

## The New Aberdeen Band.

The New Aberdeen Brass Band of the Salvation Army, under the charge of Colonel J. W. B. Turner of St. John, and which at the present time is touring the Province for the interest of God's Kingdom, arrived on the noon express last Saturday and marched through the town and amid their beautiful strains of music made their way to the Barracks on King St., where billets were supplied by kind friends and soldiers to each Bandsman who hastily made their way to their different places to partake of no doubt a well prepared dinner such as Woodstock people alone can do. The boys made a fine appearance in their beautiful tunics of red with white sashes and caps to match. Their instruments were all silver-plated but two, and of the Army's own make of London, Eng. They conducted a large open air service in the square at 7.30 Saturday evening. At 8 p.m. a great musical festival at Graham's Opera House which was, considering it being on Saturday night, well patronized. All day Sunday was a great day in Woodstock. Right from the early morning music floated in the air. A great open-air meeting was conducted in front of the Hospital to comfort and cheer the sick and afflicted which were laid aside. Afternoon and night the services both outside and inside were of a great spiritual nature, many hearts being blessed and helped towards the better land. The playing and singing of the band was certainly something that is seldom heard around these parts, the boys all being very skilful musicians and under an able Director. Bandmaster Goodwin is well trained and all work together in unity of love.

We wish the boys every success wherever they go and hope that this will not be their last visit to Woodstock, N. B.

## Britain to Lay Down Four More Dreadnoughts This Year.

London, July 27.—The big navy campaign has won the day and four additional super-Dreadnoughts are to be added to the current year's shipbuilding programme. Reginald McKenna, first lord of the admiralty, officially confirmed this in the house of commons yesterday afternoon, saying that after a very anxious and careful examination into the shipbuilding conditions of foreign countries, the government had come to the conclusion that it was desirable to take all necessary steps to insure the laying down of four additional Dreadnoughts in April, to be completed in March, 1912.

Mr. McKenna said that foreign shipbuilding had developed apace. Italy and Austria-Hungary, according to the ample evidence collected by the government, each had definitely committed themselves to the construction of four battleships of the largest size and the latest type. The first lord of the admiralty mentioned that two of the battleships on this year's programme would be launched during the present year, and that of the two big ships to be laid down in November the government had decided that one should be an improved cruiser, as the admiralty had plans of cruisers more powerful and faster than the Invincible and Indomitable types. He pointed out that, much as he personally regretted the necessity, it was incumbent on Great Britain to build still faster cruisers with which to be better able to capture any hostile vessels threatening English commerce.

Asked if Germany had anticipated the British programme or had kept to the understanding as given by the British foreign office, Mr. McKenna deprecated the comparison, but said that during the three years that the British government was doing its best to restrict the growth of armaments, Germany had laid down eleven large armored ships to Great Britain's eight. After these three years of experience he considered it would not be safe to continue on these lines, and that the time had arrived to take steps to secure British predominance on the sea, not only now, but in the future.

The radical and labor members protested against the increased expenditure and Premier Asquith begged them not to believe that the programme was not introduced in the spirit of aggression or with a desire to be provocative toward foreign nations, but because a month's anxious deliberation had forced the cabinet to the reluctant conclusion that this enlarged programme was the only one which, with proper regard for the safety of the empire, they could honestly ask parliament to accept. The premier added that the door was still open for an agreement between this country and the other powers regarding naval expenditures.

Thought Astor was crazy.

People said John Jacob Astor was crazy because he paid \$1,000 an acre when he bought the estate of Aaron Burr a hundred years ago. It was a farm of 120 acres, located about where Twenty-first street is now in Manhattan. In ten years he commenced to sell lots at \$5,000 an acre. But fortunately, he did not sell much at that price. What it is worth today is hard to compute in millions—Cent Per Cent for August.

## SCRAPING THE STOMACH

Dangerous and Painful Operation Avoided by Taking "Fruit-a-lives."

Guelph, Ont., Aug. 6, 1908. I suffered for many months with dreadful Stomach Trouble, with vomiting and constant pain, and I could retain practically nothing. My doctor stated that I must go to the hospital and undergo an operation of scraping the stomach and be fed by the bowels for weeks. All the medicine the doctor gave me I vomited at once. I was dreadfully alarmed, but I dreaded an operation and had refused.

I had heard of "Fruit-a-lives" and the great success they were having in all Stomach Troubles, and I decided to try them. To my surprise, the "Fruit-a-lives" not only remained on the stomach, but they also checked the vomiting. I immediately began to improve, and in three days the pain was easier and I was decidedly better. I continued to take "Fruit-a-lives" and they completely cured me.

Mrs. Austin Hainstock. "Fruit-a-lives" are 50c a box, 6 boxes for \$2.50, trial box 25c. At dealers or from Fruit-a-lives Limited, Ottawa.

## Card of Thanks.

I desire with the kind permission of the Editor through this paper on behalf of the Woodstock army band and corps, to thank the kind friends who so willingly opened their doors to the members of the visiting band of New Aberdeen. I can speak for the members of the band who personally told me that they had never been used so kind and courteous since starting on this tour as they have been in Woodstock. I again thank you all. May God bless you richly in return.

On behalf of the army,  
JULIUS NELSON  
Band Secretary.

## DEFICIENCIES OF AMERICAN SAILORS.

(A British Marine Officer, in July Atlantic.)

Every American naval officer could if he would, bear out my statement when I say that nearly every battleship and cruiser in the American navy is undermanned by recruits; that nearly every ship is simply nothing more than a training ship; that many of the second class vessels have nothing more than skeleton crews aboard; that to put a new first-class battleship in commission means stripping at least two second-class ships of all their best men. They could also admit that American men-of-war-men to a great extent come from inland states, and after serving their commissions go back inland and seldom, if ever, join for a second term. Personally I have met with naval men of nearly every country under the sun, and I must honestly confess that to my mind American men-of-war-men—as far as seamen-like appearance goes—cannot compare with those of any other nationality; they are they seem, "landsmen dressed up in sailor's clothes."

Even if they do appear like landsmen dressed in sailor's clothes, their fighting during the Spanish American War showed the world that they were sailors and good ones just the same. The Americans don't believe that to make a soldier or sailor that he must be dressed up in gold and braid and have the salute down proper. What they claim to make good soldiers and sailors are fighters and they certainly have them as was proved.

## CPR AWARDS CONTRACTS FOR AROOSTOOK WORK

The CPR has accepted tenders for the new work at Aroostook Junction already outlined in The Telegraph.

The contract for building a six stall engine house has been awarded to J. H. Hague, of this city. Mr. Hague's tender for the erection of two double cottages at the junction was also accepted, as was always his bid for a turntable foundation.

The tender of H. Post, of Woodstock, for the erection of a boarding house and bunk house was accepted and it has been decided that the freight house to be erected will be built by the company's own men. Work at the junction will be started right away.

It is understood that the CPR has purchased a lot of land in Protection street, corner of Union street, Carleton, from H. Adam Glasgow.

## SUNLIGHT SOAP

No trouble with Sunlight Soap. Just follow the directions on the wrapper and Sunlight does the rest. Costs little—does much—never injures hands or clothes.

## School Changes.

A meeting of the school board was held last week when the following changes were made in the teaching staff:

Miss Dunn who taught the primary department in the Broadway school will take grades 1 and 2 taught by Miss McCormac, who has resigned.

Miss Boyd who taught grades 5 and 6 has been given grades 3 and 4 formerly taught by Miss McCain.

Miss Sherwood, who has a superior license, was engaged to teach grades 5 and 6.

In the Broadway school Mrs. G. W. Slipp has been engaged to teach the Primary department.

The Broadway school building will be completed this week and taken over by the trustees. A day will probably be appointed by the trustees when the public will be given a chance to inspect.

The percentage of marks made by scholars from the 8th grade into the grammar school at the end of the present term was disappointing to the teachers and parents as well as the members of the school board. Various causes are attributed to this lack of interest in the school studies, but the weight of opinion seems to be that until the parents realize their responsibility in the matter of compelling their children to study their lessons at home, no better results can be hoped for.

## DO YOU REQUIRE ANY JOB PRINTING?

The Sentinel Job Department is equipped in excellent style for any kind of printing, from a Visiting Card to a Full Sheet Poster. When in need of Commercial Printing just telephone, write or call on us and see our work, get our prices, and its up to us to give you good work.

## Are You Going to be Married?

Then let us print your Wedding Invitations; we can do it to the "Queen's Taste", and we pay expressage on any order outside of the town. We have a new line of type that is most pleasing when printed on excellent paper, the kind that we always give our patrons.

## WE PRINT TO PLEASE.

## The Carleton Sentinel,

Woodstock, N. B.

"FOUR-FIFTY a square (10 feet by 10 feet), for such a roof as my steel shingles make, is not an outlay.

"It's an investment. No other roofing is so cheap, because no other roof will last a hundred years and never give any bother. "Some have the idea that wood shingles make a cheap roof. But wood shingles, really, are the most costly of all roofs—and the least satisfying.

"I believe that if you actually KNEW just how good a roof my steel shingles make, you'd not think of buying any other kind. And by good, I mean in money-saving, as well as every other way.

"You'd know that, and more, too, about roofing, if you'd kindly let me send you a little book that tells you a lot of facts.

"'Roofing Right' is the book's name. It is free, of course, why not read it? My nearest place will send you a copy gladly. You can trust what it says, and what this advertisement says."

G. A. Pedlar

(We also make everything in sheet metal building materials, including Pedlar Art Steel Ceilings and Side-Walls; and we are glad to send catalogue showing many of our 2,000 designs.)

## OSHAWA STEEL SHINGLES Guaranteed

"GOOD FOR A HUNDRED YEARS"

The PEDLAR PEOPLE of Oshawa Established 1861

MONTREAL OTTAWA TORONTO LONDON CHATHAM WINNIPEG QUEBEC ST. JOHN, N.B. HALIFAX

21-3 Craig St. W. 425 Sussex St. 11 Colborne St. 86 King St. 200 King St. W. 76 Lombard St. 741 Notre Dame St. 42-46 Prince William St. 16 Prince St.

## Farmers' roofs should be worry-proof; make them so, thus:

Even the commonest kind of steel shingles makes a better roof than any other material. No possible room for argument about that. The thing is so—plainly, visibly so. Therefore your sensible choice of a roofing for any building is not among the many kinds of pretty-good roof-stuff. It is between the OTHER kinds of steel shingles—and MY kind.

My steel shingles are named "Oshawa" Galvanized Steel Shingles. They are made here in Oshawa, in my big, big factory, under my personal overseeing. They are made of heavier and tougher steel than anybody else uses for shingle making—steel so tough we roll and stamp it COLD. THAT means something different—and better—in quality. And my "Oshawa" shingles are smoothly, evenly, heavily coated on BOTH sides and all edges with a thick and permanent layer of zinc and lead that is practically one with the steel itself—part of the metal for all time. That makes my shingles perfectly—not just PROBABLY—rust-proof, and just about wear-proof. Mark, now,—BETTER steel to start with; better galvanizing to go on with. Yet there's no reason why ANY maker couldn't do as much for steel-shingle quality,—only nobody seems to, except Pedlar. Prove it? Indeed I can:—

I GUARANTEE my shingles. You buy "Oshawa" Galvanized Steel Shingles on the signed and sealed certainty that the roof they make WILL BE A GOOD ROOF FOR TWENTY-FIVE YEARS. "Good" means go-o-o-d, in every sense of the word; means no leaks, no rusted holes, no need for paint, no bother of any kind whatever.

Some makers turn out a fairly good line of steel shingles,—but not one GUARANTEES 'em. I make a BETTER steel shingle, and I DO guarantee it. Need I tell you the difference that makes to you?—when you come to buying roofs? Talk isn't costly nor risky; but there can't be any fooling about a guarantee that I put my own signature on—that I back with the forty years of honest reputation I've earned in this business,—with the ADDITIONAL assurance given the buyer by this Company's seal and signature. This is the biggest factory of its kind in the British Empire—and the factory, the Company and myself stand back of this "Oshawa" Shingle guarantee. That MEANS something solid to you.

Let me mail you a little book that tells you why "Oshawa" Galvanized Steel Shingles cost but a tenth what wood shingles cost; why "Oshawa"-shingled roofs make buildings warmer in winter, cooler in summer, and wet-and-wind defying at all seasons; why "Oshawa" Shingles fireproof a building; why lightning won't hurt a structure so roofed, and all of the other whys of "Roofing Right." That's the book's name. My nearest place will send you a copy free. Please request it. Don't roof until you've read it,—you'll see why when you do read it. Write our nearest warehouse.
