

Rev. Father Morrissey

Take Father Morrissey's "No. 10" (Lung Tonic) And Be Sure

that it will cure your cough, cold or lung troubles. It is the very same medicine which the priest-physician himself prescribed so often and so successfully during his lifetime, and thousands are the cases it has cured.

Take it—or give it to the children—with confidence, because it is absolutely free from opium, morphine or any other harmful drug. Many cough medicines are loaded with these dangerous ingredients, but Father Morrissey would not use anything that was not perfectly safe even for a baby.

"No. 10" contains nothing but Nature's own remedies—Herbs, Roots and Balsams—combined as only Father Morrissey knows how to combine them. Keep a bottle in the house as a safeguard against all troubles of throat and lungs.

Trial size 25c. per bottle. Regular size 50c.

A War Correspondent's Exciting Adventures

WHAT HE OWES TO ZAM-BUK.

Mr. Frank Scudamore, the great war correspondent, who sent many of the Canadian despatches during the late Boer War, owes his health to Zam-Buk. He has passed unscathed through 29 battles, but a scratch which turned to blood-poisoning nearly ended his days. Zam-Buk saved him and he writes as follows:—

"I have proved Zam-Buk such a blessing that I want others to know of its merits. Poisonous dye in some underclothing I was wearing got into a scratch I had sustained and blood-poisoning set up. Inflammation was followed by great pain and swelling, and then ulcers broke out on my legs. For some time I could not walk a few steps nor even put my feet to the ground. On my left leg below the knee I had seventeen ulcers which caused holes, into which I could put my thumb. On the right leg I had fourteen ulcers. Medical treatment failed to relieve, homely remedies were applied in vain. Week followed week and I gradually got worse, until I was worn out with pain and lack of sleep. On the advice of a friend I obtained some Zam-Buk and left off everything else while I tried it. It seemed to give me almost instant relief from the pain, and in a few days I noticed that it was heading some of the ulcers. This was cheering indeed, and gladly I persevered with the Zam-Buk treatment. Bit by bit the poisonous matter was drawn out. The ulcers were healed, and new healthy skin grew over the previously diseased places. I am now quite cured, and in gratitude, I mention these facts that other sufferers from skin disease may know of something which will cure them."

Zam-Buk differs entirely from ordinary ointments and salves, as the above facts clearly prove. For all skin diseases, ulcers, abscesses, scalds, rashes, ringworm, children's sore heads, cuts, burns, bruises, etc., it is a speedy cure. It also cures eczema, itchy piles, blood-poisoning, face-blemishes, barber's rash, etc., cold sores, chapped hands, and frost bite. Rubbed well into the parts affected, it cures rheumatism, neuralgia, and sciatica. All druggists and stores sell at 50c a box, or post free from Zam-Buk Co., Toronto, for prices 3 boxes for \$1.25.

Canada's Growth.

The statistics of the immigration into Canada during the year which ended at the end of last March are at last formally before parliament, giving the result of just ten years of the Laurier regime. During that period a fifth was added to the population of the country, from without its borders, one out of every six now in Canada being a new-comer, or, assuming the year that has since elapsed to be like the one before it, close on one in five. This assumes the population of a year ago to have been seven millions, and only the immigration to have been added. It is presumable, however, that there has been considerable natural increase both among the native population, chiefly the French, and among the new arrivals who are usually prolific. We have here a very serious fact—one which the Deputy Minister of the Interior tells us no other country ever had to cope with to an equal proportional extent—not even the United States at any period of its wonderful growth. We count it fortunate that over two-thirds of this population came from the British Isles and the United States, made up for the most part of people accustomed and trained to self-government, to which must be added all Scandinavians and Finns who are, to say the least, as advanced in parliamentary rule. We must look for a considerable increase of German immigration in the future, as the population of that great empire is multiplying at an astonishing rate and gaining rapidly on the means of livelihood. It is our business to make friends with them, as our King has been doing. As for the French and the Belgians and the Dutch we could wish we had more of them, but they do not come. Even from the most congested parts of those countries the migration is very small, not because the people are not enterprising, but because they are more comfortable at home. Their wages are far less, but without much exaggeration they can get as much comfort for two francs as they can here for two dollars. With all the efforts that have been made to hold out the charms of Canada to the French and the Belgians the total arrivals in the year amounted to 3,885, and much boast is made of that, as it is five times what it was the year before.

The question before us is what we are going to do about this great influx of new population. The assimilating forces are the church and the school. The operations of the church are necessarily voluntary; those of the school should be compulsory, at least in so far as to require that every child shall receive an education. We are told that considerable interest was stirred up in Winnipeg by the declaration of Archdeacon Fortin that education should be compulsory, showing that even in Manitoba this is not the law. It is fortunate that with regard to some classes of immigrants there is no need of compulsion. The Jews, who form so large a proportion of the addition to Montreal's population, are as a rule determined to have their children educated. This is not the case, however, with all the Christian populations, some of those from the southern extremities of Europe being semi-barbarous, and taking much more interest in the shops which sell knives and pistols than in the schools. The school provisions of the North-West are far in advance of what we have in the east. Magnificent schoolhouses are rising wherever possible, and the teachers' salaries are such as to tempt those who are so much needed in the east. As for the duty of the churches towards the new population, it is fully admitted in theory, but as it depends largely on voluntary contributions more than theory is needed. The amount people are willing to give to sustain the various works of seeking out and helping the strangers towards spiritual life, is, as a rule, compared with what they are willing to spend on a hockey match or a carnival ball, contemptible in the extreme. Is it not possible to get people to see things in proportion?—Montreal Witness.

SIGNALS OF DANGER.—Have you lost your appetite? Have you a coated tongue? Have you an unpleasant taste in the mouth? Does your headache and have you dizziness? If so, your stomach is out of order and you need medicine. But you do not like medicine. He that prefers sickness to medicine must suffer, but under the circumstances the wise man would procure a box of Parmenter's Vegetable Pills and speedily get himself in health, and strive to keep so.

WANTED. Any quantity of dark brown and white hair. Good price paid if brought in during this week.

TO KNOW IS TO PREVENT.—If the minors who work in cold water most of the day would rub their feet and legs with Dr. Thomas' Electric Oil they would escape muscular rheumatism and render their nether limbs proof against the ill effects of exposure to the cold. Those setting out for mining regions would do well to provide themselves with a supply before starting.

Says That Christ has Spoken Four Words to Him.

Describing how Christ in person had come to him in his office, in broad daylight, and spoken to him, William E. Shannessy of Foxboro, Mass., says the Boston Journal, who said that for three years he was a missionary in the West Indies, was by all odds the most interesting speaker at yesterday afternoon's session of the Boston Branch of the Christian and Missionary Alliance in the Clarendon Street Baptist church. His remarkable statement caused audible exclamations of surprise in the assemblage.

"It was at 25 minutes of 11 o'clock on the morning of Wednesday, Jan 15, 1892," and Mr Shannessy, with the most careful attention to detail. "I had gone into my office with the special purpose of awaiting God. Not only did Christ appear before me there in visible form, but heard His voice. He spoke four words to me."

Though pressed eager to tell what those four words were that Christ uttered, Mr Shannessy demurred. "I am going to write a book," he explained, "telling about my life and my work in the West Indies and I am saving Christ's message to me for this book." The Rev A B Simpson, who followed Mr Shannessy, somewhat startled the Alliance by declaring that the end of the world is near and warning everybody to make ready for it.

KEEP CHILDREN WELL.

An occasional dose of gentle laxative such as Baby's Own Tablets will clear the stomach and bowels of all offending matter, and will keep little ones well and happy. For this reason the Tablets should be kept in every home. Mothers have the guarantee of a government analyst that this medicine contains no opiate or harmful drug. Mrs Geo McLean, Springfield, N. S., says:—"I have used Baby's Own Tablets and know them to be a cure for all the minor ills of childhood. I recommend them to all mothers." Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Church Advertising.

The following quaint notice was posted recently on a church door in Whitechurch:

MISSING.

Last Sunday, some families from church.

STOLEN.

Several hours from the Lord's day, by a number of people of different ages, dressed in their Sunday clothes.

STRAYED.

Half a score of lambs, believed to have gone in the direction of "No Sunday-School."

MISLAID.

A quantity of silver and copper coins on the counter of a public house, the owner being in a state of great excitement.

WANTED.

Several young people. When last seen were walking in pairs up Sabbath Breakers' Lane, which leads to the City of No Good.

LOST.

A lad, carefully reared, not long from home, and for a time promising. Supposed to have gone with one of two older companions, to Prodigal Town, Husk Lane.

Any person assisting in the recovery of the above shall in no wise lose his reward.

THE MOST POPULAR PILL.—The pill is the most popular of all forms of medicine, and of pills the most popular are Parmenter's Vegetable Pills, because they do what it is asserted they can do, and are not put forward on any fictitious claims to excellence. They are compact and portable, they are easily taken, they do not nauseate nor grip, and they give relief in the most stubborn cases.

A recent issue of the Parrsboro Leader has the following:—"We are glad to note that Miss Margaret Chapman, who has been in poor health for the last few weeks has died."

In a later issue the editor explains that he did not mean it.

Wear "Lustre Loom" Undershirts, for satisfaction. They are feather light and silken bright.

EASY TO TELL.

A Massachusetts bridegroom appeared four hours late at the church and blamed the alarm clock for it. It's easy to tell which member of that family will have to get up in the middle of the night to answer the telephone.

One of the greatest blessings to parents is Mother Graves' Worm Exterminator. It effectually expels worms and gives health in a marvellous manner to the little ones.

IN THE HOME

A vast amount of human misery is endured by thousands of men and women, who are never really well. Headache, sickness, nervous depression, dislike of food, sinking sensations, with distressing dizziness and weakness, make life a daily misery to such sufferers. And the cause is indigestion—a stomach that starves the body, because it cannot digest sufficient food to keep it well, and leaves the mind weak, irritable, depressed. To such unhappy ones Mother Seigel's Syrup brings a message of hope, brings the ready help to health, brings the quiet, strong sense of confidence which only health can give—health re-made and regained, through sound digestion. Take it daily after meals.

Price 60c. a bottle. Sold everywhere.

Synopsis of Canadian Northwest Land Regulations.

ANY person who is the sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader. Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister. In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3.00 per acre. Duties.—Must reside six months in each of three years from date of homestead entry (including the required to earn homestead patent) and cultivate fifty acres extra. A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.

A Woman's Sympathy

Are you discouraged? Is your doctor's bill a heavy financial load? Is your pain a heavy physical burden? I know what these mean to delicate women—I have been discouraged, too; but learned how to cure myself. I want to relieve your burdens. Why not end the pain and stop the doctor's bill? I can do this for you and will if you will assist me. All you need do is to write for a free box of the remedy which has been placed in my hands to be given away. Perhaps this one box will cure you—it has done so for others. If so, I shall be happy and you will be cured for 2c (the cost of a postage stamp). Your letters held confidentially. Write to-day for my free treatment. MRS. F. E. CURRAH, Windsor, Ont.
