

PLEURO-PNEUMONIA AND BRONCHITIS

Brought Mrs. Baker to Death's Door. Father Morrissey's No. 10 Saved Her.

Of the many hundreds of cures wrought by Father Morrissey's No. 10 (Lung Tonic) few are more remarkable than the saving of the life of Mrs. John S. Baker, of 134 Rockland Road (North End), St. John, N.B. She wrote on Oct. 13, 1909:

"I wish to express my gratitude that I am living to-day, saved from the grave by Father Morrissey's No. 10 (Lung Tonic). This time last year I had pleuro-pneumonia and bronchitis, and had been given up to die, and had my lungs tapped in the City Hospital, and never expected to walk again; I was continually getting worse every day. I came home from the hospital, and everyone was watching me to die. I tried everything but there seemed to be no cure for me."

"I began taking Father Morrissey's No. 10, and the second day I could eat without pain. I used 22 bottles of No. 10, as I was run down right into consumption, and for six months was just a shadow until I began to use it, and now I am in good health, and surprised most of my neighbors by gaining so quickly. I feel it my duty to publish it everywhere I can, as with all I can say I cannot recommend it too highly—it was a life savor to me, and I am very thankful to recommend it, as it is worth all it is said."

Father Morrissey's No. 10 is very different from the many preparations that simply relieve a cough. No. 10 relieves the cause of the cough, restores the membranes of throat and lungs to a healthy condition, and tones up the whole system, giving strength to resist future attacks.

Trial bottle 25c.—regular size 50c. At your dealer's or from Father Morrissey Medicine Co., Ltd., Chatham, N.B. 92

Mud, flood and horse-bait, house-cleaning in full blast, the ladies are now in command armed with mops, brooms and scrubbing brushes; the writer, in preference to coming under petticoat government has fled to the barn; I sleep at night in one straw-mow and write for the papers on the grain box, seated on a milking-stool.

Colds are the order of the day, anyone not having one is considered not being up-to-date.

Mrs John Hanson is seriously ill. Dr Field of Centerville is attending physician.

Mrs Dewett of Woodstock is caring for her daughter, Mrs Hanson during her illness.

Mrs J A Good is counted with the sick and afflicted, having had a severe attack of heart trouble.

Ben Good is confined to the bed with an attack of pleurisy. Dr Peppers of Centerville is in attendance.

The measuring party held at the home of Willard Gray was a decided success despite the unfavorable conditions of roads, and those who prophesied a failure will no doubt be surprised to learn that the proceeds has bought a fine flag, and will also cover cost of pole and rope; which will add greatly to the attractiveness of our school building.

We are told that a young man, who went to a pound party, returned with 200 lbs. Who says the world is retrograding.

It pays to advertise in the Sentinel; a short time ago I stated in an item that a neighbor had the next day after the Sentinel was published, the long necked bird was exchanged for the cash, and the following mail brought letters from different parts of the province, asking that the bird be expressed immediately, money no object.

This missionary supper at the home of Gideon Merrithew drew a fairly large crowd. A good supper was served and a fine programme, consisting of dialogues, recitations, and music, was carried out in a manner as to reflect credit on all concerned. The sum of \$7.40 was realized, although the roads were almost impassable.

The young ladies were using the telephone and I being also interested in the conversation listened on the line, suddenly a squealing sound, that would have done credit to a lot of killikenny cats on the war-path, struck up. I thought at first that someone from the abode of the lost had escaped. What in the world is the matter? asked the other young lady. Oh this—fool put a spring clothes-pin on my ear, and it hurt dreadfully.

Has anyone seen the comet? I did; although I am not in the habit of getting awakened at 4 a.m. I was dreaming I was hunting and being very thirsty, I found a small spring in the woods; but so small was it that I could neither drink out of it or dip my water bottle in it, or lap it up with my hand, when a bright idea struck me; I stuck my finger in the spring, and squeezed off the few drops that adhered to it into my bottle. The plan was working admirably when I was awakened with a rude slap in the face, and what do you suppose I was doing? I was sticking my finger in the kid's cup of milk, and squeezing it off in my milk can.

It is a regrettable fact that some correspondents are ashamed to sign their own names to articles sent in for publication; but prefer to sign a fictitious one or forge that of someone else. Such persons should be avoided as it is decidedly unsafe to do business with them, for although such base doings often begin in fun, they often end in reality, then the law takes hold of them and they find song quarters at Dorchester, where they are furnished in uniforms, and learn to make overalls, for any person mean enough to forge a fictitious name to his item I don't mean a name de-plume would also forge a promissory note. The best course in this world is the path of honesty, for believe me, "On man your sin will surely find you out."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Hang Week's Wash in a Few Minutes on a Hill Clothes Dryer

Clean Compact
Why continue to fuss with unsightly, ungainly clothes lines and poles when you can get this neat, compact, convenient Hill Dryer. Instead of being spread all over the yard and supported by numerous poles, every inch of every line on the Hill Dryer is within easy reach—so you can hang the whole wash without moving a step, without having to drag the heavy basket up and down the yard through snow or damp grass.

Capacious Convenient
Set up a Hill Dryer in a convenient spot near the house and see how many steps, how much time, work and bother it saves. Once use it and no one could ever coax you back to the old-fashioned clothesline method. Hill Dryers are made in several sizes and styles for lawn, balcony and roof. Hold 100 to 150 feet of line—revolve so line comes to you—taken apart, folded up and put away, keeping your lawn entirely clear of obstructions.

Let us put one up in your yard ready for next wash-day. Or call and see it.
