ONE ON THE EDITOR.

A Kansas editor tried the experiment of telling the unvarnished truth in his journal for one week. He did not get beyond the first day. This item appeared Monday: "Married, Miss Sylvia Rhodes to James Cannahan last Sunday evening at the Baptist Church. The bride was an ordinary town girl, who don't know any more than a rabbit about cooking and never helped her mother three days in her life. She is not a beauty by any means and has a gait like a duck. The bridegroom is an up-to-date loafer, and has been living off the old folks all his life, and don't amount to chucks, anyhow. They will have a hard life while they live together." The editor is still in the hospital.

THE POOR MAN'S FRIEND.—Put up in small bottles that are easily portable and sold for a very small sum, Dr. Thomas' Electric Oil possesses more power in concentrated form than one hundred times the quantity of many ointments. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

Proper attention to the hair and scalp is the best preventive of baldness. An occasional application of Bearine Hair Pomade keeps the scalp in healthy condition. It nourishes the hair follicles and supplements the natural oil of the head. Bearine not only prevents falling hair but stimulates new growth. 50 cts a jar at your druggists.

Semi-Steel Fire-Pot—Not Gray Iron

A FIRE-POT of a furnace should be able to endure tremendous heat and to repel the attacks of sulphur fumes.

The material commonly used for a fire-pot is gray iron. The Sunshine fire-pot is Semi-Steel.

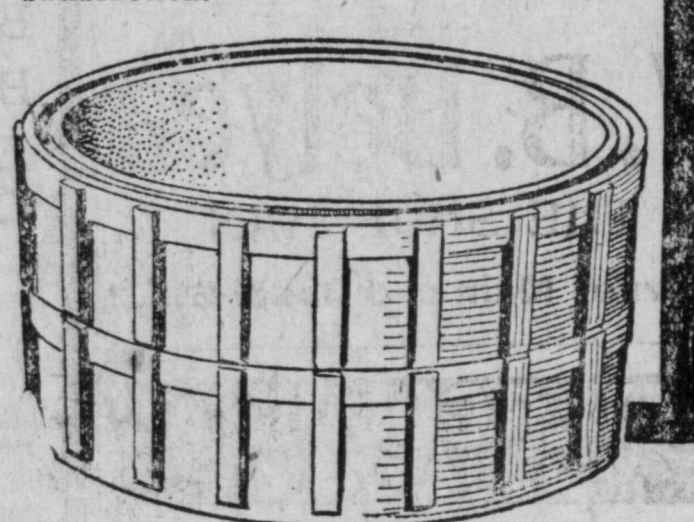

New, avoiding technical terms, gray iron has what may be called "open" pores. Through these "open" pores the destructive sulphur fumes attack the iron and hasten disintegration.

On the other hand, Semi-Steel is a close-grained material, with a smooth-as-glass surface which practically seals or "closes" up the pores. Semi-Steel easily repels the attacks of gas fumes and thus greatly prolongs the life of the fire-pot.

A Semi-Steel fire-pot weighs 20 per cent. heavier than the same size and pattern in gray iron. It is therefore better able to endure tremendous heat.

Semi-Steel is made by an exclusive McClary process. You can only get a Semi-Steel fire-pot with a McClary furnace. That is one strong reason why you should have

the Sunshine installed in your home. Our agent in your locality will tell you many other reasons. Ask him. Remember, the Sunshine is guaranteed, by the largest makers of furnaces in British Empire, to heat your home to your entire satisfaction.

Value of the Preference

There are those in this country who are constantly asserting that the British Preference is of practically no value. That certainly is not the opinion of the farmers of the west and it is not the opinion of the political leaders in the Old Country, who, in a recent debate in the British House of Commons—a report of which we print in another column today—have borne testimony to its value in promoting British trade with the Dominion. Mr. Buxton, President of the Board of Trade, in reply to a question in the House of Commons, stated that the exports of British goods to Canada had increased 183 per cent. since the adoption of the Preference, and Mr. Bonar Law, the foremost advocate of Tariff Reform, declared the other day that all people in the Mother Country, on whichever side of politics, owed a deep debt of gratitude to Sir Wilfrid Laurier and his Minister of Finance, for having been the first to support the principle by which the Colonies grant an abatement of their tariffs to British goods. Both parties, then, are ready to acknowledge the value of the Preference. Sir Wilfrid Laurier has made it plain, in the series of speeches delivered in the West, that the Liberal Party in Canada stands first, last and all the time for the British Preference, and it need hardly be added that no matter what trade policy Great Britain or Canada may adopt in relation to foreign nations, Canada will always reserve to herself the most ample freedom to continue her preference to Great Britain or even to increase it, as conditions may demand.—Chronicle

ST JOHN EXHIBITION SPECIAL EXCURSIONS

C. P. R., D. A. R. and Steamship Lines make Great Rate Concessions

That the Dominion Exhibition in St. John will be well attended—indeed to the record-breaking point—is indicated by the specially low rates already announced by the various transportation companies. It is estimated fully 100,000 people will visit the Fair buildings and that a large proportion of this great army will be strangers to the city. The Exhibition Association has made a thorough canvas of the city of St. John, having secured by this means a well organized system of boarding and lodging accommodations in addition to the facilities of the various hotels.

The Intercolonial Railway will issue first-class one-way fares for the round trip from the 7th to the 14th of September, good until the day after the Fair closes. This applies to the Province of New Brunswick. From Nova Scotia and Cape Breton there will be five dates of issue, September 2, 5, 7, 9 and 12. From the Province of Quebec, starting at Point Levis and coming east, September 1, 5, 7, 9 and 12. In addition to the above, the I. C. R. will have a series of special excursions, as follows: From New Brunswick stations each day during the Exhibition at two-thirds first class one-way fare for the round trip, allowing a full day in St. John. This same plan of excursion rate will be issued in Nova Scotia and Cape Breton with the time limit the 16th, and from the Province of Quebec on the 6th and 12th, time limit 16th. Two grand special excursions trains from Amherst and territory have been set down for September 9th and 12th, returning on special train only at a round trip fare of one-half first-class one-way fare. There will be special low fares by regular train from the territory north of Moncton, also from the Point du Chene branch, dates of issue September 9 and 12, and 12 and 14 respectively, good to return until the 16th and 12th respectively.

The Canadian Pacific Railway will issue single fare rates on Sunday, Tuesday and Thursday, September 4, 6 and 8, from points in Canada west of Montreal to and including Fort William and at special excursion fare Monday and Wednesday, September 5th and 7th. From Montreal and stations east of Montreal, to and including Quebec and Megantic, single fare for the round trip on September 5th, 7th, 8th and 10th, and special excursion fare on September 6th, 9th and 11th. All these tickets good to return September 18th. From points west of Montreal special fares will be computed on a basis of adding two-thirds fare plus 25 cents to \$9.80 from Montreal. From C. P. R. points in New Brunswick and State of Maine single rate tickets for return fare will be issued September 3rd to 14th inclusive, time limit the 16th. Specially low rates will be issued from Fredericton-St. John points, Houlton, St. Andrews, St. Stephen, Vanceboro and Woodstock sections, also from Brownville and Moosehead sections, the Aroostook branch, Edmonston, Gibson, Northern section and Tobique.

The Eastern Steamship Company coastwise from Boston will issue \$6.00 return fares, as well as the D. A. R. bay service and railway line.

A SAFE PILLS FOR SUFFERING WOMEN.—The secluded life of women which permits of little healthful exercise is a fruitful cause of derangements of the stomach and liver and is accountable for the pains and lassitude that so many of them experience. Farnell's Vegetable Pills will correct irregularities of the digestive organs and restore health and vigor. The most delicate woman can use them with safety, because their action, while effective, is mild and soothing.

Death of a Survivor of Lincoln's Time

New York, Aug. 11th.—The death at Mount Vernon of John B. Allan, marks the passing of one of the noted political characters of his day. He played an unusual part in the nomination of Abraham Lincoln for president, in breaking away from the New York delegation, casting a single vote for Lincoln and turning the tide toward the emancipator.

A PILLS THAT LIGHTENS LIFE.—To the man who is a victim of indigestion the transaction of business becomes an added misery. He cannot concentrate his mind upon his tasks and loss of vacation attend him. To such a man Farnell's Vegetable Pills offer relief. A course of treatment, according to directions, will convince him of their great excellence. They are confidently recommended because they will do all that is claimed for them.

Judge Carleton and M. J. Butler, C. M. G., Deliver Lectures.

On Thursday evening last, Judge Carleton entertained a large and appreciative audience at St. Francis Xavier's College, when he delivered his most entertaining lecture on "Irish Wit and Humor" before the summer school. Notwithstanding the warm weather Judge Carleton's audience was the greatest that has gathered in the College since the opening of the present Summer Session. The learned judge is a very pleasing speaker, has excellent command of language, and is apparently a trained, and practiced elocutionist. This was Judge Carleton's first visit to Antigonish, and the people of our town hope it will not be the last. He may certainly expect another invitation at an early date. On the following evening M. J. Butler, C. M. G., General Manager of the Dominion coal and steel corporation, was the special lecturer. Although the subject, "Transportation Problems of Canada," was very different from that of the preceding evening, it became very interesting and instructive as handled by Mr. Butler. He has the Transportation Problem in all its phases at his fingers' ends, and we venture to say that at many points which previously seemed obscure to most of his audience were by him made to appear quite simple and readily intelligible.

A thoroughly appreciative audience followed the lecture from start to finish and had only one regret; viz., that the lecture was somewhat shorter than they wished.—Casket, August 6.

The most amusing feature of the Borden picnic at Truro was Mr. John Stanfield's pathetic lament that the good Tories were compelled to buy a circus ticket to get the benefit of the excursion rates. It certainly was a shabby trick on the part of the Intercolonial Commission, of which Mr. Borden proudly claims to be the father. But what could Tories expect? Wasn't it a circus?—Halifax Echo.

Your Grocer Knows

EVERY good grocer is willing and anxious to please his customers. Sometimes if he happens to be out of the goods you ask for, he may recommend a different brand rather than keep you waiting. But when it comes to flour, he knows that Ogilvie's

Royal Household Flour

is one of the things for which there is no substitute. No other flour is "just as good." Ogilvie's "Royal Household" is in a class distinctly by itself. To offer a substitute for "Royal Household" would be like offering oleomargarine to a customer who wanted prime dairy butter. No good grocer would do it. When you tell him you want Ogilvie's Royal Household Flour, he will send that and nothing else.
