

The Doctor's First Question

"How are your bowels?" This is generally the first question the doctor asks. He knows what a sluggish liver means. He knows what a long list of distressing complaints result from constipation. He knows that headaches, bilious attacks, indigestion, impure blood, and general debility are often promptly relieved by a good liver pill. We wish you would talk with your own doctor about this subject. Ask him at the same time if he approves of Ayer's Pills. Do as he says. J.C. Ayer Co., Lowell, Mass.

BABIES' SORE SKINS

"My baby had a rash something like eczema. It caused the child great pain and made it very restless and ill. The rash spread very quickly, and I was at a loss what to do next, for all the remedies I tried failed to give the little one ease. A friend strongly advised me to try Zam-Buk, and I did. That proved good and gave the baby ease very quickly. I went on with the treatment, and by the time the third box was used, all traces of the rash had gone."

So says Mrs. J. Reesor, of Aurora, and scores of mothers could make practically the same statement. If your child suffers from teething rash, eczema, chafing, or any of the numerous skin troubles to which young children are victims, apply Zam-Buk.

Zam-Buk has the great merit of being pure. When you put an ointment on to your child's skin it finally gets into the blood through the pores just as surely as if you put it into the child's stomach. So don't you see how important it is the balm should be pure? Zam-Buk is made from pure herbal essences. It contains no animal fat, no mineral coloring, no poisonous, burning antiseptic. It soothes quickly, and heals surely. Send us 1c. stamp and we will mail you trial box free.

Zam-Buk is a cure for eczema, ulcers, blood poisoning, abscesses, cuts, burns, cold sores, etc. Wherever the skin is injured or diseased Zam-Buk will give ease and will heal. All druggists and stores, 50 cents box, or for price from Zam-Buk Co., Toronto, 3 for \$1.25.

PROOF OF CONFIDENCE.

Mr. S. R. Pendleton, of St. John, N. B., was so well pleased with the result of his matured Semi-Endowment Policy with the Sun Life Assurance Company of Canada, that he intends taking another policy—this, as Mr. Pendleton says in his letter below, "is probably the strongest proof of confidence that I can offer."

"Twenty years ago to-day, I took out a policy in the Company which you represent, for \$1,000. The policy was on the Semi-Endowment plan, and guaranteed at the end of twenty years to return me \$500.00 in cash, together with whatever profits might be apporportioned by the Company. I was led to believe these profits would be about \$300.00, making \$800.00 cash returned. You can imagine my satisfaction when I find that the profits amount to \$335.40, and that promptly on the day it is due I am receiving a cheque for \$835.40 besides having had my life assured for twenty years, free of charge.—This certainly speaks very highly for the management of the Sun Life of Canada, and I will naturally recommend my friends who might be considering assurance to do their business with that Company. Furthermore, I intend taking an additional policy myself, which is probably the strongest proof of confidence that I can offer."

A few persons holding building lots are anxious to dispose of such to the Dominion Government for the erection of our public building thereon. A petition numerously signed has been forwarded to the P. O. department asking that a lot owned by T. J. Selected—Some people are always looking backward; they seem to be anchored to the past. Pride of ancestry, tradition of opinion, what has been is rarely more to them than what is, or what may be. Lucky for the world—for the cause of human progress—that some there are who have but little respect for tradition, or authority of opinion. They prefer to do their own thinking, although they may not always think wisely. They regard it as more creditable to believe an error, or come to a wrong conclusion, after a careful examination of any given subject than to accept the truth blindly, without investigation. Of such is ever the grand army of reformers in the worlds ways and works.

John D. Roddick, Lyndhurst Tells His Experience.

After Two Years' Suffering with Lame Back and Weak Kidneys, was Cured by Dr. Hamilton.

Lyndhurst, Ont., Dec 3rd. The following statement made by Mr. Roddick, lumber merchant, tells of the remarkable knowledge possessed by Dr. Hamilton:

"Two years ago I had grippe which settled in my back and kidneys. I was sickly and very miserable, suffered great pain and inconvenience. Different remedies were tried with out benefit and then I decided to try Dr. Hamilton's Mandrake and Butter-nut Pills. I derived immense good from their use in short time. When two boxes were used I was immeasurably better. To-day I am well. Neighbors suffering from kidney and back trouble have also been cured by Dr. Hamilton's Pills which I am convinced is the best medicine for regulating and cleansing the system. They are very mild, but do the work just the same."

Americans Would Invaad Winnipeg in Time of War.

New York, November 22. The Sun publishes an interview with Mr. Andrew Carnegie, in which the iron master tells how the United States could defeat Germany easily in war.

"All we have to do," he is credited with saying, "is to close our ports to the commerce of the world. We won't have to wait for the enemy to do that. It will be our surest method of terminating hostilities. Let the enemy starve."

"Suppose we went to war with Germany. After we had closed our own ports the President would send an army of 5,000 men to Winnipeg. They could stop all transportation of grain eastward. In three weeks all Europe would be on the verge of starvation. "How long could Germany keep up a fight against the combined opposition of all the hungry Powers? I think we would be justified in asking Canada not to send supplies to our enemy. Furthermore, I do not think either Canada or Great Britain would take a very different view, especially if it were Germany that we were fighting."

"As for landing a hostile army on our coast, pooh! We would welcome them with open arms. The reporters and the newspaper photographers could throng out to get interviews and pictures. It would be tremendously interesting. We could say to them: Come ashore, gentlemen. We'll board you for a few weeks and then you can go home by any route you choose. I am afraid going home wouldn't be anything like as easy as getting here."

"I am for fortifications," added Mr. Carnegie. "The President, when he twitted me in his speech at Cape Henry, made the mistake of thinking that I am opposed to all forms of preparation for war. I believe in forts, big forts, the biggest and best forts in the world and plenty of them. Forts are for defence; they safeguard our ports."

"It is the mad race to see how many expensive battleships we can construct to which I am opposed. Ten million dollars apiece for battleships is a huge tax on the national Treasury, and a useless one."

A Town As If By Magic.

Western Canada has recently been described by a well-known writer as "A place where people do things, and do them quickly," and probably no more apt illustration of the truth of this statement can be found than that of the building up of Melville, Saskatchewan, which is situated on the main line of the Grand Trunk Pacific Railway, 287 miles west of Winnipeg. Two years ago, R. Garvin pitched his tent on the town site of Melville. Behold the town today! "Marvellous!" exclaim the many visitors. Eight years ago a person could have travelled for two days and have never seen a house; while now the iron horse speeds merrily towards the West, and still the country is only on the threshold of future greatness.

Melville to-day is a live Western town, having a population of close upon 2,000 souls. It is well and substantially built and boasts of up-to-date public buildings; and a school which is to cost \$14,000 is now nearing completion. It has well graded streets and about a mile of permanent sidewalks, which is surely a good showing for this "infant prodigy."

Another feature in the career of this "healthy infant of the west" is that it enjoys the privilege of being the first town incorporated on Canada's new transcontinental railway, eclipsing Prince Rupert, B. C., the hubboomed terminal of this great road—in the respect.

Melville is also fortunate, and to an extent it owes its prosperity to the decision of the Directors of the Grand Trunk Pacific Railway to make that town the largest divisional point between Winnipeg and Edmonton, and locating their shops there. To add to this very fortunate chain of circumstances, there is the fact that Melville is situated in what is generally considered one of the best—if not the best—agricultural districts in Western Canada. Here is to be found in abundance all that goes to make the lot of a farmer a happy one. Water is to be found in abundance, and the soil is rich beyond comparison.

Nature has done much for Melville, and the hardy pioneers of the West and South are lending their aid to build up the coming City on the Grand Trunk Pacific, in the Middle West.

Professional people, actors, lawyers, doctors and ministers, who frequently suffer from exhaustion and prostration as a result of excessive nervous strain find Ferrovin the invigorating tonic unequalled to strengthen and renew the exhausted tissues of their body. Ferrovin is composed of fresh lean beef, Citrate of Iron, pure old Spanish Sherry Wine. \$100 per bottle.

How to Remove Grease Spots.

Obstinate grease spots can be removed by placing them in benzine, placing them on a double pad of blotting paper and after laying another pad of the same over the top pressing with a moderately hot iron.

How to Pasteurize Milk.

Place a pan of cold water on the stove and put a vessel containing the milk in the pan. As soon as the water begins to boil take it off. Add a small teaspoonful of soda to each quart of hot milk. Put the milk in a bottle and put in a cork. Milk treated in this way will keep sweet in hot weather for twenty-four hours.

"As for me," stated the petulant person, "I see no difference between a half loaf and no bread."

"But there is a difference!" replied the practical one: "Wouldn't you prefer a whole doughnut to a doughnut hole?"

You can afford an Edison Phonograph

The price places it within reach of all. No family is too poor to have an Edison Phonograph. No family is too rich to enjoy it. Nothing that money can buy will furnish a greater range of amusement for every dollar invested.

Mr. Edison intended that his Phonograph should be within reach of everyone. He wishes to see it in every home. Prices range from \$16.50 to \$162.50. No one can buy a Phonograph cheaper than you can. No one should pay more for it.

The Edison Phonograph in your home would give it something that it now lacks—entertainment of the best sort at a small cost, always available and suited to everyone.

Do not forget these things. Remember that they are found only in the Edison Phonograph, because no other sound-reproducing machine is so perfect and so faultless. None other is made by the inventor of the Phonograph idea as the Edison Phonograph is.

Red Rose Tea Uniformity

A TEA that is good to-day and poor to-morrow is unreliable.

Have you ever noticed variations in the quality of the tea you use? One package good, the next bitter, herby, perhaps weak and insipid.

A lack of expert knowledge by the tasters and blenders of that tea produced that result. There was a failure at a vital point, an ignorance of combining qualities in teas, poor judgment in the blending of that maker's teas, a weakness which invariably gives just such results as your poor tea.

Every chest of Red Rose Tea is tested at the gardens, again by the Eastern Red Rose shippers, then at the Red Rose warehouse upon its arrival before blending; after that an experimental blend is tested, and the final or actual blend is also tested before being packed.

Nothing is left to chance.

That is why that "rich fruity flavor" is always present in Red Rose Tea.

Why Red Rose Tea is always uniform, why

Red Rose Tea is good Tea
