

"the finish" "that endures"

ML Floorglaze

gives woodwork a surface glass-hard, mirror-bright, beautiful, lasting. Fine for floors, because M L Floorglaze can't be marred by boot-heels, castors, nor chair-legs. M L Floorglaze stays glossy; you can wash it with soap and water as you'd wash a window; it doesn't fade; it stays new and bright longer than anything else you get. Easy to put on M L Floorglaze—do it yourself—it dries hard overnight. Renovate with M L Floorglaze.

Recommended for sale by all reliable dealers, including W. F. Dibble & Son, Woodstock and Centerville.

P. A. WATSON

The King Street Carriage Maker,

Wishes to announce that he is building a limited number of **LIGHT and HEAVY WAGGONS**, and guarantees that they will be up to date and finish. Also that he is now ready to receive orders for Painting, Trimming and Jobbing of all kinds at the lowest possible price consistent with first-class work. And we wish to add that Mr. Watson has bought the land and premises that he now occupies and has built a large blacksmith shop in the rear of the building formerly used for that purpose and intends adding another story to the building facing the street. He has also bought all kinds of machinery adapted to carriage work, which he intends to instal as soon as warm weather will permit. Give him a call and you will be satisfied that you will save time and money by giving him your work.

QUEEN ST.

A. C. DAY, Manager.

The first census taken of New Brunswick was in 1824. Though the Province had been in existence 40 years no general enumeration of its inhabitants had been taken previous to this time. The population in 1824 had a population of 74,176 of whom 1,513 were colored.—Ex.

In its initial stages a cold is a local ailment easily dealt with. But many neglect it and the result is often the development of distressing seizures of the bronchi and lungs that render life miserable for the unhappy victim. As a first aid there is nothing in the handy medicine line so certain in curative results as Bickel's Cough and Croup Syrup, the far-famed remedy for colds and coughs.

MR. CARVELL'S SPEECH

(Continued)

That is the wharf over which Mr O'Leary is doing business, and which he said he would sell for \$2,000. The firm of A & R Loggie are doing business in the same town and are rival merchants except that they are now doing about two-thirds of the business. There was a time when Mr O'Leary was doing practically all the business in Richibucto, and when by some financial arrangement with a New York firm he was able to pay higher prices for supplies than any one else in the town of Richibucto.

I do not know how far Mr O'Leary contributed to it, but unfortunately two and a half or three years ago this firm went to the wall with liabilities of \$2,000,000, and since then the Loggies have been doing the business. They have a wharf half a mile from the sawdust wharf, about a mile from railway facilities, and extending to only about three feet of water, so that it is practically useless for business purposes. They would have better accommodated themselves by extending to their present wharf at an enormous cost, or by another. Seeing in the papers the statement that Mr O'Leary would sell the wharf for \$2,000, they promptly wired me to offer \$2,000 and stating that they would go to \$2,500 if he would sell. I do not think it is necessary to go very far into this matter, but only to what the hon member for York said last evening, I think it is necessary to explain my position. I thought he might have been fair enough to have told the whole story regarding my connection with the transaction. It is in evidence; I made the statement before the committee that I had never before had a letter, a telegram, or a communication of any kind, verbal or written, with this firm in my life; that I had never done business with them or seen them until Andrew Loggie appeared in Ottawa for the purpose of giving evidence in the public accounts committee. They simply sent that telegram to me, knowing that I was a member of the house of commons from the province of New Brunswick. I asked Mr O'Leary in the public accounts committee if he would sell that wharf. I offered him \$2,500 for it, offering my own personal cheque for \$500 to bind the bargain. I did not know that Mr O'Leary would not sell his wharf. I have known Mr O'Leary for many years. I have been on important corporation boards with him; I have had some business relations with him; I believed that he was an honorable man, and when he pledged his oath, as he did on page 36, that

Minister Who Tested Zam-Buk.

Read His Deliberate Opinion!

Rev P F Laugill, "The Manse," Carp, Ont, writes: "Some considerable time ago I began using Zam-Buk with a view of testing it thoroughly. I am troubled with eczema, which is always worse in the early part of winter, and seems to leave me about spring. I tried Zam-Buk immediately my hands started to break out, and am pleased to say that it checked the disease, which is more than I can say for anything I have ever before tried. We now have Zam-Buk in the house continually. The children use it for scratches, cuts, and any skin injury or disease, and I carry a small sample box in my pocket. One evening I happened to look in where an old man had met with an accident a week before, and had lost a finger nail. His wife was dressing the wound. I dressed it with Zam-Buk and left the little sample box with them for the next dressing. I have seen the old gentleman since, and he has now the same high opinion of Zam Buk as myself and my family have.

"On another occasion a farmer called at 'The Manse,' and I noticed a rag on his finger. Enquiring about the injury, I learned that he had somehow taken a piece of flesh off, and the wound had started to fester. He was afraid it would turn to blood-poisoning. I gave him about a third of a box of Zam-Buk and he applied it. A few days later I saw him, and he said 'That's great salve of yours; my finger is now doing fine.'"

This is a Scotchman's opinion; it has taken a good while to convince him, but he wanted to make sure of Zam-Buk's merit before endorsing it. "It is well worth recommending."

This is exactly the kind of testimony we most appreciate. Test Zam-Buk! Don't go by hearsay! You will find it gives the best results in all cases of eczema, ringworm, festering eruptions, piles, cuts, burns, face sores, scurfs, and all skin injuries and diseases. All druggists and stores, 50c box, or from Zam-Buk Co., Toronto, for price, but use cheap and harmful substitutes and imitations.

The Wafer-Lite HAT

Don't try to patch up a lingering cough by experimenting. Take

Allen's Lung Balsam

and relief is certain to follow. Cures the most obstinate coughs, colds, sore throats, or bronchial inflammation.

All dealers. DAVIS & LAWRENCE CO., Montreal.

he would sell this wharf for \$2,000, I believed that he would do so; and I was never more surprised in my life than I was when he refused to sell it to the Loggies for \$2,500. But I learned then that Mr O'Leary was bluffing; I learned that the hon member for York was bluffing; I learned that the property was not of the small value they were trying to make out. Having learned a little later that this property was worth \$7,000 or \$8,000, I did not wonder that Mr O'Leary would not accept my offer of \$2,500. Then Messrs A & R Loggie offered to buy the whole sawdust wharf for \$5,500. I do not propose to read these letters. They are all in the evidence; they will be found on pages 190, 193 and 194. In the first letter the firm of A & R Loggie offered to purchase the sawdust wharf for \$5,500, or \$500 more than the department had paid for it. On page 193 in the answer of the deputy minister, asking if they would be willing to purchase about two-thirds of the wharf. On page 194 is the answer of A & R Loggie to the department, accepting the department's suggestion and offering \$3,500 for the balance of the property described in the deed; with certain conditions attached, one of which was that they should have a free right of way to lay railway tracks across the municipal wharf property and also across the 200 feet strip retained by the department, and that the department made a survey of the property before the transfer was made. I am in a position to state to house that that arrangement has been concluded; so that the result is that the wharf will cost the department only \$1,500.

Mr J D Reid—How much frontage does that leave the government on Water street?

MR CROCKET'S "WEAKNESS" IN FIGURES.

Mr Carvell—Two hundred feet plus the municipal wharf, which is about 120 feet wide, making 320 feet in all. But that strip of 200 feet runs directly along the municipal wharf which the government now owns, and that makes it much more valuable for their purpose than it would be if it stood alone. But the hon member for York, with his suspicious character, not to use a harsher term, says that these Loggies are interested parties, that they had received \$144,000 from the government for dredging. The evidence is that they received \$44,000, but of course, \$100,000 is nothing to the hon member for York when he is discussing the department of public works.

Mr Crockett—The hon gentleman has misquoted my statement. My statement was that the Loggies had received \$44,000 in the fiscal year ending the 31st March, 1908, and the answers given by the minister of public works to questions on the order paper show that in the following year they had claims against the department amounting to \$90,000, and that they had large contracts still continuing.

Mr Carvell—I can only say that my

hon friend did not say so last night. That is what I objected to in my hon friend, that last night there was not anything stated by him correctly in regard to this whole transaction. It is true, he had certain portions of the evidence, but there was not a solitary instance in which he completed it. He always stopped at the critical point, where it might lead to something which would militate against the argument he was making. I do not care how much Messrs A & R Loggie have received or are going to receive from the government. They are contractors with the government, and honest contractors. The contracts they have received only after due advertisement by public tender; but my hon friend, in trying to besmirch the characters of these honorable men last night, said not only that they were contractors with the government, but dishonest contractors.

Mr Crockett—I must rise to a point of order. I did not make any such statement. I said that they received some contracts from the Minister of Public Works, and that the Minister of Public Works had illegally awarded the contracts.

A VICIOUS STATEMENT.

Mr Carvell—I am willing to accept my honorable friend's version; I think he is putting it better than I did, that is, he has made a more vicious statement than I attributed to him. He is now charging the Minister of Public Works with crookedness, while my statement was that his charge was only against the Loggies. As he has corrected his statement, he has given the reason. He tried to make this House believe that the Loggies were unworthy of belief, because they were interested witnesses. I want to tell my honorable friend, and he knows it, that these men have never done a dollar's worth of work for the Department of Public Works except by fair contract after public tender advertised in the newspapers. They have had three or four contracts simply because they were in every case the lowest tenderers, and they got the contracts in the ordinary course of business. The only exception is a contract for a little dredging done at the town of Bathurst in the fall of 1908. In October or November of that year, authority was given to the department to have a little dredging work done at Bathurst. I do not know the exact amount, but it was under \$5,000. The Messrs Loggie had a contract for dredging at Caraqueet at 41 cents per cubic yard, and another contract for dredging at Dalhousie at 50 cents per cubic yard. Bathurst is somewhere between these two points and they were asked by the department to tow their plant from Caraqueet to Bathurst, but instead of giving them the higher price, which they were getting for the Dalhousie work, they only gave them 41 cents per yard, the same as they received at Caraqueet. If my honorable friends want the people of this country to believe that this is an illegal transaction, then I am willing he should do so, and he can take all the glory he can. (Continued on page three.)

Spasmodic Pains in Arms and Chest

A Common Ailment from which Many Are Suffering Just Now.

TELLS HOW TO CURE.

These pains come on very suddenly and while they last the pain is excruciatingly severe. Sufferers are attacked suddenly with a violent pain in and around the chest, extending often to the shoulder and running down to the ends of the fingers. Often the chest is so much contracted to give very painful feelings of suffocation.

To remove these pains nothing is known to act so rapidly as NERVILINE. Rub it on the chest, shoulders and other affected parts—rub it in well, and take in hot sweetened water four times daily about twenty drops of NERVILINE. Follow this very simple and safe treatment and you'll find that not a ache or pain in any part of the body will remain. It's the pain-subduing, penetrating power of NERVILINE that makes it so far superior to all other liniments. In chronic Rheumatism, Sciatica, Lumbago of long standing NERVILINE gives quick relief—cures when hope seems lost.

You'll find a hundred uses for a trusty medicine like NERVILINE—even for toothache, earache, stiff neck, colds, coughs and other simple ills which it cures so quickly, it should be in every home.

Beware of the unscrupulous dealer that tries to palm off something that pays him a larger profit. Insist on getting "NERVILINE" only. Large 25c bottles at all dealers.

There may be other corn cures, but Halloway's Corn Cure stands at the head of the list so far as results are concerned.

Victor Herbert works and plays for the Edison Phonograph

Victor Herbert has written some of the most popular music produced by an American composer. The Edison Phonograph makes the best of it available for you.

Victor Herbert has trained one of the best orchestras in this country. Its music is reproduced upon Edison Records.

Victor Herbert is musical adviser to the National Phonograph Company. No other sound reproducing machine has the advice of so distinguished a musician as Mr. Herbert.

This is just one of the many things which Mr. Edison is doing to make the Phonograph the most perfect music reproducing machine in the world. You can enjoy it at an expense so small that you cannot afford long to hesitate. Hear the Edison Phonograph today. Hear it play Amberol Records; hear it play Victor Herbert's music, and then you will know why Mr. Edison said "I want to see an Edison Phonograph in every home."

Edison Phonographs - \$15.50 to \$182.50
Edison Standard Records - 4c
Edison Amberol Records (twice as long) - 6c
Edison Grand Opera Records - 8c

There are Edison dealers everywhere. Go to the nearest and hear the Edison Phonograph play both Edison Standard and Amberol Records. Get complete catalogs from your dealer or from us.
