After the Mission Band social on Friday evening last some mischievous boys did quite a lot of damage to the school rooms breaking a black board etc. We

have been obliged to drop our annual Sunday School picnic out because of this trouble and it seems rather hard that all school life must be brought to a close for we all agree that certain amount of social intercourse is necessary before we can really make the more spiritual part of our Sunday School attractive to the younger set whose interest we have very much at heart.

We are pleased to welcome our School Teacher, C S Ingraham, back and wish him great success in his work here as this school requires a firm hand.

We are sorry to know that Mrs Frank Burpee is not enjoying very good health this winter.

A REMARKABLE CASE OF DECEPTION

An amusing anecdote illustrating the way in which visitors to the museum of Ontario Agricultural College at Guelph are deceived by the wax models of fruit and vegetables shown there, is related by U Jean Wynn, in her article on "Counterfeiting Canadian Fruits," in the January Busy Man's. She gives it in the words of the attendant who had the experience.

"One day, while working in the museum a party of young people came in, and after looking around for a few minutes they came over to me and one of the girls said, 'Where did all this fruit come from this time of year? Was it sent from the south?'

I answered, 'No we have had it for some time.' 'But' the incredulous young lady queried, 'how is it preserved for such a length of time, it all looks so fresh?'

'We make it here' it is all wax,' I replied. She gave a look of scorn, and turning to her companions said, 'Isn't she smart? She thinks we are green.' They turned away, talking to one another and casting glances at me. In a few minutes they all came hurrying back with triumphant smiles and looks, make me tell the truth as they supposed. The same young woman said 'You tried to make us believe this fruit was wax, and there is an apple half rotten over there and was don't rot?'

I explained that it was just a representation but they evidently a persistent story-teller, for they walked scornfully away. As they went I heard her remark, 'I wish we could find out how they preserve these fruits, for she won't tell us.'

Chosen Friends.

The name "Chosen Friends" is very rapidly becoming a well-known word in all the homes of New Brunswick. During the year 1909 which has just ended, nineteen new Councils have been started and in all sections the Order seems to be giving perfect satisfaction as the Organizers have yet to hear the first complaint from a dissatisfied member.

We state with regret that three of our members in New Brunswick last year passed to the Great Beyond. The deceased members are N Foste Thorne, late Mayor of Woodstock, C B Rouleau, M D, of Grand Falls, and H R Everett, of Andover.

Prospects are looking good for the advancement of the Order during 1910 and we trust at the end of the year to give even a better account than now of the work.

North Shore Railway is Nearing Completion.

Campbellton, Dec. 4.—Mr. Thomas Malcolm, of the International Railway, is making a determined effort to complete as much of the International Railway as possible this fall. At the present time there are one thousand men employed grading at St Leonard's end, about thirty miles having to be completed, on which much work has been done.

The long continued rain of the past three months has delayed operations very much, the contractor expecting to have had this work done before Nov 15th.

Already eight miles of road are in operation and large quantities of freight are being hauled over the road. This freight is principally for the lumber operations along the new road which is opening up fine lumber and farming country.

Meditation.

Both political parties of this village and vicinity, have united to form a Meditative Board of Trade.

The objects of this organization are the promotion of the St John Valley Railway, and the development of the St John Valley.

In laying aside petty party strife this community has advanced a step in the right direction.

If the people of the St John Valley want a railway, they must ask for it, not in the voice of a weakling, but in one mighty chorus.

Following is a list of officers, Geo P Oils, President; Geo McCloskey, First Vice President; H M Edwards, Second Vice President; Coun Gordon O Grant, Third Vice President; Coun H B Scott, Fourth Vice President; J E Porter, Reporter; Geo L Porter, Secretary; J C Porter, Treasurer.

The following resolution was passed: Resolved that this board of trade do protest the government granting any bonds to build a spur line from Millville to the St John River, as we believe it will be detrimental to the interests of the St John Valley.
