ENGLISH LIQUID PAINT

WHITE LEAD 70%
ZINC WHITE 30%
PURE PAINT 100%

Said the Painter—

"There is a great house paint. It is 'English' Liquid Paint made by Brandram-Henderson Limited, the same firm that make Brandram's B. B. Genuine White Lead. I never saw a paint before that was so finely ground, that spreads so easily or covers so well. The shades are clean and clear and perfect, and the white—well, the white can't be beat.

"I know why this paint is so good. The white base is 70% pure white lead, and 30% pure zinc white with pure linseed oil, turpentine and dryer.

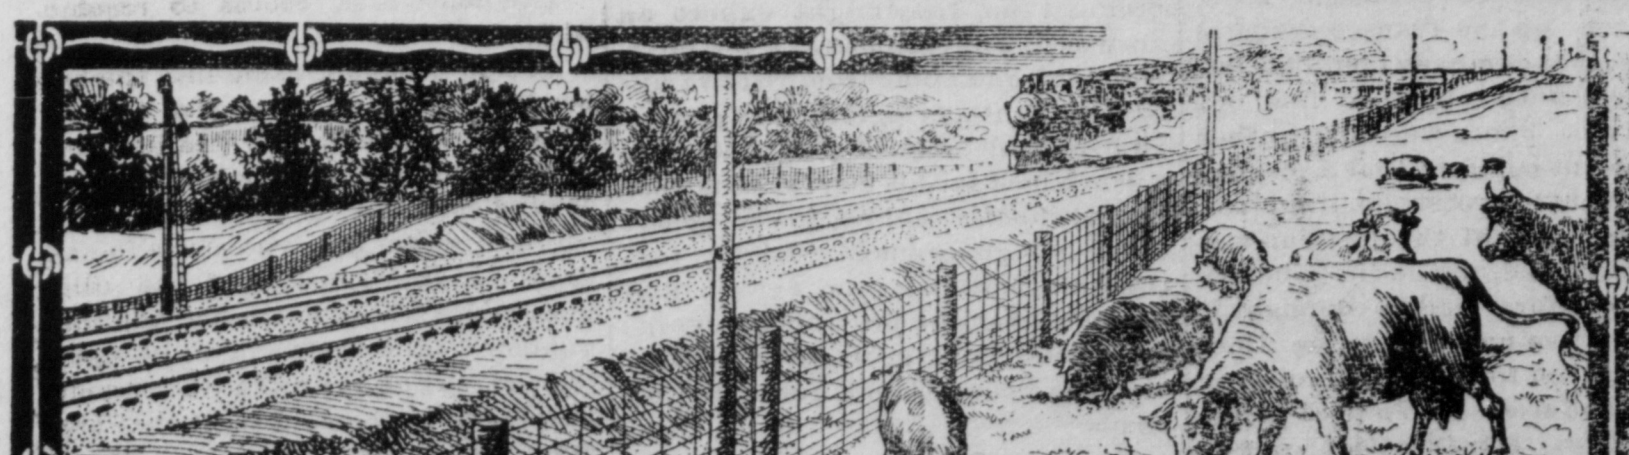

"The guarantee formula is on every can. That suits me. I want to know what is in the stuff I'm using on my jobs."

"English" Liquid Paint is most economical to use.

Fence Sturdiness

"Maritime" wire fences are stronger than ordinary wire fences. Made from High Carbon and Hard Drawn steel wire, specially imported, on account of its superior galvanizing, "Maritime" fences are from 75% to 100% stronger than common wire fences.

Sturdy enough and sufficiently high to hold the largest stock, "Maritime" wire fence is still woven small enough to keep in small animals.

The absolute regularity of the weaving, equally distributes any strain or pressure which may occur. "Maritime" wire fences are always taut.

The White Slave Traffic

A Warning Cry to Young Girls

HON EDWIN W. SIMS

(Continued from last week.)

When the raids began she was sequestered and arrangements made to ship her to a dive in the mining regions of the West. Fortunately, however, a few hours before she was to start upon her journey the United States marshalls raided the place and captured herself as well as her keepers. To add to the horror of her situation she is soon to become a mother. The awful thought in her mind, however is to escape from assassination at the hands of the murderers gang which oppressed her.

One recital of this kind is enough, although instances by the score might be cited which differ from it only in detail and degree.

It is only necessary to say that the legal evidence thus far collected establishes with complete moral certainty these awful facts: That the white slave traffic is a system—a syndicate which has its ramifications from the Atlantic seaboard to the Pacific Ocean, with "clearing houses" or "distributing centres" in nearly all of the large cities; that in this ghastly traffic the buying price of a young girl is \$15 and that the selling price is generally about \$200—if the girl is especially attractive the white slave dealer may be able to sell her for \$400 or \$600; that this syndicate did not make less than \$200,000 last year in this almost unthinkable commerce; that it is a definite organization, sending its hunters regularly to scour France, Germany, Hungary, Italy and Canada for victims; that the man at the head of this unthinkable enterprise is known among his hunters as "The Big Chief."

Also the evidence shows that the hirelings of this traffic are stationed at certain ports of entry in Canada, where large numbers of immigrants are landed to do what is known in their parlance as "cutting out work." In other words, these watchmen for human prey scan the immigrants as they come down the gang plank of a vessel which has just arrived and "spot" the girls who are unaccompanied by father, mother, brothers or relatives to protect them. The girl who has been spotted as a desirable and unprotected victim is promptly approached by a man who speaks her language and is immediately offered employment at good wages, with all expenses to the destination to be paid by the man. Most frequently laundry work is the bait held out, sometimes housework or employment in a candy shop or factory.

The object of the negotiations is to "cut out" the girl from any of her associates and to get her to go with them. Then the only thing is to accomplish her ruin by the shortest route. If they cannot be cajoled or enticed by promises of an easy time, plenty of money, fine clothes, and the usual stock of allurements—or a fake marriage—then harsher measures are resorted to. In some instances the hunters really marry the victims. As to the sterner measures, it is, of course, impossible to speak explicitly beyond the statement that intoxication and drugging are often used as means to reduce the victims to a state of helplessness, and sheer physical violence is a common thing.

When once a white slave is sold and landed in a house or dive she becomes a prisoner. The raids disclosed the fact that in each of these places is a room having but one door, to which the keeper holds the key. In here are locked all the street clothes, shoes, and the ordinary apparel of a woman.

The fury which is provided for the girl for house wear is of a nature to make her appearance on the street impossible. Then, added to

CLEAR THE FILTERS!

Your Health Depends On It.

In its course around the body the blood is continually gathering up waste matter—worn out tissue and other impurities.

Then it flows through the kidneys, which should filter out all this poisonous material and empty it into the bladder. But sometimes the kidneys get sluggish and clogged up with waste matter, and fail to do their work properly. Then the trouble begins. Instead of leaving the kidneys pure and life-giving, the blood comes out still loaded with Uric Acid, which it carries to every part of the body. Settling in joints and tissues, this Uric Acid very soon causes Rheumatism, with its untold suffering.

The natural, sensible course then is to clear the filters—the kidneys—with "Father Morrissey's No. 7." One tablet three times a day, followed by a glass of cold water, will bring relief in a very short time. Joints will limber up, the blood will be purified, and the Rheumatism cured. See at your druggist's, or from Father Morrissey Medicine Co., Chatham, N. B.

this handicap, is the fact that at once the girl is placed in debt to the keeper for a wardrobe of "fancy" clothes which are charged to her at preposterous prices. She cannot escape while she is in debt to the keeper, and she is never allowed to get out of debt—at least until all desires to leave the life is dead within her.

The examinations of witnesses have brought out the fact that not many of the women in this class expect to live more than ten years after they enter upon their voluntary or involuntary life of white slavery. Perhaps the average is less than that. Many die painful deaths by disease, many by consumption; but it is hardly beyond the truth to say that suicide is their general expectation. "We'll all come to it sooner or later," one of the witnesses remarked to her companion in the jail, the other day, when reading in the newspaper of the suicide of a girl inmate of a notorious house.

A volume could be written on this revolting subject, but I have no disposition to add a single word to what will open the eyes of parents to the fact that white slavery is an existing condition—a system of girl hunting that is national and international in its scope, that it literally consumes thousands of girls—clean and innocent girls—every year; that it is operated with a cruelty, a barbarism that gives a new meaning to the word fiend; that it is an imminent peril to every girl in the country who has a desire to get into the city and taste its excitements and its pleasures.

The facts I have stated are for the awakening of parents and guardians of girls. If I were to presume to say anything to the possible victims of this awful scourge of white slavery it would be this: "Those who enter here leave hope behind;" "the depths of debasement and of suffering disclosed by the investigation now in progress would make the flesh of a seasoned man of the world creep with horror and shame."—reprint from "Woman's World."

Jacksonville School.

Jacksonville, District No. 7, is fortunate in securing Miss Leora Harmon, Woodstock, as principal of its superior. The school is well equipped and among its improvements is an organ.

There are eight scholars preparing for the Provincial Normal School at Fredericton.

There are two departments in the Jacksonville Maple Leaf School. In the primary department there are twenty pupils. Under the Principal, Miss Leora Harmon, there are thirty two pupils.

The Jacksonville Maple Leaf School manifests the most talent of any school yet visited in the extensive travels of the writer, who has been in almost every school along the St. John River from Edmonston to Woodstock.

Our local teachers should be encouraged in exerting an influence for good over their pupils.

J. T. G. Carr is now agent for the Fit Reform Clothing of Montreal. If you have not ordered your spring suit call and see his samples. He has also a large stock of Ready made clothing on hand and Gents Furnishings.

It is understood that an intimation has been received in Canada that His Majesty the King of England will present to the Royal Canadian Regiment, Halifax, a large autograph picture of himself, and has intimated through his private secretary that the presentation gives him a great deal of pleasure, because of his appreciation of the Canadian soldiery. This picture is expected here shortly and the possibility is that it will be placed in the officers' mess building at the Wellington barracks.

SCRAPING THE STOMACH

Dangerous and Painful Operation Avoided by Taking "Fruit-a-tives."

Guelph, Ont., Aug. 6, 1908.
I suffered for many months with dreadful Stomach Trouble, with vomiting and constant pain, and I could retain practically nothing. My doctor stated that I must go to the hospital and undergo an operation of scraping the stomach and be fed by the bowels for weeks. All the medicine the doctor gave me I vomited at once. I was dreadfully alarmed, but I dreaded an operation and had refused.

I had heard of "Fruit-a-tives" and the great success they were having in all Stomach Troubles, and I decided to try them. To my surprise, the "Fruit-a-tives" not only remained on the stomach, but they also checked the vomiting. I immediately began to improve, and in three days the pain was easier and I was decidedly better. I continued to take "Fruit-a-tives" and they completely cured me.

—Mrs. Austin Hainstock.
"Fruit-a-tives" are 50c a box, 4 boxes for \$2.50, trial box 25c. At dealers or from Fruit-a-tives Limited, Ottawa.
