## MOONEY'S.

## Florenceville Consolidated School.

The third year of the Florenceville Consolidated School just closed has certainly been the most successful in its history. In Normal School Entrance Examinations this institution has made a record, which, during the last few years at least, has been unsurpassed by any school in the province.

In first class entrance Miss Edna L. Giberson, valedictorian of her class, came first in the province, leading by a good margin. Miss Giberson's average was 83.3 per cent. The next being Wilfrid Dawson of Sackville, making a fraction over 80 per cent.

In second class entrance, Percy Smith, who is only 15 years of age, came first in the county and second in the Province.

Miss Lena Ritchie also ranks well in the list of those making over 70 per cent on first class papers.

Miss Della Sisson came third in the School for first class, with an average of 67.7.

Miss Bertie Wolverton came fourth average 66.7.

Miss Gladys Esty came fifth average 65.6.

Of the 11 working first class papers 10 were successful in making required average, although 2 may be affected by cross test. Of these 6 made over 65 per cent.

All those trying matriculation examination were successful. Miss Lily Shaw leading the Consolidated Schools of the Province. Miss Shaw's leading papers were Latin and French making nearly the possible in the latter.

The school has just received congratulations from Principal Bridges of the Normal School.

Principal Squires who is retiring to take a course in the Harvard Law School will be succeeded by Principal Tathill of Andover High School.

## Hints For Housekeeper.

A few drops of lemon squeezed in the water in which potatoes are boiled, just before they are done, will prevent them from turning black.

Paint which sticks to glass can be removed with vinegar.

A flat file is one of the best things on which to sharpen bread, meat and chopping knives.

If some soda is mixed with flour in making ginger cookies with sour milk instead of being dissolved in milk, as is the usual way, they will be very much lighter.

Cooking with curry powder makes a delicious change in the preparation of meats, rice, eggs and fish. Curry powder is an invention of the Anglo-Indian and most housewives know very little about it.

Paint wooden pails and tubs with glycerine to prevent shrinking.

## There is no Success For a Man.

Who vacillates.  
Who is faint-hearted.  
Who shirks responsibility.  
Who never dares to take risks.  
Who thinks fate is against him.  
Who is discouraged by reverses.  
Who does not believe in himself.  
Who expects nothing but failure.  
Who is always belittling himself.  
Who is always anticipating trouble.  
Who waits for something to turn up.

Who complains that he never had a chance.

Who is constantly grumbling about his work.

Who never puts his heart in anything he does.

Who blames circumstances or other people for his failure.

Who can do a poor day's work without a protest from his conscience.

Who assumes the attitude of a victim whom everybody is bent on "doing."

Who expects to eliminate from his work everything that is disagreeable or distasteful.

Who is forever wishing that he were doing something else instead of the thing he is doing.

Who clings tenaciously to old ideas and old ways of doing things and is a slave of precedent.

Who shuts himself within his own little life so completely that he cannot take interest in anything outside of it.

Who thinks the times are always out of joint, and that he was not born at the right moment, or in the right place.—Success Magazine.

## Rush Of Harvesters To Canadian West.

Dry conditions prevail throughout the west, making farmers frantic to get their grain cut, and as a result telegrams calling for harvesters are pouring into the CPR immigration office.

Today and tomorrow will witness a record arrival of harvesters from the east. Fully 10,000 will arrive by CPR and CNR and every one of them is needed, for the grain is ripening fast and must be gathered in on record time or farmers will suffer.

This morning the CPR station was flooded with arrivals from the East. Toronto sent up about 4,500 and Quebec and Renfrew about 3,000. Between 2,000 and 3,000 more will come in by regular train over the CNR today and tomorrow.

## A Political Meeting.

One night the farmers got a call to tend a meet in Lorneville Hall. To hear the speakers, great and small, in speech and joke. Instruct their hearers, one and all. The way to vote.

When Brother Hazen started speaking. That night at Lorneville's county meeting.

He set his honest followers weeping, With his cold facts. 'Bout harvests rich the Grits were reaping.

For twelve years back.

Then Brother Maxwell up and told 'Bout roads and bridges they controlled. How billiard balls could now be rolled.

O'er all those acres.

Despite the falsehoods daily told In Liberal papers.

Then Brother Wilson, he came next. The price of schoolbooks was his text.

How parents' minds were sorely vexed. And purses lightened.

'Till they a smaller price annexed.

Then prospects brightened.

Then Miles E. Agar's pleasing voice. Bid all his hearers to rejoice.

As Mosher was the people's choice. Without exception.

No Liberal grafter will they foist In this election.

Then Brother Hazen spoke aloud. I'll make a prayer to pierce the cloud.

To save the province and the crowd. From Grit inflection.

And Maxwell, with his forehead bowed, Gave Benediction.

RUBIRD TIPPILING.

St. John, July 12, 1909.

## Big Fire in Edmundston.

At a few minutes before ten o'clock last Thursday night fire was discovered in the store of J. W. Hammond, Edmundston, which ended in the complete destruction of the whole building. The fire started in the rear of the front store and had made considerable headway before discovery.

A considerable quantity of stock from the front store was saved in a damaged condition, but it was found impossible to save any from the rear store. The building which was a wooden structure was owned by Wm. Emerson and had no insurance. There was \$9000 insurance on the stock. The supposed cause of the fire was from a match carelessly thrown down or from a burning cigar. There was no one in the store, Mr. Hammond having left about 30 minutes before the fire was discovered.

Marconi Wireless Station at Glace Bay Destroyed by Fire.

GLACE BAY N.S., Aug. 21.—The operating room, condenser room and all the buildings under the roof were completely destroyed by fire at the Marconi station about 6.15 this morning. The blaze started in the sparking rooms. Just how, it is hard to state, but when discovered it was too late to do anything to stop the progress of the fire. An alarm was sent to Glace Bay and Coal Company's apparatus went immediately over, but nothing could be done to save the buildings. The power house was consequently the power necessary to send the wireless messages and was not in any way injured. The dwelling houses are safe and so are all the barns and other buildings. No one was injured.

Where the building was standing is now a mass of red hot cinders and no one can get anywhere near the scene of the fire owing to the intense heat. The loss will be quite heavy as the buildings destroyed contained valuable machinery and other apparatus in connection with the wireless system. The loss will total some thousands of dollars and it will be some time before the buildings can be replaced. It is understood, however, that the buildings were insured. It is too bad that the accident occurred when it did, as things were just getting in shape for the successful working of the system. It is just possible that Mr. Marconi may come to Cape Breton some time in the near future.

Will Loan Canada Naval Officers

The admiralty has loaned a number of naval officers who are to arrive in Canada in the near future. They will advise on the work of organizing the new Canadian navy in accordance with the plan agreed upon with the Dominion delegates to the imperial defense conference. The British government is awaiting a ratification by the Canadian parliament of the decisions reached and it is understood that the work will begin as soon as this is given.

## THE REASON

"Bridget, how does it happen that I saw you giving that wretched policeman a piece of mince pie in the kitchen last night?"

"Cause I forgot to fill up the key hole, mum."

## Crain Ebbett.

On Wednesday, Aug. 18th, at five o'clock, a very pretty wedding took place at the home of Mr. and Mrs. Edgar W. Ebbett, Stickney, N. B., when their second daughter, Minnie Edith, was united in marriage to Mr. Jonas Kearney Crain of Bath, N. B.

The ceremony was performed in the presence of only the relatives of the two parties, by Rev. J. D. Wetmore. The ring-service being used.

The couple was unattended and entered the parlor to the strains of the wedding march played by Mrs. Wesley B. Armstrong of Caribou, Me., oldest sister of the bride.

The bride was becomingly attired in a white semi-princess gown and carried a shower bouquet. The groom wore the conventional black.

The bride is a very beautiful young lady and very popular among all who knew her.

The groom is a young man of sterling qualities and is employed with the Van Buren Lumber Co., where they will reside at Van Buren, Maine.

Many lovely and useful presents were received. We bespeak many happy and sunny years for this newly wedded couple.—Press please copy.

## Had Toe Torn Out.

William McConnell, a young man whose home is at Tay Creek, York county, met with a serious and painful accident last week at Willis McPherson's machine shop at St. Marys.

In shutting off a belt while the machinery was in motion he got his foot caught and the little toe was torn completely off and the foot terribly mangled. While suffering excruciating pain the young man dragged himself to the door and there yelled for help. Mrs. McPherson heard the cries and responded; in a few minutes willing hands carried Mr. McConnell to his boarding house and Dr. Atherton was summoned.

The pain was relieved as much as possible and the injured foot was dressed. The doctor also announced that two other toes and perhaps a third would have to be amputated.

When the New York Ledger was wavering on the brink of failure, Robert Bonner, the proprietor, sent to the New York Herald a brief advertisement, to be set up in a single line. So Greeleyesque was Mr. Bonner's handwriting that the advertising manager interpreted the directions as ordering the copy to be run in full page, which instructions he obeyed, though marvelling greatly.

The Herald came out the next morning with one whole page devoted to the crisp adjuration to read the Ledger's new story. The effect upon Mr. Bonner was almost fatal, first from chagrin at the thought of the possible bill, then from amazement as subscriptions began to pour in, and finally from satisfaction as they continued to flood the office until the fortune of the publication was made. The novel, though accidental device, had struck the public's fancy. Mr. Bonner was hailed as the pioneer of a new and daring theory of exploitation, and the advertisement gained tenfold currency by being commented upon as a feature of the news.

## Did As He was Told.

Some years ago the Yankee schooner Sally Ann, under command of Captain Spooner, was beating up the Connecticut River. Mr. Comstock, the mate, was at his station forward. According to his notion of things the schooner was getting a "leetle" too near certain mud flats which lay along the harbor shore, so aft he went to the captain, and with his hat cocked on one side, said:

"Cap'n Spooner, you're getting a leetle too close to them flats. Hadn't ye better go about?"

The captain glared at him. "Mr. Comstock, jest you go forward and tend to your part of the skuner, I'll tend to mine."

Mr. Comstock went forward in high dudgeon.

"Boys," he bellowed out, "see that ar mud hook's all clear for lettin' go!"

"Ay, ay, sir!"

"Let go, then!" he roared.

Down went the anchor, out rattled the chains, and like a flash the Sally Ann came luffing into the wind, and then brought up all standing. Mr. Comstock walked aft and touched his hat.

"Well, cap'n, my part of the skuner is to anchor."

## Summery.

Summer lakes  
And summer rills;  
Summer glens  
And summer hills.

Summer trips  
For all our ills,  
But likewise also  
Summer bills.

—Philadelphia Bulletin.

Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Expeller is the best medicine extant to destroy worms.

## HE BIT.

The city man was jogging on toward the summer boarding house in a rickety old wagon. The driver was glum and far from entertaining, and the city man felt rather lonely.

"Fine," grunted the driver. "Who owns it?"

"Old man Bitt, eh? Who are those children stacking up hay?"

"Old man Britt's boys."

"And what is his idea having them out there in the field such a hot day?"

"Wal, I reckon he thinks every little bit helps, stranger. Anything else you want to know?" Got up here, hosses."—New York Times.

A good milk cow for sale. Apply to MRS. JOHN Y. SMITH, Post Office Box 73, Woodstock, N. B.

**A Complete Guide Book On fencing FREE**

When you buy a fence you want the best value you can get for your money. This complete fence guide book of ours will show you how to judge fence value.
