## LIBERALS OF HAMPTON BANQUET DR MCALLISTER

THE CARLESON SENTINEL. WOODSTOCK, N. B., JANUARY 15. 1909.

Shiretown on Thursday Evening. Dr McAllister, the popular M for Kings-Albert, was the guest of honor at a banquet given by the Hampton Liberal Club on Thursday evening in the Agricultural Hall. The affair was a spleudid success and all present thoroughly enjoyed the evening. The decorations of the hall were beautiful. Portraits of the King, Sir Wilfrid Laurier, Hon Wm prepare for war." Pugsley and Dr McAllister hung upon the walls and mottoes of welcome as well as others suitable to beautifully lettered by three ladies. Miss Grace Flewwelling, Miss Margaret Evans and Mrs FM Humphrey. Forty young ladies dressed in white, with red sashes or bows, waited upon the tables, of which there were four, seating more than 140 persons. The reception committee, consisting of Mr and Mrs J M Scovil, Mr and Mrs S H Flewwelling, Mr and Mr R. G Flewwelling, Mr and Mrs E A Schofield, Mrs Hammond, Mrs N M Barnes, Mrs John Crawford and Mrs F M Humphrey, with Dr and Mrs Mc-Allister. Many of the electors of the parish of Hampton, their wives and daughters, were presented to the latter. Mr S H Flewwelling, the chairman

of the evening, spoke a few pleasant words at 8 o'clock, and invited all who could to seat themselves. B sides Dr and Mrs McAllister the chairman and Mrs Flewwelling and the reception committee, there were seated at the guest table Hon H A McKeown, Ora P King, M P P, E H McAlpine, O W and Mrs Wetmore, and ES Carter. The chairman, in speaking of the pleasure it gave the Hampton liberals to welcome Dr and Mrs McAllister, regretted the

## The Mark of the Beast.

The Farmer's Advocate deplores Very Enjoyable Gethering at the the tendency towards war and declares it is a relic of the barbabous ages. It says: The world has been regaled considerably of late with reports and interviews of the possibility of war and conjectures upon the relative strength ofnations. Men who should be cool and on cordial terms with governments in other countries, become agitated and proclaim a danger, the only safety from which is, they say, "in time of peace

When will intelligent humanity ever learn to despise war, to be ashamed of it? Not at least as long the occasion, as well as reminiscent as governments keep on building of the great Liberal victory, were Dreadnoughts and flaunting their military strength in the faces of foreign nations. Nations are but collections of individuals. Imagine two neighbors sending each other notes protesting that it is in the in. terests of both and the community in which they live, that they should dwell on neighborly terms, then after sgreeing to the preposal, each goes about, putting heavier locks on his doors, spends about one quarter of his total income on firearms, explosives and hired men to handle them, and maintains spies on the other neighbor's farm to keep him posted on what is going on. Are these the conditions that are conducive to harmonious relationship? Yet this is what the world powers are doing and what Canada is being urge to

> Does anyone suppose that if Great Britain and the United States had placed fleets on the Great Lakes to insure peace, we would have lived these hundred years of harmonious ntercouse with our neighbors? The modern army and navy should be the humiliation of every nation that supports it. It is the unmistakable token that passion is supreme and reason supine in the governments of he world.

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. < R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a- million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first o specialists in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as without fec, to World's Dispensary Medical Association, Dr. R. V. Pierce, Prest., Buffalo, N. Y.
