

The Carleton Sentinel

A Weekly Newspaper, printed and published by The Carleton Sentinel Publishing Co. Ltd.

F. B. CARVELL, President.

FRIDAY, APRIL 9th, 1909.

We would like to inform the Press that it is decidedly mistaken in its guess in the matter of the Editorial work of the Sentinel. If the Editor of the Press is very anxious to know who writes the Editorial articles of this paper a letter addressed to the President of the Company will receive an answer. The name of the President is at the top of his column so that no mistake need be made.

The Valley Railroad.

"They asked for bread and he gave them a stone." The people of the St John Valley from Grand Falls to St John asked Premier Hazen for substantial assistance toward this much needed work and he gave them a few nice phrases and asked them to call at a more convenient season. What is the matter with Mr Slipp M P P and Mr B F Smith ex M P P. When the meeting was held in the Town Hall here some weeks ago these two gentlemen assured us that if the members demanded it the Government could not refuse. Since then Mr Slipp has been as dumb as an oyster and Mr Smith has talked all the time. Perhaps if he would give such men as J T A Dibblee a chance to say something, more might be accomplished, but what are the other M P P's along the River doing. Where are Munro and Flemming, are they for or against? Or are they like Mr Hazen in the middle? Or are the whole of them afraid to come out and grant this proposed Bond Guarantee just because they would be following in the footsteps of the late Government. Why don't they say yes or no, and for once since they assumed office have a definite policy which means something. They are finding out how much easier it is to find fault while in opposition than to do something when in power.

When Mr Hazen asks the Company to get the Intercolonial Railway to operate this road he is simply postponing the whole question, and it purposes, for at least two years, because he knows that would involve the settling of the future Policy of the Intercolonial Railway. He knows that at the present time there is an agitation going on in Canada to dispose of the Intercolonial Railway while many people are demanding that the Government retain it and purchase all existing Branch Lines and build new ones wherever necessary. Mr Hazen knows this whole question would have to be decided before the Intercolonial Railway could agree to operate this road. He also knows that this question cannot be settled this session of Parliament and it is very doubtful if such an important question could be settled within the next two years as the public always have to have time in which to discuss such large matters.

From the very beginning Mr Hazen has shown a disposition to shirk all responsibility by directing the delegation to Ottawa. This was nipped at first by Mr Dibblee pointing out to him that Mr Carvell had succeeded in obtaining a double subsidy on every mile of the Road from Grand Falls to St John. It took him ten weeks to get his breath and now he says "Go to Ottawa and see if the Intercolonial Railway will operate the road," when he knows very well he could not get an answer for two years. We can tell Mr Hazen now that if the Dominion Government

will lease the Intercolonial Railway to McKenzie and Mann they will build the road from Centreville to Fredericton as part of the trade, or if he will give sufficient assistance to build the road from Centreville to Fredericton the CPR will operate it for 60 per cent of the gross earnings, but neither of these would be satisfactory. What the people want is a road right down the river to St John and we are looking to Mr Hazen to say whether or not he is willing to assist us.

It is now up to Mr Hazen. It may be a little humiliating to adopt a policy which he opposed while in opposition but as he was always wrong then it won't hurt him to get right now.

Gordon, the youngest child of Mr Hedley Moores, the well known harness maker, was taken to the Hospital on Saturday. Great sympathy is expressed for Mr Moores as this is the third member of his family to be stricken with typhoid. His wife and son Douglas have been ill for some weeks.

The anniversary services last Sunday in the Methodist Church were conducted by a former pastor the Rev J C Berrie, now of Margerville. In the morning the sermon was based on Phil 4-19. In his sermon Mr Berrie pointed out some of the results coming from Christianity and instanced better government, ideal manhood and the impartation of Divine Life. The whole scheme of redemption is to reproduce Christ in us. In the evening the text was Acts 8-25 and the speaker said that men ought to go to the Bible for instruction, not simply to prove something they already believe. He said our danger is in traditional interpretations. The prayer of all should be "Spirit Divine show me what is truth."

Indigestion
Poisons
the Blood

As surely as a serpent's bite—it keeps brain power, lowers vitality, produces sleeplessness, nervous depression, and is the cause of aching heads and weary limbs.

THE KEY TO HEALTH IS
good digestion, and Mother Seigel's Syrup gives that assuredly. As a digestive tonic and homeopathic remedy it has no equal.

County Court.

In chambers this week before his Honor Judge Carleton, Mr W P Jones K C, made application under the Habeas Corpus Act for the said lease of Aaron Cullin on the ground that the warrant of commitment was insufficient. Mr J C Hartley appeared for the crown. Mr Hartley admitted the invalidity of the warrant, but contended that the Judge had discretionary powers to retain the prisoner, under a section of the code, if satisfied that an offence had been committed for which the prisoner should be placed on trial. The Judge considers and will deliver judgment Saturday at 11 a.m.

Field and Garden Seeds.

The Season for the purchase of Field and Garden Seeds now being at hand, we are led to think of the importance of having only those seeds which are pure and of strong germinating powers. The farmer who buys the best seed obtainable does a service, first to himself; second, to his neighbors; third, to his country. On the other hand, the man buying poor seed injures himself, his neighbor and his country. Himself by raising a small crop of inferior quality, while he might have a large crop of the best quality; his neighbor by maintaining in his own fields a nuisance in the shape of weeds, the seeds of which, at harvest time will be blown into the adjoining fields; his country by diminishing to the extent of his own ability its producing power for the best products. In this connection we believe that the passing of the Seed Control Act of 1905 by the Dominion Government has been a large benefit to the farmers of our country, as it has undoubtedly prevented unscrupulous dealers from selling the very poorest seeds. For the above reasons the proprietors of York and Kent Brands of Timothy have been especially careful to buy only the best seeds procurable. We have seen a report of a qualified expert, which says that in the samples analyzed, York and Kent Timothys do not contain a single weed seed named in the Control Act of 1905. Therefore, if the farmers of this country wish to protect their own, their neighbors', and their country's interest, they will insist on getting York and Kent Timothy Seeds.

PRESCRIPTIONS.

We have been preparing Medicine according to Doctors' Prescriptions for 15 years. In that time our business has doubled in volume several times over, and yet we have never received a single complaint from any doctor in regard to our manner of compounding prescriptions. We have always stuck to one policy, namely, to use only the best quality of drugs that we could get, and always do the work as skilfully as we know how. That makes good medicine.

Mail orders solicited. We pay all Postage.
