Synopsis of Canadian North- west Land Regulations.

ANY person who is the sole head of a family
or any male over 18 years of age, may homestead
a quarter-section of available Dominion
land in Manitoba, Saskatchewan or Al-
berta. The applicant must appear in person
at the Dominion Lands Agency or Sub-Agency
for the district. Entry by proxy may be made
at any agency, on certain conditions, by
father, mother, son, daughter, brother or sister
of intending homesteader.

Duties.—Six months' residence upon
and cultivation of the land in each of three years.
A homesteader may live within nine miles of
his homestead on a farm at least 80 acres
solidly owned and occupied by him or by his
father, mother, son, daughter, brother or sister.
In certain districts a homesteader in good
standing may pre-empt a quarter-section
alongside his homestead. Price \$300 per acre.
Duties.—Must reside six months in each of six
years from date of homestead entry (including
the required to earn homestead patent) and
cultivate fifty acres extra.

A homesteader who has exhausted his
homestead right and cannot obtain a pre-
emption may take up a quarter-section in
certain districts. Price \$300 per acre. Duties.—
Must reside six months in each of three
years, cultivate fifty acres and erect a house
worth \$300.00.

W. W. COBY,
Deputy of the Minister of the Interior.

S. J. PARSONS
Agent of Atlantic Mutual
Woodstock N. B.

DEAR SIR,—It is with peculiar
satisfaction, that I notice in renew-
ing my two policies in your company,
I am allowed a dividend of 15 per
cent. This amount was deducted
from my renewals, which is of course
a saving of so much cash. I never
before heard of a Fire Insurance Co
in N. B. dividing their profits with
the policy holders and I wish the
Atlantic Mutual success in this new
departure.

Yours very truly,
R. B. JONES, Co. Limited.

The Great Dipper.

It will come as a surprise to most
of the people that the Big Dipper is
going to pieces! Astronomers are
now perfectly sure that the seven
stars in the group familiarly termed
the Great Dipper are slowly but
surely drifting apart.

The breaking up of this partner-
ship was first detected in 1869. It
was found that while five of the stars
in the Great Dipper were drifting in
one direction, two of them were go-
ing the opposite way. Consequent-
ly a hundred thousand years hence,
the Great Dipper will have altered
in appearance and no longer justify
its name. The handle of the Dipper
will be bent almost double, and the
Dipper will show its utter lack of
solidity as compared with a dipper in
good condition.

Back Strained By Heavy Lifting.

Lay Helpless in Bed for Four
Days, Crippled, Suffering
Agony and Torture.

"While engaged with a large con-
struction company," writes Amos E.
Wilbur, from Concord, "I wrenched
my back while lifting a steel beam. I
realized at once that I was hurt, but
finished the day out. I was so lame
when I reached home that my wife
insisted on my going to bed. I ap-
plied poultices, hot water bags and
other remedies, but at the end of the
fifth day my suffering was more in-
tense than at the first. A fellow
workman brought me a bottle of
NERVILINE, and rubbed my back
twice during the evening. This gave
me relief. Rubbing with Nerviline
was continued the next day, and by
night I was much improved. Nerve-
line must have penetrated right in-
to the muscles that were sore, be-
cause it took out the stiffness, cured
the pain, and had me well in four
days' time. Of course, to strengthen
my back, I put on a Nerviline Porous
Plaster and find it a wonderful help
to a working man."

Not a liniment on earth to-day that
compares in pain-subduing, healing
and curing power with Nerviline.
Fifty years' record has established
its unusual merit. Look out for the
substitutes, insist on "Nerviline"
only. Large 25c bottles at all dealers.

The orange was originally a pear-
shaped fruit about the size of the
common wild cherry. Its evolution is
believed by naturalists to be due to
twelve hundred years of cultivation.

great benefit from the use of

quently proved it to be very effec-
tive in cases of inflammation.

The beneficial effect of iron
upon the system weakened
through illness, overwork or
anemia, is well known. Ferro-
vium is a preparation which
supplies the valuable element
in the most efficient way, com-
bining with it the nourishing
qualities of beef and the mil-
lary stimulative effect of sherry
wine. Ferro-vium costs \$1.00
a bottle at druggists.

GUARD THEIR HEALTH!

Children Who Grow Very Fast
Need Careful Watching.

Next to infancy,
the years between
ten or twelve and
eighteen are the
most critical in life,
especially for the
boys and girls who
grow too fast. Rapid
growth and the
physical changes
that are taking place
render them particu-
larly liable to weak-
ness and disor-
ders of the diges-
tive system, kidneys
or lungs that very
frequently, when allowed to run on,
condemn them to a lifetime of suffering.
It is most important that at this period
of life those organs which carry off the
body's waste and impurities—the bowels,
the kidneys and the skin—should be
kept active and vigorous.

Nothing will do this more effectively
than that good old-fashioned remedy,
Dr. Morse's Indian Root Pills. It acts
directly on each of these organs, enabling
them to do their work properly, and thus
keeps the whole system pure and healthy.

Dr. Morse's Indian Root Pills are
still made from precisely the same formula
as when our grandfathers used them, for
nothing better has ever been devised.

ber requested to attend.

Elephants in the Indian Army are
fed twice a day. When meal-time
arrives they are drawn up in a line
before a row of little heaps of food.
Each animal breakfast includes ten
pounds of raw rice done up in five
two-pound packages. The rice is
wrapped up in leaves and then tied
with grass. At the command "Atten-
tion!" each elephant raises its trunk,
and a package is thrown into its
capacious mouth. By this method
of feeding not a single grain of rice is
wasted.

South Johnville.

I have been a reader of your paper
for some time. I thought I would
drop you a few items that may be
interesting to the readers.

We are having very cold and
stormy weather up here. The roads
are very bad making it very hard
for our new mail man but he does not
mind with his noble team of 15,000 lb
horses. He and Willie will keep the
roads good.

Mrs P. Colton and her girls went for
a pleasure drive on the 7th. On their
returning home they were thrown
out of their sleigh receiving but slight
injuries. They are thankful as the
horses were very wild.

Mrs F. McGuire is coming home
soon to visit some of her friends
where she will be received with a
warm welcome.

There was a big entertainment at
Jimmie Coltons, New Year's night.
Every person enjoyed themselves.

Miss N. T. Feeney has gone to Bos-
ton Mass to visit her sister Mrs J.
Clark. She will spend the winter
with her. She will be missed by her
many friends and neighbors.

Mrs G. Craine is spending the win-
ter with her mother, Mrs B. Gormly.
She is heartily welcomed back to the
place of her birth. Her husband has
been in the woods with his team.

Mrs E. McKinnis has just come
home from an extended visit to St
John where she spent her Christmas
among many friends. Sue is looking
fine.

Miss Lizzie Gormly returned to
Florenceville after spending her
Xmas with her parents Mr and Mrs
M. Gormly.

Cross, Sleepless Babies Are Sickly Babies

When little ones are sleepless and
cross it is a sure sign that they are
not well. Probably the little stom-
ach or the bowels is out of order, or
the child may be suffering from
teething troubles. Give Baby's Own
Tablets and see how quickly the
child grows well and happy and
sleeps soundly—not the drugged
sleep of "soothing" medicines, but
the natural sleep of health. Mrs
Edward S. Sord, Maskegon, Que.,
says: "I have used Baby's Own Ta-
blets for indigestion and other trou-
bles of childhood, and they always
work like a charm. They always
keep my little one well." Sold by
medicine dealers or by mail at 25c a
box from the Dr. Williams' Medi-
cine Co., Brockville, Ont.

The January Rod and Gun.

With the advent of another year,
Rod and Gun in Canada, published
by W. J. Taylor, Woodstock, Ont., is
to the front with a fine issue for Jan.

Running through all the stories—and
there are many of them—is that
pleasant out-door tonic which always
proves a healthful tonic, the plenti-
ful supply of which, in stories and
pictures, has given the magazine an
assured position. Fishing and hunt-
ing experiences are interspersed
with camping stories, Indian legends,
prospecting tales of the far Queen
Charlotte Islands and strange hap-
penings in the backwoods, all ap-
pealing in some of their manifold
interests to sportsmen of varied tastes
and inclinations. In reading such de-
lightful stories, everyone redolent
with the actual, one lives over again
some of one's own pleasures, thus
obtaining a double measure from the
outing which yielded so much enjoy-
ment at the time. To begin the New
Year well and continue throughout
in the same good way, the compan-
ionship of Rod and Gun should be
secured. If he adopts this course
the sportsman will have continual
reminders throughout the year of his
own outings, and additions to the
bright anticipations with which he
looks forward to future joys. Of
these reminiscences and anticipa-
tions no one can rob him, but Rod
and Gun adds to both, and makes
the year one continual pleasure, no
part of which the sportsman will lose
if he secures its companionship for
the ensuing twelve months.

Five thousand Sunday school chil-
dren of the Presbyterian, Methodist,
Baptist, and Congregational churches
saluted the flag at the New
Year rallies in Montreal on New
Year's day. The rallies were the
largest in the history of the various
denominations, and the ceremony
was impressive, the children taking
the solemn pledge: "I promise to be
loyal and true to my flag, and the
Empire for which it stands."

The young people were all taken
to the rallying points on special cars
of the Montreal Street Railway, and
their progress through the streets
partook of the nature of a grand pic-
nic.

As the Twig Is Bent.

"I hope you were a good little boy
while at your aunt's and didn't tell
any stories," said his mother.
"Only the one you put me up to,
ma," replied her young hopeful.

"Why what do you mean, child?"

"When she asked me if I'd like to
have a second piece of cake I said,
'No, thank you; I've had enough.'"

Nurses Fatal Heroism.

Washington, Jan 7.—Giving her
life as a sacrifice for others, Miss
Mary R. Brown, a trained nurse,
twenty-seven years old, died to-
night in a local hospital. Two weeks
ago she was shot through the left
lung in a fierce struggle to wrest
a revolver from the strong grasp of
Martin L. Sterling, a patient madden-
ed with typhoid fever, whom she
was attending. Thereby she saved
from injury, possibly from death,
several members of Sterling's family,
who stood by helpless while the
brave little nurse grappled with the
temporarily insane man.

For her heroism Miss Brown was
recommended by the commissioners
of the District of Columbia for a Car-
negie medal.

Chapped Hands AND Cold Sores

Are your hands chapped, cracked
or sore? Have you "cold cracks"
which open and bleed when the skin
is drawn tight? Have you a cold
sore, frost bite, chilblains, or a "raw"
place, which at times makes it agony
for you to go about your
