### Hartland

(Crowded out last week.

At Rockland on 20th inst, Mrs Geo Elie departed this life in full prospect of a glorious hereafter. Mrs Elie was first married to Shepherd Estabrooks by which union there remains one son, Arthur Estabrooks, merchant at Rockland and three daughters, beside a large circle of friends. She was a woman highly esteemed. Mr Elie has been dead for several years and was killed in a bridge accident in State of Nevada.

We regret to say that the purchase of McElmoiney hotel by Ziba Orser did not mature.

That Andrew Glendenning of Howard Brook should have succumbed by hanging on 22nd inst, is surrounded by mystery. His home and surroundings were everything to add to his comfort, peace and contentment, rational and converse freely until the last. Aged 70 years and living with his son.

It was Mrs Wellington Craig's home at Windsor that I tried to say was destroyed by fire. She was before marriage, Miss Mary Lunn. It is rumored that \$200.00 in money was lost in the fire.

Rev Mr Jenkins preached his farewell sermon on Sunday evening last to a large and appreciative audience. He left on Monday evening train with family and effects for Central Kansas.

J. T. G. Carr has fully recovered from an attack of lumbago, and is attending to business as usual.

Sayre's Mill pond is filling with logs. Sawing commenced on Monday last with new arrangements. The quantity per day will largely exceed the amount saved by former methods. The drive is making good progress, plenty of water and large crew.

Over 40 commercial travellers visited Hartland last week.

We are all satisfied that the Valley road should be built, although it will be of more damage to our village than benefit, as it will run away from the river in its course from Aroostook to Centreville. A large amount of hay, potatoes and other products now crossing the river bridge and shipped from here will seek a nearby station on the western side.

Ed McCollom occupies the warehouse in the Matheson building (next north of Everett's Agency) and has it well stocked with Frost & Wood's farming implements and machinery.

Pneumonia is heard of from sections around us. In Ashland a son of Mrs W W Dickinson is suffering from a severe attack with doubtful issue.

Some 50 drivers on their way up head of river died at the Commercial one day last week.

Exchange Hotel is largely patronized, while Clark's Hotel and livery have all they can attend to.

John Murdock agrees to keep the logs from creating a jam on the river bridge. Logs are commencing to run.

Are not many of our leading papers devoting more space to the pugilist than necessary or beneficial, when such is termed "a manly art" it's a mistake, it partakes more of a low and degrading calling.

Hon A B Aylesworth has given notice of a bill to amend the criminal code, the chief amendments being designed to stiffen the law with respect to the carrying of offensive weapons and in regard to procuration and indecent literature and photographs. The present penalties for these offences are increased in each case, and the wording of the act is changed in some of the clauses in order to make enforcements more easy. It is made an offence to have indecent postcards, pictures or literature in one's possession for sale, whether a sale is effected or not.

## Locomotor Ataxia Cured by Dr Williams' Pink Pills.

Read the Strong Testimony of a Man Who was Helpless for Years and Whom Hospital Doctors Said was Incurable.

Locomotor ataxia is a disease of the spinal cord, characterized by peculiar disturbances of the gait, and difficulty in governing the motion of the legs. As the disease progresses there is a total inability to walk. One of the earliest signs is a tingling particularly noted in the knees and ankles. Often a numb feeling is associated with it. As the disease is of slow growth, some cases covering a period of years, the increase and intensity of the symptoms is not noticed, but its progress is constant and gradually approaches a total lack of feeling in the legs, causing a wobbling gait and entire inability to govern the steps. As it grows the patient loses control over the bowels and water. A further symptom is the sensation of a pressure at the waist, as the upper parts of the spinal cord becomes affected.

Locomotor ataxia is stubborn in yielding to treatment, and before the discovery of Dr Williams' Pink Pills was considered incurable. It has been fully demonstrated, however, that this disease can be cured by Dr Williams' Pink Pills for Pale People.

The length of treatment required depends upon the stage at which it is commenced. It is dangerous to delay taking the pills after the presence of the disease is recognized, although this medicine has wrought cures in many cases of long standing.

We give the following statement of Mr Henry Furzer, a well known resident of Delta, Ont, in proof of the claims that Dr Williams' Pink Pills will cure this most dreaded of diseases. Mr Furzer says: "I am deeply grateful that I am able to write you and let you know the great benefit I have derived from the use of Dr Williams' Pink Pills. Some years ago, while working on the Grand Trunk Railway, I injured

my back while lifting a heavy weight. Gradually the trouble grew worse and I was taken to the hospital at Brockville. The treatment there seemed to help me and after some weeks I returned to work. I was only at work a few days when the trouble returned worse than before. Again I went to the hospital, blisters were applied to my spine, but without avail. The doctors told me I had locomotor ataxia, and that there was no help for me, as I would never be able to use my legs again. I returned home in the belief that I would always be a helpless cripple, and that death only could bring relief. I gradually got worse and worse. There was absolutely no feeling in my legs. I lost control of both bowels and bladder, and suffered great torture from a girdling pain about the waist. I was in fact a complete wreck and could scarcely sleep at night. Finally a friend asked me if I had ever tried Dr Williams' Pink Pills, and on saying no, he got me a supply and I began to use them. It was quite a while before I found any benefit, but finally relief began to come. The pains about the waist ceased. I slept better and my appetite was better. Then the feeling began gradually to return to my legs, and then I was again able to stand alone. As time went on the improvement continued and I was at last able to go about with the use of a cane, and I could get in and out of a buggy without assistance. I scarcely hope to be the vigorous man I once was, but only those who have suffered as I did can imagine the great gratitude I feel for what Dr Williams' Pink Pills has done for me. I strongly and sincerely advise similar sufferers to give this medicine a fair trial."

This Prescription has, for over 40 years, been curing delicate, weak, pain-wracked women, by the hundreds of thousands and this too in the privacy of their homes without their having to submit to indelicate questionings and offensively repugnant examinations.

A return tabled in parliament shows that for the two decades—1888 to 1908—exclusive of the Canadian Pacific, Grand Trunk, Canadian Northern and Grand Trunk Pacific, charters have been granted for the construction of 63,809 miles of railway in Canada. Of 203 companies incorporated only twenty-five have constructed any portion of the railways authorized, and 86 charters have lapsed. Eighty-eight charters have been given one extension of time, forty-two have received two extensions, or more. Since 1900, 117 charters have been granted, of which twenty-six have already lapsed.
