Probate Court,  
County of Carleton,  
Province of New Brunswick.

To the Sheriff of the County of Carleton or any Constable of the said County, GREETING:

WHEREAS the Executors of the estate of Alfred Holmes, late of the Parish of Kent, in the County of Carleton, deceased, have died in this Court an account of their Administration of the said deceased's estate and have prayed that the same may be passed and allowed in due form of law.  
You are therefore required to cite the heirs, devisees, legatees, executors and next of kin of the said deceased, and all of the creditors and other persons interested in the said estate to appear before the Judge of Probate for the County of Carleton, at a Court of Probate to be held in and for the County of Carleton at the office of the said Judge of Probate in the Town of Woodstock, in said County, on Tuesday, the twenty-fourth day of August next, at twelve of the clock noon, and there to attend the passing and allowing of the said accounts as prayed for and as by law directed.  
(Given under my hand and seal of the said Probate Court this twenty second day of July A. D. 1909.)

(Signed) THANE J. JONES,  
Judge of Probate,  
County of Carleton.

L.S.

(Signed) JAMES MCANUS,  
Registrar of Probate,  
County of Carleton.

## House and Lot For Sale.

One of the finest residences in the Town of Woodstock on the Northern side of Connell St. The land, consisting of three lots, has a frontage of 114 ft. on Connell St. and a depth of 130 ft. The buildings consist of a large two story house and ell, a wood-house and barn, and in good repair. The dwelling is well lighted throughout; is heated with hot air and hot water, has a good bath-room and is finished with electricity.  
For terms and further particulars, apply to the undersigned.  
LOUIS E. YOUNG.

Jan. 2nd, 1909. 16-23.

## Two O'clock in Chinese.

A Chinaman was called as a witness in the police court of Los Angeles in the case of a driver who had run over a dog. The judge asked him what time it was when he saw the man run over the dog.

"Me no sabe," replied the witness.  
"I say," repeated the judge, "what time was it when you saw the man run over the dog?"  
"Me no sabe," repeated John, smiling blankly.

"We shall have to have an interpreter," commented his honor. Accordingly another Chinaman was hauled into court to act as interpreter. "Ask the witness," commanded the judge, when he saw this man run over the dog."

The interpreter then turned to the countryman and said, "We chung lo, he me chow lung wow, e-ho me no chow cheo loo know so loo bing gong tong yit ben."

To which the witness replied: "Wong lin kee, wo hoo, wing chong lung yne lee, kin sing, choy yoke coey ying lung ding wah, sin suey way an yick ling toy bing coey how tseu, po tong po gou long mow kim quong yuen lee chow yo ben tong."

The interpreter then turned to the judge and said: "Him say 'two o'clock.'"

## HOT WEATHER MONTHS

## KILL LITTLE CHILDREN.

If you want to keep your children rosy, healthy and full of life during the hot weather months give them an occasional dose of Baby's Own Tablets. This medicine prevents deadly summer complaints by cleansing the stomach and bowels; or cures the trouble promptly if it comes on unexpectedly.

The mother who keeps this medicine on hand may feel as safe as if she had a doctor in the home. Mr. C.C. Roe, Georgetown, Ont., says: "Tablets are a great help to baby during the hot summer months. I have used them for summer troubles and am much pleased with the result." Sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville Ont.

## What's in a Name?

When a man marries, it is just as legal for him to take his wife's name as for her to take his. Thus, if Mr. Johnson marries Miss Robinson, they can legally call themselves Mr. and Mrs. Robinson, if they please, says the Chatterbox Times.

So Chief Justice William B. Crew, of the Ohio Supreme Court, declared. The Chief Justice was discussing the case of the young woman of Irontide, Ohio, who refused to wed a man because she did not like his name, and the court would not let him change it. The young woman and the learned judge at Irontide had a colloquy something like this:

"His name is Beefsteak, and, all though he is tender and true, I can not wed a man by that name. How does Mrs. Beefsteak sound, your Honor?"

"Beefsteak is an honest and substantial name," said the judge. "I see no reason to change it. I suppose if his name was Lobster, or Truffles, or Pate-de Foies Gras, you would consider that aristocratic and marry him. By-the-by, what is your name, miss?"

"Lamb."

Dr. Zalacka, a French physician, thinks he finds medical usefulness as well as beauty of scarlet, gold and purple in nasturtiums. They contain, he says, an essential oil or active principle, of a sulphurous character, which acts as a stimulant to the general nutrition, and is quite rich in both iron and iodine. He discerns a peculiar quality of enormous therapeutic value in power to revive red blood corpuscles. This, he adds, makes it an antidote per excellence for nicotine poisoning with its propensity for injuring if not destroying these corpuscles. Furthermore, chewing the leaves, stalks or flowers of the nasturtium, will arouse a fixed antipathy for tobacco in any form he says.

"Black Prince" Hose are especially designed to withstand the hardest wear.

## WIRELESS TELEGRAPHY IN DOMINION OF CANADA.

## Twenty Well Equipped Stations in Use.

It is only a few years comparatively since Canada became a unit, and but yesterday that wireless telegraphy was recognized as a practical actuality; but to-day Canada stands in the fore-front among the nations of the world in the development of this branch of inter-communication.

G. W. Brock, writing of the wireless in Canada in a recent magazine, says that in the Dominion there are twenty well equipped modern wireless stations, five in the west, fifteen in the east. Of these three are at points on the river St. Lawrence, four in the Gulf of St. Lawrence, two in Newfoundland, three in Nova Scotia, where at Glace Bay in 1902 the first wireless station on this side of the Atlantic, was established; five in British Columbia, and one in New Brunswick, Prince Edward Island and on the Island of Anticosti. They are under the control of the Department of Marine and Fisheries and are all the special charge of Mr. Cecil Drouin, a young and apparently capable civil engineer. The five stations on the Pacific coast were constructed under his personal supervision. That he finds in his work many interesting experiences apart from those connected directly with the immediate operations of the wireless is evident from an account of the building of the station at Point Grey in British Columbia, one of the most complete and admirably equipped stations in the world.

At each station a mast is required to sustain the aerial wire from which signals are despatched. This is generally about 180 feet high, made of three long straight sticks lashed together. At Point Grey, which is only seven miles from Vancouver, it was not necessary to erect a mast as there was already in position a fir tree thirty-six feet in circumference at the base and rearing its topmost branches 265 feet from the ground. About sixty-five feet had to be cut from its summit and in these branches a family of eagles had had for who shall say how long, their home. They were dislodged with the greatest difficulty and not without some danger to those at work.

Finally when the upper portion of the tree was cut and fell to the ground it brought with it a nest about six feet in diameter and weighing nearly two tons. So much for romance. To deal with more practical matter, during the past year sixty-five thousand messages of all kinds were sent and received at the various stations; and of their maintenance was \$58,323. All but two are the property of the government and these belong to the Marconi Company. Fifteen are high power stations, which mean that their radius of activity is between 200 and 300 miles, the others have but a radius of some ninety miles; the station on Partridge Island, N.B., belongs to the former class. A high power station with its equipment costs about \$10,000, a low power one some \$5,000. The government has expended in stations, buildings and equipment about a quarter of a million dollars. All the stations, with the exceptions of those in British Columbia, are operated by the Marconi Company, under contract with the federal authorities. The stations have three operators each and preference is given by the government to married men. The business done consists of signal service messages, marine intelligence, private telegrams between steamers and commercial communications.

Practically all ocean liners plying between English and Canadian ports are equipped with wireless apparatus, which costs about \$1,000 to install. The Canadian government boats, the ice breakers which do such effective service between Nova Scotia and Prince Edward Island and the new supply ship on the Pacific coast, are all similarly equipped. Thus the ocean is gradually being robbed of its danger. Steamships coming to Canada by the northern route are forewarned of ice or fog in the Straits; the approach of every vessel is noted and reported, not only to the different transportation companies, but to the various newspaper offices, thus allaying

public anxiety in the case of overdue or storm-bound vessels. In addition to the stations noted, two are to be erected, one at Montreal and one at Three Rivers, thus completing a line of wireless communication from the Straits of Belle Isle to Montreal, a distance of 900 miles.

Communication is also to be established between Prince Rupert and Vancouver. Mr. J. T. Phelan and Mr. D. Minard having gone to Prince Rupert to select sites for the northern stations. The cost of these installations will be about \$8,000. The mountainous conditions at Prince Rupert add to the difficulties of the work, but it is confidently expected that nothing that present day knowledge and science can not grapple with, will interfere with the final successful equipment of these latest additions to the Canadian chain of wireless stations.

The list of wireless stations as they appear in Mr. Brock's excellent article may be of interest:  
Father Point—River St. Lawrence.  
Clarke City—River St. Lawrence.  
Fame Point—River St. Lawrence.  
Heath Point—Anticosti.  
Cape Bear—Prince Edward Island.  
Pictou—Nova Scotia.  
Cape Race—Newfoundland.  
Whittle Rocks—Gulf of St. Lawrence.

Point Armour—Gulf of St. Lawrence.  
Belle Isle—Gulf of St. Lawrence.  
Cape Ray—Newfoundland.  
Sydney—Nova Scotia.  
Cape Sable—Nova Scotia.  
Partridge Island—New Brunswick.  
Point Grey—British Columbia.  
Victoria—British Columbia.  
Pasadena—British Columbia.  
Estavan Point—British Columbia.  
Cape Lazo—British Columbia.

## Canada and Defence.

Let those of our people who have been inclined to think that in armaments there is temptation to aggression reflect upon the other point of view as regards British armaments—that in a world-wide empire of strong partners neither shall any one partner be able to drag the other into war wrongfully, nor will any outside power dare to attack wrongfully any one of the partners. Consider, too, the contrary thing—Great Britain smashed for lack of overseas help, the empire practically broken up in consequence, and Canada, Australia, New Zealand, South Africa, East and West Africa, Egypt, the Indies, East and West, portions of South America, left each separately to face international complications, to encounter the possible aggressions and cupidities of other and more powerful countries, to begin alone to attempt to build up defensive forces. If there could be anything which could bring civilization nearer back to hell than a breaking up of the British empire into a dozen separate weak powers, each of great territory and vast natural wealth, tempting other nations to attack, we can hardly imagine it. In an unassailable British empire lies the greatest possible contribution to the whole world's peace. So, surely, there is reason for satisfaction, not to "hinges," but to every lover of peace in the news that the representatives of the British peoples everywhere, in official conference assembled, are accepting the principle of joint responsibility and action for the burden and the honor of imperial defence.

## Deafness Cannot be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Sold by Druggists, 75c.  
Take Hall's Family Pills for constipation.

Once Mr. Gladstone had been cutting down a tree in the presence of a large concourse of people, including a number of "cheap trippers." When the tree had fallen, and the Prime Minister and some of his family who were with him were moving away there was a rush for the chips. One of the trippers secured a big piece, and exclaimed: Hey, lads, when I die, this shall go in my coffin." Then cried his wife, a shrewd Motherly old woman, with a merry twinkle in her eye: Sam, my lad, if thou worship God as thou worships Gladstone, thou'd stand a better chance of going where thy chip wouldna' burn.

## A SEPARATION GRANTED.

Not by process of law, but by the silent working of "Putnam's" are couples separated from aching toes. Any man or woman that "Putnam's" won't cure hasn't been discovered yet. Insist on Putnam's Corn Extractor only.

When the thief has no opportunity to steal he considers himself an honest man.

Minard's Liniment cures Colds, etc.

## SAYS IMPERIAL ARMY SCHEME IS AGREED TO.

All Troops to Have the Same Training and Force will be as Large as Germany's

London, Aug 13—One great homogeneous Imperial British army, uniformly trained and equipped, is to be the outcome of the imperial conferences on the naval and military defences of the empire held in the foreign office the latter part of July. This was the suggestion submitted to the colonial delegates by the home government, and after exhaustive discussions by the military committee, which has now concluded its labors, it has obtained the complete acquiescence of the overseas representatives.

In general terms the plan provides that all troops of self-governing colonies shall undergo precisely the same training as the home regulars in order to be ready to take their places beside the latter whenever and wherever necessity may arise. Military training colleges along the lines of the staff college at Camberley are to be established in the overseas dominions, and there is to be a continuous interchange of officers from all parts of the empire so as to insure absolute uniformity of organization and training. In a recent speech outlining the probable strength of this army of the empire, War Secretary Haldane estimated that the United Kingdom, Canada, Australia, New Zealand and South Africa could furnish 46 divisions. This is equivalent to twenty-three army corps, which is the strength of the German army.

You can be sure of getting all the hat-value you pay for when the maker's name stands for money-back-if-you-say-so. That kind of quality insurance is in every hat with that trademark—look for it.

THAT brand is style insurance, too—it certifies to up-to-date modishness, correct, seemingly COMFORT for your head looks—wear—money's worth—these make it worth while finding the right hatter. He sells WATER-LITE HATS

## Bandmaster Williams Dead.

It is with regret that the music loving people of the province learn of the death of Mr. Williams in St. John last week. He occupied a foremost position in musical circles in the city by the sea. Mr. Williams was an Englishman by birth and came to this country about twenty five years ago. He was bandmaster at various times of city cornet, artillery, Kingsville and St. Mary's bands. He was also organizer of the Williams concert band. A man of fine appearance, was much respected by all who knew him. He is survived by his wife, two daughters and three sons, two of whom were well known here in Woodstock, Ernest of International Correspondence school and Charles who was connected with the Woodstock band. General sympathy is extended to the bereaved family.

It thy friends agree in calling thee an ass, go and get a halter round thee.

One of the commonest complaints of infants is worms, and the most effective application for them is Mother Graves' Worm Expeller.

## A Prized Cough Cure

"I have not been without a bottle of Coltsfoot Expectorant in the house for over nine years. At that time I procured it for a bad cold I had. It worked such wonders then that it has been a household remedy ever since, and we will have no other for coughs and colds—it is so pleasant to take, and all of my children look for it as soon as they get a cold at all. Nearly all of them have been subject to croup, and that's when I find Coltsfoot Expectant useful. You are welcome to use this testimonial as you wish."

MRS. LEWIS NIGH.

Free Sample of Coltsfoot Expectant will be sent to any person sending their name and address and naming this paper. It has established a wonderful record as a successful cure for coughs, colds, sore throat, croup, whooping cough, bronchitis and all irritated conditions of the throat and chest. It is the prescription of a great specialist in medicine. At all good druggists, 25c. Dr. T. A. Sloem, Limited, Toronto. Send for Free Sample To-day.

Minard's Liniment Cures Distemper

## Stomach Blood and Liver Troubles

Much sickness starts with weak stomach, and consequent poor, impoverished blood. Nervous and pale-people lack good, rich, red blood. Their stomachs need invigorating for, after all, a man can be no stronger than his stomach. A remedy that makes the stomach strong and the liver active, makes rich red blood and overcomes and drives out disease-producing bacteria and cures a whole multitude of diseases.

Get rid of your Stomach Weakness and Liver Laziness by taking a course of Dr. Pierce's Golden Medical Discovery—the great Stomach Restorative, Liver Invigorator and Blood Cleanser.

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets regulate and invigorate Stomach, Liver and Bowels.

## VULCAN CEMENT

We have just received two carloads of the above cement. This brand of Cement is used by the G. T. P. for all their Concrete work, and it is used very extensively by the Local Government. It tests higher than Whites! There is no brand on the market today that is equal to Vulcan. It is put up in bags and barrels, and we are prepared to quote very low prices on same.

## W. F. Dibblee &amp; Son.

Sole Agents for Vulcan Cement.

**OXOMULSION** **GOOD FOR BABY!**  
A thin, puny baby will contract every disease known to infants, for it lacks vitality to stem the tide of sickness. It needs something more than the mother's milk. Doctors know this and recommend OXOMULSION, for it contains the flesh, bone and muscle forming elements so necessary to the growing child. The formula is given with every bottle. Oxomulsion is pleasant to the taste and baby will take it as readily as it will milk. Insist upon having Oxomulsion, for no other emulsion is as good. For sale by all druggists in two sizes, 35c and \$1.00. Prepared only by The Oxomulsion Co., corner Spadina and Phoebe Streets, Toronto. If baby ails, write us for advice.

## Blended Right

and then rigidly tested before leaving the mills, every bag and barrel of

"Royal Gold" are exactly alike in quality and lighted with the first bag, your delight will continue with each successive one. "Royal Gold" is the best—others are not so good.

STANT-WOOD FLOUR MILLS, Limited, Brantford, Canada.
