Howard White, who broke out of jail at Presque Isle Thursday night, is said to have been traced to this town, where he crossed the boundary line to New Brunswick. It is not often we have the chance to hear a man from Chicago, especially one who stands so high in his own denomination as the Rev. O. R. Jenks, who will preach next Sunday afternoon at three o'clock. This will give many a chance to hear him without leaving their own services. He will also conduct the service in the evening at the usual hour in the Advent Church on Maple Street. All invited.

The Dr. Miles Medical Co., of Elkhart, Indiana, has established a Canadian Laboratory at Toronto. This firm, whose advertising will appear regularly in our columns, has been in business in the States for 30 years, and their line is known wherever there is a drug store.

For the convenience of their many patrons in Canada, and to satisfy the rapidly growing demand for their goods (though never before advertised in the Dominion) the Canadian Laboratory has been established.

While in no manner responsible for specific statements appearing in our advertising columns, we believe the Dr. Miles Medical Co., of Toronto, is entitled to that large share of our confidence of the trade and public, which they enjoy in the States.

Do You Still Paint Your Roofs?

Thousands of farmers still count the cost of painting their ready roofings as a necessary part of their annual expense. Many of them are making trouble for themselves in the future by laying roofs which require constant attention.

There is a modern and better way of treating the roofing problem.

Amatite Roofing has come upon the market during the last few years and has proven a success. Amatite is like any other ready roofing (sold in rolls with nails and cement free, etc., ready to lay), except that it has a mineral surface which needs no painting.

It is just as easy to lay Amatite as any other roofing and just as cheap. The difference is that after you have laid your Amatite roof, you can leave it alone. The mineral surface is thoroughly durable and requires no painting.

If you do not know about Amatite, we advise you to investigate it. You can get a booklet about it and a free sample by simply addressing the nearest office of the Carritte-Paterson Mfg. Co., Ltd. St. John, N. B. Halifax, N. S.
