Polli Sent Up for Trial.

Samuel Polli, the Italian, will be tried on the 28th inst for the murder of Jas Gorman. The preliminary examination of Polli was concluded Saturday.

Dr Coffin's evidence was the last taken. He told of attending Gorman and of making a post-mortem examination of his body. Dr Coffin said he was called to McDonald's camp on August 28 and found Gorman lying on the ground on his back. On examination he found a small round hole in the lower part of the abdomen, and an inch and a half to the left of the middle line. He declared that operating was the only thing that could save the man's life, and accordingly called on Dr Taylor of Plaster Rock and Dr Puddington of Grand Falls. He also sent for Miss Munroe, trained nurse, of St John. As soon as the doctor arrived, which was about midnight, they commenced the operation. They cut through the peritoneum and found it had been pierced. They also found that the small bowel was pierced in two places. They sutured all three wounds and closed up the incision. He attended Gorman from this time until his death.

Gorman made no statement to him. He said that Gorman had no feelings against Polli whatever.

Witness held the post mortem examination, searching the abdomen but being unable to find the bullet. He then amputated the leg and completely dissected it and after three hours' work was still unable to find the bullet.

Witness had learned that Gorman had served in the Sudan under Kitchener and drew a pension for his services.

It is rumored here that Frank B Carvell has been retained to defend Polli when he comes to trial.

Boy's Leg Torn Off By Carriage Wheel.

One of the worst accidents that has happened in St John for some time occurred on Saturday evening between 5.30 and 6 p.m., when little Ronald Campbell, aged seven, son of Percy Campbell, of the New Brunswick Telephone Company, had his right leg completely severed at the knee and also suffered a compound fracture of the thigh bone, as a result of having his leg caught in the spokes of a carriage.

The little lad had left his home on Rockland Road to visit his aunt, Mrs Jarvis Wilson, of German street. Mrs Wilson happened to be out at the time, so young Campbell, along with some other boys, started playing on the street. A carriage driven by Mrs Holman, of Leinster street, came along and three of the boys jumped on the back of it. Roland Campbell, in some way, got his leg over the spring and through the spokes in one of the rear wheels. Mrs Holman, who was driving along very slowly, did not notice the boys on behind and failed to stop in time to prevent the leg being terribly lacerated.

The lad was picked up and carried into John E Moore's residence, and Doctors Bentley, White, Inches and Skinner were summoned. They soon saw that the bones of the leg were broken to bits, the flesh hung in shreds. The suffering of the boy was intense.

It was found impossible to do anything for him there, so the ambulance was summoned and the lad taken to the hospital. He was at once placed on the table and Dr White made a clean amputation of the leg a little below the knee.

It was necessary to bind tightly the boy's leg in order to stop the great flow of blood which was causing the patient to become very weak. After the lad regained consciousness, following the operation, he talked cheerfully to his father, who had hastened to the hospital as soon as he learned of the accident. At a late hour last night the little patient was resting comfortably, but the physicians think his chances for recovery are not great. Mr Campbell, the boy's father, was almost overcome by the shock.

Will Still Retain Office of High Commissioner.

Montreal, Sept 12—Lord Strathcona, who returned from the west today, was asked if the report of his imminent retirement from the high commissioner was correct. He replied that he was the last one to take cognizance of newspapers stories, and as a general rule did not discuss such matters.

He would say, however, that his retention of the office of high commissioner in London was due solely to the fact that Sir Wilfrid Laurier had earnestly requested him to hold it, the premier urging that it was in Canada's interest he should do so.

Lord Strathcona will remain here for a few days and will also visit Ottawa before leaving for London.

Prairie Fires Do Damage.

Saskatoon, Sept 13th.—serious prairie fires are raging near Dundurn, and it was feared that the loss would be heavy. Hundreds of bushels of standing wheat in the track of the fire have been already burned.

Hartland

September thus far has been more than unusually cold, and quite heavy frosts. Mr Aaron Campbell visited St John last week.

The farm at Mount Pleasant recently owned and occupied by the late W Brown of unfortunate demise, has been purchased by Randolph Rideout late of Alberta. The people of Mount Pleasant will find Mr and Mrs Rideout an excellent acquisition to their community.

Gesein and Joseph have placed a new and attractive sign over their store door in the Boyer building, North end. Potatoes are being shipped in large quantities, and new oats are on the market, quality superior.

Mrs S S Miller and family have returned from the Lodge.

D J Coughlan is attending Fredericton Exhibition. He drove his own team by way of Cluverdale from which place a friend accompanied him, and will also visit St John before returning.

A large number will visit the Fredericton Exhibition from this section, no doubt time well spent.

Quebec's Policy Alarms Americans

Export Duty on Pulp Wood Will be a Serious Blow—Many Mills Will Move to Canada.

New York, Sept 13—The Province of Quebec has definitely decided to prohibit the exportation of pulpwood cut from Crown lands. In September, 1900, the Premier of the province made a promise that the stumpage rates of sixty cents per cord on wood cut from Crownlands would not be raised for a period of ten years. It is intended to carry out that pledge and no increase in stumpage charges will be made until September, 1910. The Canadian paper-makers are urging the provincial authorities to stop the exportation of pulpwood cut from Crown lands but the American owners of rights to cut timber on more than 12,000 square miles of those lands represent that the pledge of September, 1900, implied a right of importation for ten years and that in good faith no prohibition should be made until the lapse of that period. The Canadian paper and pulp interests retort that the pledge specifically related to stumpage taxes, not to exportation and that the extension of that privilege to American owners for another year will retard Canadian plans and discriminate against Canadian manufacturers who now suffer because of the retaliatory clauses of the United States tariff on print paper. The provincial authorities are balancing the question whether they should prohibit the exportation of pulpwood on January 1, 1910, or September 1, 1910. They calculate that the new policy will add over \$200,000 per annum in revenues. They are informed that the interests controlling the Berlin mills property in New Hampshire are planning to install a print paper mill plant at La Tuque, Que., and that the International Paper Company has prepared plans for numerous locations for paper mills in Canada—that company having stopped the manufacture of print paper at a number of its more extensive mills in the United States.

Andover

A general depression is felt over the village owing to the Typhoid epidemic. There are now between thirty and forty cases, most of them in Andover. The water is thought to be causing all the trouble.

Mrs Sutton left Thursday to spend a few days in Houlton.

Mrs Jas Tibbitts left on Saturday to visit her daughters in St John.

Miss Annie Frazer, Grand Falls, was the guest of Mrs Perley over Sunday.

Mrs Wm Vauderbeck of Navy Brook is the guest of Mrs Wm Johnson.

Mr and Mrs McPhail and Mrs Atherton have returned from their western trip.

Miss Bessie Kilburn was the guest of Miss Effie Sisson over Sunday.

Bertha Spike the little daughter of W E Spike is very ill with Typhoid fever.

Miss Smith of Caribou is the guest of Mrs Alex Henderson.

The Perth-Andover Carnival is to be a big affair. Remember the dates 23rd, 24th and 25th of September. Everybody is interested and intends it to be a success.

Mr and Mrs Peat left on Monday to spend the winter in the West.

Mrs S P and Mrs Bertha Waite left on Saturday for Appleton, Wis., where their brother, Mr Bev Murphy is very ill. X Y Z.

Richmond Corner and Autos.

To The Editor of The Sentinel:
DEAR SIR,—I am prompted to pen these few lines from an article which appeared in your paper under the cognomen of "Richmond Farmer." He would give you and the readers of your paper the impression that the farmers of Richmond find the auto a dreadful curse to the locality. Now "the devil carts" he speaks of are not half so "devilish" as he would have you believe, and the "devil" is not seated in the front seat on all of them; moreover "Richmond Farmer" does not express the sentiments of the farmers of Richmond, nor does he give an accurate statement of the conduct of autoists upon the Houlton Road. True it is, some of them drive recklessly, ignoring the rights of the public way fares, but the majority are courteous and obliging in their behavior, so that we have no wish even were it possible to exclude them from our highways. I think "Richmond Farmer" will find that there are already laws regarding the running of autos upon the statutes of our province, which if enforced will meet the demands. Passing new laws will do no good, what we want is the enforcing of the old.

"Richmond Farmer" makes himself appear childish and ridiculous by some of his statements, especially so, regarding The Sentinels stand on the placing of rails upon the road, but please Mr Editor don't judge all the farmers of Richmond by this man's standard. We would like to see the party who placed the rails upon the road deservedly punished. I don't think either candidates for council or parliament, or the Sentinel will suffer from "Richmond Farmers" threats which are childish to say the least. ANOTHER RICHMOND FARMER.

Remember "Tag Day" For The Hospital On Saturday, - Sept. 25th.

The Woman's Auxiliary Carleton Co Hospital will on Saturday Sept 25th have a Tag day for the benefit of the Hospital. There may be some who do not exactly know just what this means. Early on Saturday morning an organized band of young ladies with red badges on their arms will start out to supply the town with tags, in return for its contributions. These contributions rest entirely with yourselves, just as much or just as little as you wish to give, and when your nickel or dimes or quarters, (and we hope there will be lots of bills and several large-sized checks) jingle into the box, you get a red tag to wear. The young ladies will

be instructed not to ask anybody who is already tagged. In order that there will be no bogus representation, each girl will wear an arm badge. Everywhere let the countersign be, "Where's your tag?" and if you don't have one, be persuaded that you ought to wear one to be in style. Buy one for your horse, your auto, your dog. Let everyone get the fever, and when you are politely tapped on the arm by a young lady, meet her pleasantly and make the day not only one of duty, but one of pleasure also, and thus by a novel and pleasing method help a worthy cause.—Mrs W B Belyea, Sec'y.

Death of Rev Chas Comben.

Rev Charles Comben, for seven years supernumerary of Centenary church, and a prominent citizen of St John, passed away early last evening at his residence, 20 City Road, in the 77th year of his age. Mr Comben had been in poor health since spring but it was only on Sunday, Sep 5th, that his illness became serious.

Rev Charles Comben was an Englishman by birth, but came to Newfoundland in 1856 and entered the ministry of the Methodist church in that year. After serving the usual term of probation he was ordained in Charlottetown in 1859, the officers of the conference being Revs. Dr Richey, president; Dr Knight, co-delegate, and Dr Pickard, secretary. His circuits in the Ancient Colony were Island Cove, Western Shore, Hants Harbor, Twillingate, Bonaville, St John's Blackhead and Carbonear. On the division of the conference of Eastern British America into three conferences of Nova Scotia, New Brunswick and Prince Edward Island, and Newfoundland, consequent upon the union of Canadian Methodism in 1873, he was stationed at Hillsboro, in this province, and between that time and 1900 when he became a supernumerary, he labored on the Dorchester, Upland, Andover, Grand Lake, Pettitcodiac, Jacksonville, St Andrews and Albert circuits. He was elected to the presidency of the conference in 1893, which was held in Moncton in that year. He has twice visited the Motherland the second time about a year and a half ago, and having relatives in good positions in church and state, had a most enjoyable time. His wife died some time previous to his last visit. He leaves a son, Charles, who is practicing law in Woodstock, and six daughters—Mary R Alexandra, Elizabeth A, Edith A, Lillian B, and Harriet S.

He was a most agreeable companion, was well informed on public questions, a thoroughly good man and an acceptable preacher of old fashioned Methodist doctrine. During his years of retirement he has done a good deal of work in supplying vacancies, both in his own and other denominations. He came to this city in 1902, and has resided here ever since, during which time he has been connected with Centenary church. He was in the seventy-seventh year of his age.

Rev Jabez A Rogers, of Sussex, studied for the ministry under the deceased when he was ministering to the Methodists of Bonaville, Newfoundland, where he was stationed in 1863.

The funeral of the late Rev Charles Comben was held from Centenary Church Tuesday afternoon at 2.30 o'clock.

Head Crushed to Pulp.

Houlton, Sep. 11—A terrible accident occurred in town on Friday afternoon, when Earl Britton, aged 20, son of Ben Britton, who lives in New Limerick, about four miles from Houlton, was returning home with a load of empty barrels. The horses, a pair of colts, in some way took fright and Earl stopped to tighten the barrels on, so they would not rattle around. A Mr McGinley came out to assist him, and Earl released hold of the reins and went out on the pole to arrange the barrels in front. The horses started on a mad gallop, throwing young Britton to the ground, and the heavy wagon passed over his head, crushing it to a pulp and causing instant death.

Campbellton, N B, Sept 13.—Lingi Giambaoli, the Italian who disappeared from a construction camp on the International Railway near here about two weeks ago, and who, it was feared, had met with foul play, has been discovered working at Grand Falls. The man's account of his adventures is to the effect that he became lost in the woods while hunting and on finding himself far from the camp, made his way across to Grand Falls, instead of returning to his own camp.

Learning Spanish

A correspondent of a morning paper suggests that in view of trade prospects in Cuba, Mexico and South America a knowledge of Spanish is of sufficient importance to make it worth while for the Y M C A to include the study in its winter course. Perhaps this suggestion can not be carried out, but the correspondent is right in regard to the desirability of a knowledge of Spanish by persons engaging in trade with the southern republic. The Maritime Merchants a year or two since took up this question from the Halifax standpoint and counselled young business men engaged in export and import trade to gain a working knowledge of Spanish language. said it is that the trade of the maritime provinces with countries where Spanish is the chief language spoken is destined to increase. There is, so warrant for teaching Spanish in the schools, but many young men in business might find it to their advantage to take up the study on their own account. It would be time well spent.—Times

Deluged With Molten Metal

Victoria Mines, Sept. 13.—An explosion occurred in the smelter here on Sunday morning. Two men have died and one other has been badly burned. The water jacket surrounding the settler broke and the contact of water and the white heat of the settler caused the accident. Three attendants, all Polanders, were sitting close by eating their midnight meal, and were without a moment's warning deluged with molten metal, bricks and scrap iron. One man lived until 10 a.m. Sunday, and died when they were placing him on a special train provided by company to bring him to St Joseph's hospital. A second man was brought to the hospital on the special but died at 9 o'clock last night. The third man will get better. The flesh of all three was practically roasted off them.
