A LETTER.

To The Carleton Sentinel
Mr Editor.—We are very well aware that the people of your country are interested in the St John Valley Railway, and are prepared to resent the attitude of the Provincial Secretary toward that scheme. They will be interested to know, that every effort is being exerted, to side track the will of the people by an undertaking to build a spur line, from Millville to the St John River a distance of eleven miles. This scheme we hear is strongly supported by the gentleman of Pullman-car fame, thinking it will satisfy the demands for a Valley Railway. This is another exhibition of school-buys Legislation to guarantee bonds for a road that at the most can only convenience J K Pinder M.P. and a few others. We wonder sometimes if this is the price paid for subservency? Will the people of Carleton County, Sunbury, Queens and St John counties stand for this expenditure of public monies for a few while the great masses of people in the Valley suffer the want of a road.
