Hartland

Most beautiful weather; haying about completed and harvesting of grain will be next. The oats and buckwheat crop will be abundant and potatoes promise a large yield. Hay will be less than last year and there will be an abundance. Thanksgiving day of this year should be one of great rejoicing.

A material increase and activity in business. The grumbler still exist, some men want the world, with work, scheme and contrive to accumulate, even in some instances, denying themselves of ordinary comfort, forgetting of the warning "that this night thy soul may be required of thee" then the well filled barns and granaries, large average and bank deposits will be left behind to cause strife and ill feeling among survivors.

Away with such, let us strive to secure the most competent men for the position.

It may be that on account of the increased number of issuers of marriage licenses that some are seeking to monopolize the patronage by charging a less fee than the law allows, which is unfair to other issuers and not honorable. J C Everett has not nor will not issue a license for less than the legal fee, but this he will do until the issuers all agree to maintain the regular price. Every license obtained through him will be accompanied with a cash present of one dollar to the bride and a notice of the wedding to be published in the Hartland letter to the Carleton Sentinel.

Up to Date

He asked the girl to fly with him, And pleaded not in vain. Said she, with resolution grim: "Produce your aeroplane."

We met a poor old man recently who is dependent on his relatives, and they don't like the enforced task of taking care of him, says the Atchison Globe. "Had I saved ten cents a day during my younger years," he said, "I would have been independent. I might have saved a dollar a day during all my working career and not stunted myself in the least." This old man's experience is worth thinking about. The trouble with American men is that they waste dimes while looking for a million dollars. At the end of life they have neither the dime nor the million dollars. More than half the men who die are buried by charity.

HAS THIS TO SAY OF

ACADIA LADIES SEMINARY, WOLFVILLE, N. S.

"What impressed the Writer was the Admirable System that prevails in the management and in every department of Work; that kindly Personality and Tact the Influence of which is so grateful to young people; the general Sympathy in the Relation between Teacher and Pupil, and the Interest which each one seemed to feel in the Work of the Day. An Education under such conditions is indeed a great Asset."

The New York Sun vigorously criticises the Law-makers at Washington for their short-sighted policy in dealing with Canada. Commenting on the recent revision of the tariff, it says that the restriction of the trade current between the United States and Canada is "utterly indefensible." There is a considerable body of public opinion in the neighborhood of the Republic that is favorable to freer trade relations with Canada, but the plutocrats, who have an interest in keeping up the tariff wall as high as possible, have been able to dominate in the matter. What effect this will have when the next appeal to the people is made remains to be seen.

Let's Have a Game

There is a new game out called "Tackle the Editor," says the Catholic News. You take an ordinary sheet of writing paper, on which you pen a few lines suitable for the occasion. Next fold it carefully, enclose in the fold a banknote sufficiently large to pay all arrears and a year in advance, and hand it to the editor. Keep an eye on him and if a smile adorns his face, the trick works fine. It can also be played by mail. Now is the time to play the joke.

ZAM-BUK SAVED THIS MAN'S FINGER!

Mr. William C. Edwards, Peter Street, Toronto (late steward Elks' Club), sustained a severe cut on the middle finger of the left hand. Blood poisoning ensued and the finger caused him excruciating agony. He says: "My hand was so swollen and painful that I had to carry it in a sling for some months. I was under the care of a well-known doctor in Toronto for several weeks. The wound got no better, and one day he said my finger would have to be taken off. The pain from the wound was terrible and was extending right up the arm. I consulted another medical man and was treated by him for some weeks longer. He then suggested that the finger be opened and the bone scraped. At this stage a friend advised me to try some Zam-Buk which I did. I bathed the wound and applied Zam-Buk as directed. Next morning the wound began to bleed. It was a healthy sign so I continued with the treatment, and in a few days time I was able to discard the bandage. A little more perseverance and Zam-Buk cured the wound completely."

Zam-Buk Cures cuts, burns, chafings, itch, eczema, running sores, ringworm, piles, bad legs, poisoned wounds and skin diseases. All druggists and stores, sec., or postpaid from Zam-Buk Co., Toronto.
