## Remedies are Needed

Vere we perfect, which we are not, medicines woul d. But since our systems have be ne weakened, impaired and broken down through scretions which have gone on from the early through countless generations, remedies are needed to aid Nature in correcting our inherited and otherwise quired weaknesses. To reach the seat of stomach

weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discov-ery, a glyceric compound, extracted from native medic-imal roots sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after cating, Heartburn, Bad Breath, Belehing of food, Chronic Diarrhea and other Intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

#### Peculiar Marriage Rites.

Northern India and the Island of Banquey can certainly claim to have the most peculiar marriage rites of any country. In the former a cow and a calf are invariably required at the marriage. The animals are driv. en into a narrow running stream, the priests and the betrothed couple also standing in the water. The man and woman each catch hold of the cow's tail, and the priests pour water out of a glass vessel, upon their joined hands, while all present mutter certain prayers. The young folks are then declared to be man and wife, and the priest claims the cow and calf as his fee. In the Island of Banquey the officiating priest takes a sharp kuife and with it makes a small incision in the right leg of the bride and bridegroom. From each incision he gathers a few drops of blood and transfers them to the other one's leg. This operation to gether with a short religious for-Mrs R J Peterson is very ill, we are mula, constitutes the whole of the marriage ceremony.

Apropos of the formal opening of the Queensboro (New York) bridge from Manhattan to Queens county in Long Island, it is noted that this is the largest bridge of its kind, bearing traffic in the world. The length of the entire cantilever is

3,724 feet, with its highest tower rising over 300 feet in the air. It can accomodate a' out 200,000 persons per hour. It has four elevated railroad tracks, two promenades and four trolly tracks. The ceremonies of dedication were the climax of

more than eight years of work, and the expenditure of above \$17,000,000.

#### The strength of a child.

It is surprising to find how few parents know the great strength giving qualities of good oatmeal. Most of them think of it as a food for the sturdy and brawny man, and overlook its value as a food for children. Every now and then a mother will take to feeding her children on Quaker Oats Kirkland.

There was a very pretty wedding at the residence of Mr and Mrs Chas Carter on June 9th, 1909, when their daughter, Anna Belle, was united in marriage with Lowell W Colby of Haverhill, Mass. Rev F W Murray of Glassville assisted by Mr Daniel Nicholson, performed the ceremony at 7 o'clock in the afternoon in the presence of the near relatives and a few intimate friends. The room was decorated with apple blossoms, sweet peas and ferns. The bride's dress was white silk muslin with valenciences lace. The couple were unattended. The gifts were numerous, including a silver purse containing a twenty dollar gold piece from the nurses in the Hospital of which she was supervisor. The couple was serenaded in the evening and the company was treated to peanuts, candy, cake also fruit punch and cider. Mr and Mrs Colby will reside in Los Augelos, California.

Wesley Oropley of Fosterville, North Lake, was married to Miss May Hall of Maxwell, York Co, on June [8th. The ceremony was performed at the residence of the bride's parents.

AN INVALID

Arnprior, Ont., Nov. 27, 1908. I was an invalid for seven years from fearful Womb Trouble. I had falling womb, with constant pain in the back and front of my body and all down my legs. There was a heavy discharge and this made me weak, sleepless, restless and miserable. Often I was obliged to be in bed for a month at a time. I was treated by several doctors, but their treatment did me no permanent good.

A few months ago, I was persuaded to try "Fruit-a-tives." I took several boxes, and from the outset of this treatment I was better, the Constipathe discharge tion was cured, and lessened I took, for the paleness, several bottles of the Iron Mixture as recommended in the "Fruit-a-tives" book, but I feel that it was "Fruit-atives" alone that cured me.

ity to go direct to the spot where the catarrh germ is working. Every

breath through the inhaler means instant death to the microbes, and

gives the sufferer relief from the gnawing, destructive action of these

parasites. It must be remembered, also, that Catarrhozone is a marve-

and throat. Of course, the discharge of mucus stops at once, Catarrhozone prevents this entirely.

Larger Milk Yields are Possible.

Why should cow testing be carried on? Mainly because individual cows in the same herd are likely to vary in production about as much as, something much more than, individ ual cows in different breeds. Then too must be considered the strange variations in milk and fat from day to day even with a cow handled as carefully as possible. Such variations are very apt to be overlooked upless the record is carefully kept. Another point, two cows side by side, one gives 20 lbs milk a day, or 10 lb at a milking, the other gives 9 lb. The difference in weight, or the difference in bulk in the pail, especially if there is a lot of froth on top, is not easily gauged by the ordinary milker. But multiply that by the 300 days of a milking period, and it is seen that one cow gives 600 lb more milk than the other. Yet the ordin. ary milker would have said, these two cows give "just about" the same. But is not the extra 600 lb worth having? Many members of the cow testing associations say that the hired man milks better, with more endeavour to milk clean, if the record hangs before him constantly and an extra 500 lb per cow has of.

ten been obtained since the introduction of the pencil and ruled sheet. Try it, not simply for the extra milk or fat, but for the personal satisfaction in knowing that each cow is being made to do bet ter, to do her best.
