A Woman's Sympathy
Are you discouraged? Is your doctor's
bill a heavy financial load? Is your pain
a heavy physical burden? I know what
these mean to delicate women—I have
been discouraged, too, but learned how to
cure myself. I want to relieve your bur-
dens. Why not end the pain and stop the
doctor's bill? I can do this for you and
will if you will assist me.
All you need do is to write for a free
box of the remedy which has been placed
in my hands to relieve women. Perhaps
this one box will cure you—it has done so
for others. If so, I shall be happy and
you will be cured for good (the cost of a
postage stamp). Your letters held confi-
dentially. Write to me for my free treat-
ment. MRS. F. D. CURRIE, Windsor, Ont.

Quaker Oats Griddle Cakes

Try them today!

The family that hasn't eaten Quaker Oats griddle cakes has a delightful surprise coming to it. Besides the delicious flavor, there is the pleasure of knowing you can eat all you want, and the more you eat the better for you. The best of all foods for anyone wanting more strength and vigor. Hundreds of thousands of packages of Quaker Oats are consumed in Germany annually and almost all of it is eaten in the form of Quaker Oats griddle cakes. In the cereal restaurant of the Quaker Oats Company, located in one of the large cities, these griddle cakes are very popular.

Here's the best recipe for making them:
2 cups Quaker Oats (uncooked); 1 1/2 cup flour; 1 teaspoonful salt; 1 tea-
spoonful soda—dissolve in two table-
spoonfuls hot water; 1 teaspoonful
baking powder (mix in flour); 2 1/2
cups sour milk or buttermilk; 2 eggs
beaten lightly; 1 tablespoonful sugar;
1 or 2 tablespoonfuls melted butter
(according to richness of milk).
Process: Soak Quaker Oats over
night in milk. In the morning mix
and sift flour, soda, sugar and salt—
add this to Quaker Oats mixture and
quantity of melted butter; add eggs
beaten lightly—beat thoroughly and
cook as griddle cakes—they make
your mouth water for more.

GENUINE COCOA BEANS
Pure Chocolate
is made exclusively
from the kernel of
the cocoa or chocolate nut.
The only positive way
to avoid frequently adul-
terated forms and to pro-
cure the pure article is by
personally selecting
genuine cocoa beans and
grinding them yourself,
which we do.
This explains why the coat-
ing on our bonbons is so much
richer, finer flavored, why it's wise

PURE SPRING WATER is what E
W. Mair is using solely at his Soda
Fountain in the manufacture of his
Fruit Syrups, Soda water and his
celebrated ROOT BEER. Bear in
mind it is not TOWN WATER nor
even BOILED WATER, but clear
sparkling "SPRING WATER" hauled
fresh every morning from the
Spring.

Through indiscretion in eating green
fruit in summer many children become
subject to cholera morbus caused by irritat-
ing acids that act violently on the lining of
the intestines. Pains and dangerous purg-
ings ensue and the delicate system of the
child suffers under the strain. In such
cases the safest and surest medicine is Dr. J.
D. Kellogg's Dysentery Cordial. It will
check the inflammation and save the child's
life.

IT WILL PREVENT ULCERATED THROAT.—
At the first symptoms of sore throat, which
presages ulceration and inflammation, take
a spoonful of Dr. Thomas' Electric Oil.
Add a little sugar to it to make it palatable.
It will allay the irritation and prevent the
ulceration and swelling that are so painful.
Those who were periodically subject to
quinsy have thus made themselves immune
to attack.

"Marthy"—A Soliloquy.

(Continued from second page.)

"It seems as if be there now, you'd
Marthy. The door's ajar, an' I feel
ez though you wuz a lookin' out
heaven's door, awaitin' fur me. But
I ain't done a thinkin' yit. Every
spring, I kin see you an' the violets
cum a purplin' out by the spring, I
kin see you an' me a workin' on that
garden patch. Sixty springs we fixed
it up together, and there wuz lillies,
an' pinks, an' jonnies, an' sweet-
williams, an' hundred-leaved roses—
you could make 'em all grow. An'
then the white rose by the kitchen
window—we planted it the year little
Polly died—let me see—she'd a bin
fifty-five now. That bush is full of
roses to-night, but little Polly's roses
bloomed in heaven.

"When I'd come in from work,
you'd always look out at that win-
dow, an' smile at me. An' by an' by
the bush got so big Bobbie cut it
back some, so's he could see moth-
er's roses on his coat and her kiss
on his lips, an' we never see him
agin'!

"Yes, dear, you an' me's hed shad-
ows ez well ez shine to go through.
We wuz always happy together,
though. An' Sary wuz with us a long
time, an' then she got married, an'
went to live down in the valley. Then
we wuz together again all alone, jes'
like at first. Till at last I waked up
one mornin', and found you'd gone
to heaven an' left me. Oh, my wife!
my wife!

Tears streamed down his face, and
my eyes were suspiciously moist as I
heard his voice break.

He got up finally, and went on
around the house. I heard him mur-
mur: "So different then—so different!"
Then he came back, looked
once more at the open door, clasped
his cane more firmly, and went slowly
down the path.

In a few minutes Bert came. "Had
callers?" he said. "I met an old man
with an armful of roses like the
white ones there." But I only asked
him whether he had found a town,
for the little life-chapter I had heard
was too sacred to tell even Bert.

In the morning I went to the rose-
bush, and gathered some buds from
the long branch. They are here in
my desk now; and when I find the
'one woman,' I shall tell her this
story, sometime when winds are
soft and moonlight tender.

CURES INDIGESTION.

All Distress from Stomach and
Indigestion Vanishes in
Five Minutes.

Take your sour stomach—or maybe
you call it indigestion, Dyspepsia,
Gastritis or Catarrh of Stomach: it
doesn't matter—take your stomach
trouble right with you to your Phar-
macist and ask him to open a 50 cent
eat of Pape's Diapiesin and let you
eat one 22-grain Triangle and see if
within five minutes there is left any
trace of your stomach misery.

The correct name for your trouble
is Food Fermentation—food souring;
the Digestive organs become weak,
there is lack of gastric juice; your
food is only half digested, and you
become affected with loss of appetite,
pressure and fullness after eating,
vomiting, nausea, heartburn, griping
in bowels, tenderness in the pit
of Stomach, bad taste in the mouth,
constipation, pain in limbs, sleepless-
ness, belching of gas, biliousness,
sick headache, nervousness, dizziness
and many other similar symptoms.

If your appetite is fickle, and noth-
ing tempts you, or you belch gas or
your food lies like a lump of lead on
your stomach, you can make up
your mind that at the bottom of all
this there is but one cause—fermen-
tation of undigested food.

Prove to yourself, after your next
meal, that your stomach is as good
as any; that there is nothing really
wrong. Stop this fermentation and
begin eating what you want without
fear of discomfort or misery.

Almost instant relief is waiting for
you. It is merely a matter of how
soon you take a little Diapiesin.

A teacher in a certain public
school one day asked the class in
English to give some examples in
composition by writing a few person-
als such as are contained in the col-
umns of newspapers. One of the
younger members of the class won
the plaudits of his fellows by writing:
"The college boys have returned
to their schools to wait for another
vacation."

"Of course women should vote,"
said Oliver Herford. "Women de-
serve the suffrage as much as men—
more, because their minds are purer
and cleaner."

"Cleaner?" cried the sweet young
thing Mr Herford has taken in to
dinner. "Of course they are, ever
and ever so much cleaner! But how
do you know that?"
"Because they change them so
much oftener," said he, solemnly.

LETTER FROM A FORTY-NINER.

Here is a simple, interesting and
sincere letter from a rugged pioneer
of '49, who braved the dangers and
hardships of the overland trail to
California. It should appeal to all
catarrh victims.

Santa Rosa, Cal, May 5, 1908.

Booth's Hyomei Co, Buffalo, N. Y.
Dear Sirs:—I was afflicted with
catarrh and tried a number of reme-
dies, but received no relief. I pur-
chased an outfit of Hyomei, and be-
fore I had used the bottle I noted a
marked relief. I used it for a month
or so, and thought I was cured, and
stopped using it for a year or so.
Thought I was getting catarrh again,
and started using it again. I use it
every morning, and keep myself
clear of catarrh. I consider it the
best catarrh medicine that is used. I
have often recommended it to my
friends. I am 81 years old. I came
to California in 1849, and of course
am not as vigorous as I was 58 years
ago. My address is 841 4th Street.
Yours truly, W. Mock.

Hyomei (pronounced High-o me)
is guaranteed by E. W. Mair not only
for catarrh, but for grip, coughs,
colds, bronchitis and croup. A com-
plete outfit, including inhaler, costs
only \$1.00; extra bottles of Hyomei,
if afterwards needed, costs but 50
cents.

The Colt's First Work

The first work in the spring is the
hardest of the year, and the horses
are the least prepared for it!

Young horses should be broken
and given some work during the
winter and fed a ration of grain.

A sudden change of food for
horses, is always dangerous, but to
start a colt in on grain and heavy
work when he has had neither is
almost sure to be disastrous.

A young horse cannot stand heavy
pulling all day on soft ground unless
his shoulders have been well hard-
ened, by regular work in the collar.
When a horse is tired he is much
more subject to colic. Do not change
the feed during heavy spring work.
There is much more danger in
feeding corn or wheat than in feed-
ing oats.

Water your horses when you first
bring them in from the field, then
let them eat hay for a half hour and
after that give them their grain
feed.

Remove the horses' shoes while
they are doing the spring work.

Remember the horse has a heavy
coat of hair, and will therefore sweat
more easily, and will be all the more
likely to catch cold and get pneu-
monia.

During the first week of heavy
spring work bathe the neck and
shoulders of the horse every night
with cold water.

Reduce the grain at least one-half
when the horse is not at work.—St
John Sun.

A well-known judge invited a friend
of his, a lawyer, to go for a short
trip on his yacht. A storm came up
and the boat began to roll and toss
in a manner which the lawyer did
not relish.

The judge laid a hand on his
friend's shoulder and said: "My dear
fellow, is there anything I can do to
make you comfortable?"
"Yes," was the grim reply, "over-
rule this motion."
