

Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a hollow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine of known composition and with a record of 40 years of cures. Accept no substitute—there is nothing "just as good." Ask your neighbors.

A henyard full of snow fell last night and today the wind is cross-piling it. A good many of the moon-struck natives prophesied very little snow, but I guess two things we are sure of in this country are snow and taxes.

MORE PINKHAM CURES

Added to the Long List due to This Famous Remedy.

Glanford Station, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound for years and never found any medicine to compare with it. I had ulcers and falling of the uterus, and doctors did me no good. I suffered dreadfully until I began taking your medicine. It has also helped other women to whom I have recommended it."—Mrs. HENRY CLARK, Glanford Station, Ontario.

Gardiner, Me.—"I was a great sufferer from a female disease. The doctor said I would have to go to the hospital for an operation, but Lydia E. Pinkham's Vegetable Compound completely cured me in three months."—Mrs. S. A. WILLIAMS, R. F. D. No. 14, Box 39, Gardiner, Maine.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female ills, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, indigestion, dizziness, and nervous prostration. It costs but a trifle to try it, and the result is worth millions to many suffering women.

If you want special advice write or to Mrs. Pinkham, Lynn, Mass. It is free and always helpful.

New Health and Strength for Weak and Ailing Girls

Can Be Had Through the Rich, Red Blood Made by Dr. Williams' Pink Pills for Pale People.

There comes a time in the life of almost every girl when sickness attacks her. The strain upon her blood supply is too great, and there comes headaches and backaches, loss of appetite, attacks of dizziness and heart palpitation, and a general tendency to a decline. The only thing that can promptly and speedily cure these troubles is Dr. Williams' Pink Pills. This is the only medicine that actually makes new, rich, red blood, and a plentiful supply of rich blood is the one thing needed to maintain the health of growing girls and women of mature years. The truth of this statement is proved in the case of Miss Esther E. Sproule, Truemanville, N. S., who says: "At the age of sixteen years I left my country home to attend high school. The close confinement and long hours of study nearly broke me down. My blood supply seemed to be deficient, and I grew pale and de-

pressed. I was dizzy nearly all the time, and pimples broke out on my face. I was altogether in a miserable condition and it seemed impossible for me to continue my studies unless I found a speedy cure. I tried several tonics prescribed by the doctor, but they proved useless. My mother urged me to try Dr. Williams' Pink Pills. I finally consented to do so. I had hardly finished the second box before a change for the better took place, and the use of a few boxes more fully restored my health, and I feel that I cannot say too much in favor of Dr. Williams' Pink Pills and I strongly recommend them to other ailing girls."

You can get these Pills from any medicine dealer or by mail at 50c a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

PUT IT CLEARLY.

(M. A. P.)

Lord Hardwicke spent ten of his early years in America, engaged in mining engineering. As a fact, he knows almost every inch of ground in that continent.

Of these days his lordship tells a delightful yarn of how he once chanced upon a resident of a sleepy hamlet down south.

"Are you a native of this place?" asked Lord Hardwicke, striking up a conversation.

"Am I what?" exclaimed the other languidly.

The question was repeated.

"What's that?"

"Native—native of this place?"

At this moment there appeared at the open door of the cabin the man's wife.

Closely surveying Lord Hardwicke, she observed: "Ain't you got no sense, Bill? He means was you livin' here when you was born, or was you born before you was livin' here? Now, tell him."

A SURE CORRECTIVE OF FLATULENCE.—When the undigested food lies in the stomach it throws off gases causing pain and oppression in the stomachic region. The belching or eructation of these gases is offensive and the only way to prevent them is to restore to healthy action, Parnellee Vegetable will do this. Simple directions go with each packet and a course of them taken systematically will be certain to effect a cure.

THE FEAR OF INDIGESTION.—Indigestion is a common ailment and few are free from it. It is a most distressing complaint and often the suffering attending it is most severe. The very best remedy is Parnellee's Vegetable Pills taken according to directions. They rectify the irregular action of the stomach to proper action. For many years they have been a standard remedy for dyspepsia and indigestion and are highly esteemed for their qualities.

The Civil Sabbath and Lord's Day Legislation.

The "Canadian Publishing Association" has issued the first number of "The Dominion Sentinel," while it announces that "it is not published in the interest of any class whatsoever," yet every signed article is the product of a Seventh Day Adventist preacher or leader, and all its 48 pages are devoted to earnest explanations and exposition of the views of that body concerning Lord's Day Legislation. Many times have we obtained the publications of Seventh Day Adventists, and whether books, pamphlets, periodicals, or leaflets, they were without exception declared to be published by some association the name of which would never suggest the society in whose interest the publication was issued. Very clearly this Journal is issued in the interest of the people who are opposed to all legislation in regard to the Lord's Day.

Again and again in its 48 pages the writers declare that Lord's Day legislation in general, and the Lord's Day Act of Canada, in particular, is religious legislation. It is said to be an effort to "enforce the tea commandments by law," "a purpose to bring about a strict (religious) observance of the Lord's Day, by law," a law "enacted under the plea to benefit man, often used to oppress him," &c., &c. Yet in the whole 48 pages there is not named one section, sub-section, or clause of the Lord's Day Act that proves the charge that it is religious, or that in any way substantiates the specious charges of these Seventh Day Adventist writers.

The fact is that the Lord's Day Act nowhere seeks to enforce religion. Its single purpose is to preserve the civil right of citizens throughout the Dominion to that day as their weekly day of rest. When the fact was before the Canadian Parliament in 1906, for enactment, an effort was made by Seventh Day Adventists, and other Saturday Sabbath Keepers, to secure an amendment which was of a purely religious character. In fact the only effort to secure religious legislation in connection with the Lord's Day Act was promulgated by the Saturday Sabbath Keepers.

Much emphasis is given in this "Sentinel" to the right of liberty of conscience, and to worship as each person chooses. On the front page and in several other places Queen Victoria's well known words are quoted, and enforced: "Firmly relying on the pleasure, that none be in any wise favored, none molested, or disquieted by reason of their religious faith or observances." This right and liberty to worship in peace is guaranteed throughout the empire by Act of Parliament. In this Dominion, R. S. C., 1906, Cap 149, sec 198 to 201, safeguard the civil right of every citizen to the practice in quietness and without interference of any religious rite or ceremony, according to the conscience of that citizen. This legislation, dealing directly with religion and religious worship, is accepted, acted upon, and by implication, highly commended in every article in this paper.

This writer, however, most frequently insists that the Sabbath is only, always, and singly a religious institution; and that at no time, nor under any circumstances is the Sabbath civil in its character. Yet the Sabbath has always been civil as well as religious. The same command which says, "Remember the Sabbath day to keep it holy;" also commands that the day shall be a day of rest, when neither thou, nor thy wife, nor thy son, nor thy daughter, nor thy manservant, nor thy maidservant, nor thy cattle, nor thy stranger that is within thy gate, shall do any work. It is truly civil as well as religious. A Sabbath law is a six day law, kindred to an eight hour law, the first protecting the weekly rest after six days of labor, and the other protecting the daily rest after eight hours of labor. In both cases, "the liberty of rest for each, demands the law of rest for all."

The civil character of Sunday laws is well stated by the Supreme Court of New York, in a recent case.

"As a civil institution it (the Sabbath) is older than the government.

The farmers of the first constitution found it in existence; they recognized it in their acts. The stability of government, the welfare of the subject, and the interests of society have made it necessary that the day of rest observed by the people of a nation be uniform, and that its observance should be to some extent compulsory, not by way of enforcing the conscience of those upon whom the law operates, but by way of protecting those who desire and are entitled to the day.

"The Christian Sabbath, as one of the institutions of religion, may be protected from desecration by such laws as the Legislature, in their wisdom, may deem necessary to secure to the community the privilege of undisturbed worship, and to the day itself that outward respect and observance which may be deemed essential to the peace and good order of society, and to preserve re-

I have heard it, scores of times, and it's one of the reasons that made me decide to go into the Coffee business.

ligion and its ordinances from open reviling contempt, and this not as a duty to God, but as a duty to society and the State."

It is necessary that the purpose of the Lord's Day Act and the aim of the Lord's Day Alliance be clearly understood by the people. Hence the statements of the "Sentinel" should be corrected, and the object of its publication distinctly made known.

PAINTING a roof is work. Buying the paint is expensive. Both are needless if your roof is Amatite.

When you finish laying Amatite, take away your ladder, pick up your hammer and knife, go away and leave the roof to take care of itself. A few years later you may go back and look at it if you care to, but it won't be necessary, and there won't be anything to do.

This is due to the fact that Amatite has a real mineral surface—a surface that is too strong to need protection—too durable to require painting.

If you buy one of the smooth surfaced roofings you will have to paint it every two or three years to keep it from leaking. In fact, such roofs depend on the paint almost entirely for their waterproofing qualities.

Amatite on the other hand depends for its waterproofing upon double layers of Coal Tar Fitch, —the greatest known enemy to water.

Amatite comes in rolls of 170 square feet ready to lay. No special tools are required, and anyone can lay it properly.

A Sample of Amatite will be forwarded free on request. Send for it and see how much better it is than the kind which requires painting to keep tight.
