

HER DEATH WAS HOURLY EXPECTED

Enterprise, Ont., Oct. 1st, 1908.
"For seven years I suffered with what physicians called a 'Water Tumor.' I could neither sit, stand, nor lie down. Hypodermics of morphia had to be given me to ease the pain."

MRS. JAMES FENWICK

My cure seemed hopeless, and my friends hourly expected my death. I was so bad that I wanted to die, and it was during one of these very bad spells that a family friend brought a box of "Fruit-a-tives" to the house. After much persuasion I commenced to take them, but it was so bad that it was only when I had taken nearly two boxes that I commenced to experience relief. I kept up the treatment, however, and after taking five boxes I was cured, and when I appeared on the street my friends said, "The dead has come to life," and this seemed literally true, because I certainly was at death's door."

(Signed) MRS. JAMES FENWICK.

ENGLAND DREADS A NATIVE RISING IN INDIA

Occidental Wisdom Proves No Match for Oriental Secrecy.

MURDER FOLLOWS MURDER

Government Cannot Find New Indian Viceroy—Post May Be Given to Lord Macdonnell.

It is now an open secret that the British government is at its wits' end as to appointment of a new Viceroy to India. The situation there is causing the ministers the deepest concern. Sedition continues to spread. At any moment the cry of "India for the Indians" may be raised, it is feared.

At such a moment the government here is finding the utmost difficulty in getting the right sort of man to send out as Viceroy.

Every one in authority here is now beginning to recognize that the Oriental terrorist organization is not amenable to Occidental repressive measures, and also that Occidental wisdom is incapable of combating Oriental secrecy and tracking to its fountain source the heads and inspirers of the movement. The position is most serious.

The series of murders of officials that has taken place is believed to have been decreed by the chief Brahmins. The cleverest detectives are helpless when they attempt to discover the prime mover.

All that can be discovered is the decidedly unpleasant certainty that any of the head Brahmins has only to call for volunteers to have hundreds of others from Indians ready to commit the most dastardly murder of a British official and do it with feelings of exultation and glory.

For to these men to kill an obnoxious British official is not a crime; it is a service to their race. It is far more to them than storming some deadly breach in the heat of battle is to the British soldier. For the Indian readily gives up his own life to accomplish his end. He believes that such a death takes him straight to heaven.

No organization could be more perfect than that of these Brahmins. It is complete. It is thorough. At the same time it is impalpable.

REAL CONSPIRATORS UNPUNISHED.
Compelled to make examples, the Indian government has not been able to reach any of the real conspirators, but only the comparatively harmless agitators who make speeches and write pamphlets and are only too willing to sacrifice their lives to shield those above them.

Their system of news carrying is amazing. It is all done now by word of mouth. Signals are no longer trusted. Yet no event happens anywhere but it is known everywhere almost at once. And the Indian maintains his stolid appearance, and no one seems to know anything—or even speak to anybody.

Much of the present trouble is but the harvest of the rule of Lord Curzon. Much, however, is also due to the "Asia for the Asiatics" movement, which has been going on quietly and surely for some few years, and which is not overwhelmingly strong simply because of its magnitude.

Lord Minto, whose life has now been attempted several times, despite the strong guard that always surrounds him, wants to retire. The government has had to appeal to him to remain yet a while longer at his dangerous post, because it cannot get a successor.

The Earl of Dudley, who was the first Governor General of the Commonwealth of Australia, which difficult position he carried through with success, and was extremely popular with the Irish when Viceroy of Ireland previously, has been offered the Indian post. But he has refused to go on the ground that his wife is bitterly opposed to his further absence from England, since both his and her health suffered. The Duchess was ill during much of her stay in Australia and had to return on that account.

MACDONNELL MAY BE CHOSEN.
It is believed now that well informed circles that the Indian Viceroyalty will be offered to Lord Macdonnell. Lord Macdonnell was recently Under Secretary for Ireland. But his autocratic methods acquired during his long, distinguished career in the Indian civil service rendered him impossible among the Irish.

If Lord Macdonnell becomes Viceroy it will be the first instance of an official rising from the ranks to the highest post outside England in the gift of the Crown.

There is one point strongly in Lord Macdonnell's favor. He is popular with natives of India because he was always an enemy of official arrogance and was very much opposed to Lord Curzon's partition of Bengal, an act which set Brahmins against Mohammedans and was one of the roots of the present troubles.

A Loyal Heart.

Oh, give us the man that is true,
And give us the man that is brave,
The man who is honest clear through
Whatever his heart may crave;
For a loyal heart
Is a royal heart
And the most precious thing in the world.

Oh, give us the woman that's true,
And give us the woman that's pure,
Whom the heaven-born ties still
bind,
Whatever may come to lure;
For a loyal heart
Is a royal heart
And the most precious thing in the world.

Oh, give us the boy or the girl
Who never will utter a lie,
Whose heart is as pure as a pearl
Too precious for gold to buy;
For a loyal heart
Is a royal heart
And the most precious thing in the world.

Who the paths of deceit never trod,
Whatever the gain might seem,
Oh, such are the children of God,
And they will the earth redeem;
For a loyal heart
Is a royal heart
And the most precious thing in the world.

The temperance party in St. John, officially known as the New Brunswick Temperance Federation, seeks to have the local government deal with the St. John liquor license commissioners, and asks their removal from office. This urgent request is made upon the plea that the commissioners have ignored the protest of Evangelical alliance and numerous citizens. St. John's liquor license regulations have undergone some reform of late, including the abolition of the secretive screen, and the adoption of closing on Saturday, and all day on public holidays; also an arrangement whereby the city may pronounce at civic elections upon license or prohibition in any particular ward.

The establishment of a fire dispensary by the Anti-Tuberculosis Association in this city is an important move in the struggle against the "white plague." The expense of maintaining this philanthropy will be borne by the association and local medical men will render their services free. A recent report brought in by interested parties strongly advocates the erection of a sanitarium either at Anagance on the I C R, or Welsford on the C P R, both ideal for a hospital of this kind.

VALLEY DOESN'T WANT THE C. P. R.

Public Meeting at Hawkshaw Cheers Sir Wilfrid's Letter To Carvell.

Southampton, Feb. 6.—A rousing meeting in favor of the St. John Valley railway was held on Saturday night in the Pokiook hall, Hawkshaw, at which hundreds were present from the surrounding territories.

A resolution was passed favoring construction of the road but demanding that it be not built or controlled by the C. P. R., on account of the high rates. The meeting favored operation by the Federal government as part of the I C R.

Sir Wilfrid Laurier's letter to Mr. Carvell was read and most heartily applauded.

George F. Burden, ex-M. P. P., was in the chair. Among the speakers were John Anderson, ex-M. P. P.; W. B. Cronkite, president of the Southampton Board of Trade; N. W. Brown, Alex. Sharpe, Dr. Coffin, Frank Brown, A. W. Fleming, H. L. Morse, and Gordon A. Grant.

DON'T WANT THE C. P. R.

The meeting was highly enthusiastic and unanimous. Several speakers dwelt upon the necessity for avoiding company control of the railway, and gave examples of the difference in rates over the C. P. R. and I C R, the showing being very strongly in favor of the government road. The resolution made the views of the meeting clear on this point. The Valley wants competitive rates and operation—not monopoly rates and operation by a private company.

The following delegates were chosen to go to Fredericton during the session and press the views of the meeting upon the government: George F. Burden, Dr. Coffin, G. W. Grant, George P. Stairs and Joseph Rosborough. Mr. Burden is to be spokesman.

A board of trade was organized for Hawkshaw with Mr. Bu den as president, and the following vice presidents representing their respective districts: Job Anderson, Harry Moore, Joseph Rosborough, D. M. Carson, George P. Stairs, G. W. Grant, A. M. Sharpe.

A hearty vote of thanks was tendered the men who drove in from other places, including B. W. Akery, G. A. Grant, N. W. Brown, W. S. Cronkite, Counsellor Grant, W. S. Tompkins, and others from Southampton, Meductic and Shogomoc.

A public meeting in furtherance of the Valley road will be held at Bear Island next Saturday night.

Mayor Chestnut of Fredericton and A. R. Slipp, M. P. P., will speak at another meeting at Southampton, probably a week from Friday next.

Like the other Valley meetings that at Pokiook hall was a gathering of men who believe the railway is coming, but who will unite in making trouble for all hands concerned if there is undue delay or undue dealing.

An indication of how St. John is shaping along commercial lines within its own limits is given in a recent shuffle of prominent business houses. One corner block changed hands unexpectedly after almost two generations as a dry-goods concern. The stampede for choice business sites that followed has made history and wiped out landmarks. Important additions have been made to the premises of leading concerns and extra warehouses have been engaged. Plans are also in preparation for a re-constructed theatre. Several expensive residences are about ready for occupancy. The large Y. M. C. A. structure and Seamans mission are recent acquisitions.

Convalescents from fevers and injuries that have kept their bed ridden for some time and all people run-down and below par generally will find a course of treatment with Ferrovin, the invigorating tonic just the thing to put them on their feet again in good shape. Ferrovin is composed of fresh lean beef, Citrate of Iron and Pure Old Spanish Sherry Wine. \$1.00 per bottle.

Seeing the wind is a rare but easy feat. The object wherewith it may be seen is a common saw. On any blowy day—the wind being, say, in the north—hold your saw with its ends pointing, one to the east, the other to the west. Take the saw as if you were going to cut the air upward, and let the teeth, which are on top, tilt over till the flat part of the saw is at an angle of forty-five degrees with the horizon. You will then see the wind. Looking along the teeth of the saw you will see the wind pour over them as plainly as you may see water pouring over a fall.

UNION BLEND TEA

the Tea that satisfies

THE best customers I have are people who simply cannot learn to like ordinary tea—they find in Union Blend a richness and delicacy coupled with a strength that other teas do not even approach.

They gladly pay the price—forty cents a pound—because they realize it is tea economy. It is economy, because it goes half as far again as ordinary tea; indeed, being unaccustomed to its strength, most people make it too strong at first. Then, they learn that a little Union Blend makes more tea and makes it far better than can be made from a good deal of the common kind.

Go to your grocer and get a pound packet of Union Blend—be sure my picture is on the end—and try it for yourself. One single pound carries conviction.

Union Blend one pound packets—the pound packets only—contain coupons that are worth money to you. But this is only an advertisement—the tea itself is worth the price, fully.

40¢

TRY EVEN A HALF POUND

THERE is only one way for you to prove that Union Blend Tea is all I claim—better than other teas. Try it. If it is not up to your expectations, I stand to lose more than you do. For my advertising can only induce you to try it once—can only introduce Union Blend to you; after that, its own quality must continue to sell it. Yet I am not only willing but anxious to risk the test—will you give me the chance? Go to your grocer, get a single pound—or a half pound if you prefer—and I shall be perfectly satisfied to accept your decision.
