eddy, who is the founder and the virtual head of the faith. He said that even Mrs Erskine's vision announced, that Mrs Eddy is dead the leader of the church is still living and working.

### Good Corner

The grain has been gathered in, and potato digging is in full blast. Some farmers report a large percentage of rot, while some are getting over 100 barrels per acre. First comes the bug, then comes the rust, what then is left the frost will trust; But what remains we hope and trust, will feed us all till next August.

Miss Eva J McCullough, of Keswick Ridge, York Co, will open her school here Oct 4th.

Among those attending the Fredericton exhibition from here, were, J A Good, Gideon Merrithew, Mrs James Roxborough and daughter Lena.

Nicholas Ruggles, our commercial traveller, passed through here last week enroute for Centreville.

Deputy Sheriff Armstrong is gathering up lambs these days.

She drove with John, came back with Jim sat up with Dick and wrote to Tom, the next morning she was sleepy and the hired man kissed her before she knew it.

Tramps are abundant each farmer needs a winchester, and a bull dog.

While picking up 'taters' a fair one drew near, And whispered an item to me in my ear;

She was handsome and winning,

I wrote it to please her,

I know she'll be mad

But I love for to tease her.

### A Stricken Village.

The village of Andover is having a very sorrowful time of it at present. With the exception of about four or five houses there are sixty-eight cases up to the present time. The cause of the epidemic is from drinking the water which has been poisoned by a dead horse which has been lying within forty feet from the brook which runs into the reservoir. The heavy rains of the last month having washed the poison from this animal and filth from the surrounding farms into the water having poisoned the supply which is the cause of the present sickness. Houses that have not had to depend on the town for water are exempt from the sickness. At first it was thought to be simply typhoid fever, but from the diagnosis by the physicians present it has proved more than typhoid. All is being done by the medical men to stay the progress of the disease. The patients all seem to be in dreadful pain, which, we understand does not accompany typhoid fever alone. Some homes have as many as three and four cases at the same time. There has been one death. We understand that the town of Perth, immediately opposite Andover has no cases of the sickness.

### I O G T Quarterly Meeting.

It is the intention of the I O G T to hold their district meeting at Beechwood on Oct 13th. The business of the lodge will be carried out during the afternoon meeting and in the evening there will be a public meeting with some good temperance speakers taking part. Woodstock Lodge ought to get together before that time and re-organize their lodge or if not disorganized, they ought to get some life into the lodge and send delegates. The Grand Treasurer, Mrs L R Hetherington of Richibucto expects to be present. If Woodstock Lodge could get together and hold some meetings previous to the District meeting, the Grand Treasurer will be able to be with the lodge on Tuesday, Oct 12th. Special effort should be made by Woodstock Lodge as a complete turning over of the temperance question has taken hold of the people of the town and every effort should be made to bring the present agitation over the liquor question to a final clearing out of saloons in the town.

### Prepares Big Army.

Minister of Defence Cook moved the second reading of the defence bill in the House of Representatives, giving effect to the decisions of the Imperial Defence Conference.

He said that in addition to the announced naval proposals, the scheme would eventually give a force of 260,000 well trained soldiers, with a second line of 115,000. A compact expeditionary force would be provided for overseas service. The estimated total annual cost will be \$12,500,000. All the military and naval forces will be interchangeable with the forces of other states of the Empire. Compulsory service at first will be limited to the densely-populated areas.

### Fears Canada's Displeasure.

The committee on paper of the American Newspaper Publishers Association to-day gave out a statement concerning the impending trade issue between Canada and the United States, growing out of the newly imposed duties on print paper and pulpwood and the various retaliatory measures threatened by Canada. The statement points out the magnitude of the exports and imports between the United States and Canada likely to be affected and says:

THE STATEMENT.

"At the outset the Dominion claimed that if the American mills wanted to obtain their supply of pulpwood from Canada, the American paper makers should not object to a reasonable rate of duty on paper made in Canada from pulpwood. A committee of the House of Representatives, after a ten months study of the subject approved of that view which was confirmed and ratified by the ways and means committee and by the house of representatives. Senator Hale objected to such an arrangement and the United States senate to please him, upset it and raised the rate above that passed by the house. The provinces of Canada now declare that since the United States has refused to admit print paper upon reasonable terms, they will protect Canadian interests by meeting retaliation with retaliation and will force many of the American print mills to move to Canada."

"Canada retaliation will strike American exports as varied as coal and cotton, iron and meat, fruits and automobiles oil and live stock. But the most serious feature of the prospective war is that which effects wood products, valued at \$30,000,000 brought into the United States from the Dominion."

### Ladies Championship.

The Ladies Championship Cup match was played on the golf links on Tuesday, Wednesday, Thursday and Friday. It was won by Miss Rankin, after one of the most interesting games ever seen on the links, with Mrs W B Belyea.

Mrs Belyea cut down Miss Rankin's lead so that at end of second round, 18 holes, the score was tied for holes and points, Miss Rankin 54-55, Mrs Belyea 55-54. It took two more holes to decide and was won by the last stroke on the 20th hole by Miss Rankin, who holds the cup for the year.
