

PULP AND BIG FERTILIZER

PLANT AT ST STEPHEN

To meet the increasing demand from the farmers and fruit growers of New Brunswick, Nova Scotia and Quebec for high-grade commercial fertilizers, a 10,000 ton plant is being completed by U. S. interests at St Stephen, N. B.

In planning the factory provision has been made for increasing its capacity to 20,000 tons annually. The plant is 50 by 252 feet, equipped with up-to-date machinery for the manufacture of fertilizers, according to the most advanced ideas. A co-processor will also be operated by the company.

Located at tide-water, the St. Stephen plant will have the advantage of receiving raw materials by direct shipment—potash from Germany, nitrates from Chili, and acid phosphate from Southern States ports. Little or none of the ingredients of fertilizers except fish-scraps are produced in Canada.

As a distributing centre St. Stephen has the advantage of location on the lines of the Canadian Pacific, and of water transportation to many points. Fertilizers from the States pay a duty on the average of \$3.30 per ton, and must be ordered far in advance, with great uncertainty as to deliveries and the condition in which the goods will be received. A thoroughly modern plant of large capacity, favorably located, will give the fertilizer consumers of this district far better service than was possible heretofore.

PULP AND CONSUMPTION—1910

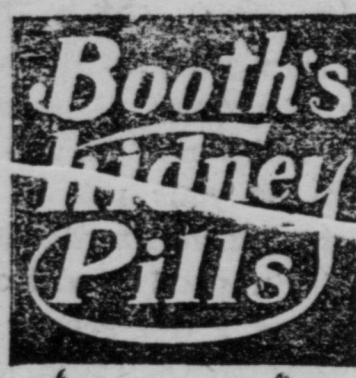

Nearly six hundred thousand cords of wood were ground into wood-pulp by fifty-one pulp-mills operating throughout Canada during 1910. Statistics compiled by the Forestry Branch of the Department of the Interior show that the total value of this wood was three million five hundred and eighty-five thousand dollars, and that it was converted into four hundred and seventy-five thousand tons of wood-pulp. Quebec is the premier pulp-wood province of Canada, because of its extensive spruce and balsam forests suitable for pulpwood. The twenty-five pulp-mills in Quebec reported the consumption of fifty-seven per cent of the total for Canada, or twenty-three thousand cords more than in 1909. Ontario likewise increased the amount consumed in its fifteen pulp-mills by over twenty-thousand cords and used over one-third of the total consumption, forming with Quebec, ninety-two per cent of the total. The mills of Nova Scotia consumed nearly thirty thousand cords. New Brunswick used barely one-fifth as much as in 1909, contributing in that year fifteen per cent of the total, due chiefly to the closing of our large plant. The average value of pulpwood in 1910 was six dollars per cord, and Quebec was the one province in which the price was less in 1910 than in 1909. The price in this province fell off thirty-five cents to five dollars and a half per cord. The highest price paid was in Ontario, where it averaged seven dollars, while pulpwood from Nova Scotia at four dollars and sixty cents per cord was the cheapest.

NO APPETITE?

THIS REMEDY WILL RESTORE IT

If you have no appetite for meals, can't work, can't rest and are annoyed with too frequent urination and a burning, scalding pain in making passages.

If at night you retire, hoping for sleep that either does not come, or is troubled and fitful, you have kidney trouble and need Booth's Kidney Pills, the guaranteed remedy for all kidney and bladder trouble. A few doses of Booth's Kidney Pills will wake up the sluggish kidneys and regulate the urine. Continued treatment will cure and heal the weakened kidneys and restore the appetite in the natural way. Sold everywhere 50c box, or postpaid from The R. T. Booth Co., Ltd., Fort Erie, Ont. Free trial sent on application. "Sold and guaranteed in Woodstock by E. W. Main."

A PROFITABLE INVESTMENT

An investment that guarantees good returns is a year's subscription to The Family Herald and Weekly Star for a whole year and the beautiful picture "Home Again" all for one dollar is the very best dollar's worth that can be had. The picture "Home Again" is certainly a beauty. Such value has never before been offered in Canada. The Family Herald and Weekly Star is a most wonderful combination. It appeals to all classes, all ages, and brings pleasure and profit to every home it reaches.

Shiloh's Cure
quickly stops coughs, cures colds, heals the throat and lungs. 25 cents.

HON. J. D. HAZEN IS

GOING TO ENGLAND

(Globe)

Ottawa, Dec. 5.—Hon. Douglas Hazen, Minister of Marine, will leave immediately after Christmas for England, where he will consult with the Admiralty in the preparation of a naval programme for Canada. It is possible that one other member of the Government will accompany him as well as the Deputy Minister for Naval Affairs.

It is understood that Mr. Hazen's stay in England will be as brief as the nature of his business will permit. It is understood to be the desire of the Government to come to an understanding respecting the navy as soon after the re-opening of Parliament in January as is possible. However, the formation of a navy is no small task for even Admiralty authorities and it may take Mr. Hazen some time to reach a point where he feels satisfied that he has the information which he was sent to obtain and which is required by his colleagues at Ottawa in deciding as to the plan of the Canadian navy.

Mr. Hazen expects to leave for England before the first of the year and to return to Canada early in February.

Fredericton Prize Winners

The voters contest of Daily Mail ended Saturday, winners of first prizes which entitled them to a tour of the eastern states and Bermuda were: Miss Helen McKinnon, Fredericton; Mrs. W. Tom Murchie, Fredericton; Miss Mary George, St. Marys; Miss Eliza Campbell, Kingsclear; Miss Anna May, Fredericton Junction.

Second prizes were won by Miss Mary Doohan, Fredericton; Miss Lulu Yerxa, Fredericton; Miss Alice M. Hallet, Millville; Miss Nellie Cliff, Kingsclear; Miss Kate Miles, Upper Maugerville.

Commerce and Honesty.

The Rev. R. J. Campbell says that he did not say in the United States, as reported, that no successful business man could be honest. There is nothing more common than the complete misrepresentation of a speaker or a writer by the snippets and scissorings that because of their piquancy go the round of the press, and the trouble is that a lie that has once gone on its travels is, if big enough, liable to be periodically resuscitated, and one never hears the last of it. At all events Mr. Elbert Hubbard, the shirt sleeves philosopher, has something very different to say. There are so many people to dwell on the seamy side of things that it is well that one should arise who sees them on their normal and bright side. The history of sea voyages is largely the history of storms because these are events, while good weather is monotonous. The same in everything, it is the evil that is interesting because abnormal, and being the only thing recorded or commented on comes to appear to be characteristic. With him success in life lies in mutual service was never so much in evidence before. It is the Spirit of the Times—the Zeitgeist, as the Germans say—and thousands and thousands of men and women are to-day thinking great and noble thoughts and doing great and splendid work. Very many of our big business men regard themselves as public servants, of which we have notable proof in Montreal during the past few months especially. Mr. Hubbard has a good word for the departmental store, which, he says, was inevitable, because it does the greatest good to the greatest number. "Every purchaser must be pleased. A child who buys a spool of thread is given the same courteous attention as the shrewdest buyer. The customer is made to feel that he is at home, that he is with strong and influential friends, that his interests are safeguarded. This matter of general faith between buyer and seller is a new thing in the world."

The modern business plan, declares Mr. Hubbard, in his sunny way, has taught us five things: "The value of honesty as a business asset; the excellence of commerce as a civilizing influence; that the interests of proprietor, public and employee are mutual; that art, ethics, economics and education can and should move forward hand in hand; that business righteousness is simply a form of common sense, a move toward self-preservation." Advertising, of course, has been and is a great factor in business righteousness. Goods are advertised and the public is invited to compare, weigh, analyze and sift them and then to make them its own if it wishes. If the advertising is false, the advertiser does not make money, he only makes enemies, who refuse to deal with him in future, and tell their friends about the "rascal" and the "way he tried to swindle them." Honesty is not the best, it is the only policy for the modern business man who would be successful. He must work upon the axiom that "A transaction where both sides are not benefited is immoral." There is still much in the world of vice and crime and cruelty and greediness, and what not of evil—much to make a lover of his kind almost despair that it will ever be unravelled—but the Spirit of the Time is, we are assured, making for righteousness, progress, lib-

FREE TO YOU—MY SISTER

yourself at home, easily, quickly and surely. Remember that it will cost you nothing to give the treatment a complete trial; and if you should wish to continue, it will cost you only about 12 cents a week, or less than two cents a day. I will not interfere with your work or occupation. Just send me your name and address, tell me how you suffer, if you wish, and I will send you the treatment for your case, entirely free, in plain wrapper, by return mail. I will also send you a free copy of my book—"WOMAN'S OWN MEDICAL ADVISOR"—with explanations showing why women suffer, and how they can easily cure themselves at home. Every woman should have it and learn to think for herself. Then when the doctor says—"You must have an operation," you can decide for yourself. Thousands of women have cured themselves with my home remedy. It cures all, old or young. To Mothers of Daughters, I will explain a simple home treatment which speedily and effectually cures Leucorrhoea, Green Discharge, and Painful or Irregular Menstruation in Young Ladies. Plumpness and health assured from its use. Wherever you live, I can refer you to ladies of your own locality who know and will gladly tell any sufferer that this Home Treatment really cures all diseases which make women weak, strong, plump and robust. Just send me your address, and the free ten days' treatment is yours, also the book. Write to-day, as you may not see this offer again. Address: **MRS. M. SUMMERS, Box 884 WINDSOR, ONT.**

erty, fairplay, honesty, charity and more and more fellowship and mutual service among men.—Witness.

HAPPY MARRIAGES

Are the result of knowing the laws of health and nature. All the knowledge a young man or woman, wife or daughter should have, is contained in the People's Medical Adviser, by R. V. Pierce, M. D. This big Home Doctor Book containing 1008 pages with engravings and colored plates, and bound in cloth, (nearly 700,000 copies formerly sold for \$1.50 each), is sent free to any one sending 31 one-cent stamps to prepay cost of wrapping and postage. There are no conditions to this offer and the reader must not associate this book with the advertising pamphlets prepared throughout the country. Address, 662 Washington St., Buffalo, N. Y.

THE LOST OPPORTUNITY

There are not nearly so many Carleton county farmers ready to admit that the reciprocity issue should be buried as there were just before the election. So overwhelming was the defeat of the Government that most people throughout the country felt that the pact was dead and buried leagues under the avalanche. Since it has been discovered that, exclusive of the Ontario vote, the Dominion gave a majority of 22,000 in favor of reciprocity, the farmers of the country have begun to learn that their interests were subordinated to that of the other "interests," the manufacturers, the bankers, the corporations, the trusts, the capitalists.

Already Carleton county is poorer by tens of thousands of dollars, because of the defeat of reciprocity. Today, and for many days, the produce firm of the McCain Prime Co., Ltd., have been buying hay in both Carleton and Aroostook counties. Today they are paying at Florenceville and at other Carleton county points \$8.00 to \$10.00 per ton for hay. Across the boundary line, at Bridge-water, they are paying the farmers \$14.00 and \$15.00 per ton for exactly the same grade of hay and from both countries the hay goes to the same objective point—the Boston market.

During the election campaign certain orators told the people with much assurance that this lovely, loyal land of ours that suns itself beneath the grand old Union Jack, could not raise hay of quality fine enough for admission into the mangers of Boston's aristocratic horses. We are selling hay to Boston in the face of a four-dollar duty. We have been doing so for years and will continue to sell our hay there.

To The Observer on Tuesday Andrew McCain, of the firm above mentioned, made the unqualified statement that had reciprocity become law his firm would pay to Carleton county farmers exactly the same price it pays to Aroostook county farmers.

They have so far this season, shipped to Boston, from Carleton county, upwards of 100 cars of hay. The same firm has been buying potatoes in large quantities. While they were paying \$1.65 per barrel at Florenceville, buyers at Bridge-water, which, by the way, is ten miles from Florenceville—were paying \$2.40 per barrel.

We have shown, indisputably, certain benefits that would have arisen from reciprocity. We leave it to someone else to quote from a Carleton county authority an injury that might have followed its wake.—Hartland Observer.

MEN WANTED

We want a reliable man in each locality to introduce and advertise our new Large Book and only pay him \$15 a week and expenses. He must have experience in selling. Write at once to the publisher, 100 Lakeside Avenue, Orange, N. J., U. S. A.

FREE TO YOU AND EVERY SISTER SUFFERING FROM WOMEN'S AILMENTS.

I am a woman. I know women's sufferings. I have found the cure. I will mail, free of any charge, my home treatment with full instructions to any sufferer from women's ailments. I want to tell all women about this cure—your mother, or your sister. I want to tell you how to cure yourself at home without the help of a doctor. Men cannot understand women's sufferings. What we women know from experience, we know better than any doctor. I know that my home treatment is a safe and sure cure for Leucorrhoea, Whiteish discharge, Ulceration, Displacement or Falling of the Womb, Profuse, Scanty or Painful Periods, Uterine or Ovarian Tumors or Growths, also pains in the head, back and bowels, bearing down feelings, nervousness, creeping feelings up the spine, melancholy, desire to cry, hot flashes, weariness, kidney and bladder troubles where caused by weakness peculiar to our sex. I want to send you a complete 10 days' treatment entirely free to prove to you that you can cure the treatment a complete trial; and if you should wish to continue, it will cost you only about 12 cents a week, or less than two cents a day. I will not interfere with your work or occupation. Just send me your name and address, tell me how you suffer, if you wish, and I will send you the treatment for your case, entirely free, in plain wrapper, by return mail. I will also send you a free copy of my book—"WOMAN'S OWN MEDICAL ADVISOR"—with explanations showing why women suffer, and how they can easily cure themselves at home. CHEAPEST OF ALL OILS.—Considering the curative qualities of Dr. Thomas' Electric Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada from coast to coast and all country merchants keep it for sale. So, being easily procurable and extremely moderate in price, no one should be without a bottle of it.

Eight million persons are in need of immediate relief owing to the failure of the crops in twenty Russian Provinces. This startling announcement was made in the Duma last week by Premier Kokovsov in reply to interpellations concerning reports that famine threatened a wide area.

Very many persons die annually from cholera and kindred summer complaints, who might have been saved if proper remedies had been used. If attacked do not delay in getting a bottle of Dr. J. D. Kellogg's Dysentery Cordial, the medicine that never fails to effect a cure. Those who have used it say it acts promptly, and thoroughly subdues the pain and disease.

Latest reports from Bombay tell of serious plague conditions. The last weekly report accounts for 6,667 deaths from the plague throughout India, 4,700 of which were in the Presidency of Bombay itself. Reports from all the southern districts indicate that the plague is increasing rapidly.

Why suffer from corns when they can be painlessly rooted out by using Holloway's Corn Cure.

The late census of the United States shows that the percentage of colored people in the whole population is increasing. Thirty years ago men classified as white constituted 84 per cent of the whole; in 1910 they constituted about 90 per cent. Moreover, the blacks while they increased in number between 1900 and 1910, did so at a lesser rate than in the previous ten years.

Mr. German did not mince words. He told in plain speech how Mr. Doherty got his Minister of Finance.—Chronicle.

The greatest kind of Christmas present—the greatest Christmas present of its kind, the

Edison Phonograph

a gift for ALL the family, a gift for ALL the year, and for ALL the years to come

Think of the money that is thrown away on trifles at Christmas time—the candy that is eaten, the toys that are broken, the Christmas cards that are merely glanced at and thrown away. What have you to show for last year's Christmas? Now think of the Edison Phonograph—the gift of a lifetime, that brings to every member of your family all of the very kind of entertainment each prefers—not merely for a day or a year, but for always. That's what makes the Edison the greatest kind of gift. The Edison brings you the four great advantages which you should look for in a sound-reproducing instrument, and which you will find only in the Edison—exactly the right volume of sound for your home; the sapphire reproducing-point, which does not scratch or wear the records and lasts forever—no changing of needles; Amberol Records, which play twice as long as the ordinary records, rendering each composition completely, the ability to make and reproduce your own records, in your own home, just as true to life as the records made in our laboratory. That's what makes the Edison Phonograph the greatest gift of its kind.

There are Edison dealers everywhere. Go to the nearest and hear the Edison Phonograph play both Edison Standard and Edison Amberol Records. Get complete catalogs from your dealer or from us. Edison Phonographs, \$18.50 to \$240.00. Edison Standard Records, 40c. Edison Amberol Records (play twice as long), 65c. Edison Grand Opera Records, 85c. to \$2.50.

A complete line of Edison Phonographs and Records will be found at

MONEY IN POULTRY

The Editor of the Canadian Poultry Review, the people's popular paper, tells us that this paper has been greatly enlarged and is filled with all that pertains to poultry, both from a practical and a fancy standpoint.

Prof. A. G. Gilbert, Manager Dominion Government Poultry Farm, Ottawa, is still in charge of the Practical Poultry Department. Rev. J. N. Williams, one of England's most noted experts, writes interestingly each month on poultry doings in the Old Land. Mr. H. S. Babcock, Providence, R. I., is another prominent writer. The paper is a regular stand-out in the poultry world, and there are dozens of others. Each phase of poultry breeding, poultry exhibiting, etc. is fully covered and the pages of the Review are replete with half-ton reproductions from life, of famous birds, plans of up-to-date houses, utensils, etc.

The subscription rate is fifty cents a year, but readers of this paper can have it at three years for \$1.00, and sample will be sent free on application to Canadian Poultry Review, 184 Adelaide street West, Toronto, Ont.

ST. NICHOLAS.

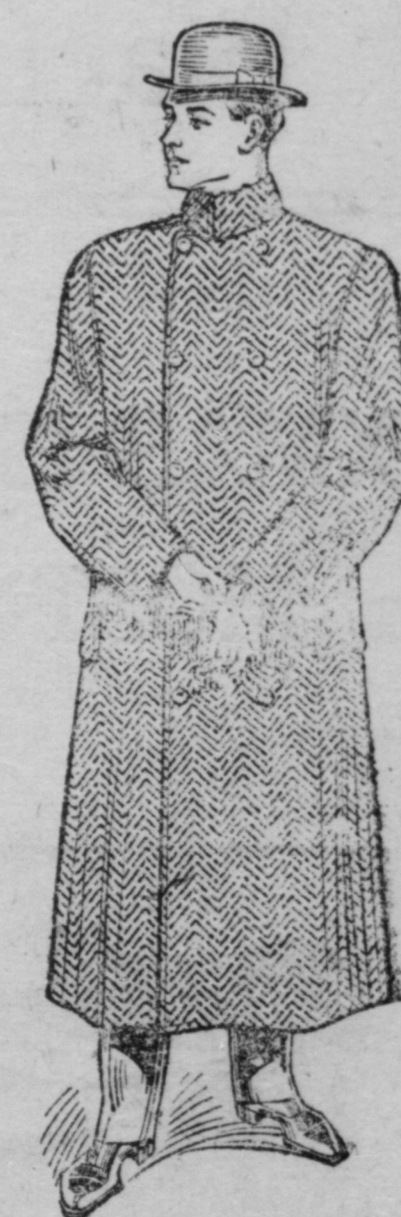

Dr. W. T. Grenfell, in the December St. Nicholas, tells and tells well the story of a dog Bruin, leader of a pack, that guided a sled across sixty miles of northern Newfoundland and landed the doctor and his assistant at Indian Harbor. The journey was a remarkable one because this dog had made the trip but once and that two years before the trail was so obliterated that none of the men of the party knew whether they were going right or wrong, but the sagacious dog kept steadily on his course, and was impatient of delay when the team was stopped to see if the mere men in the party could determine the course. It is a fine story of animal sagacity that boy readers will thoroughly enjoy. The Christmas season is manifest, not only in the cover with its wreath of holly and mistletoe but in many of the selections and illustrations. St. Nicholas always has good stories, and those of this particular issue will be found fully up to the standard. There are five chapters of the serials "The Knights of the Golden Spur" and "Crofton Chums," while a new serial "The Lady of the Lane" by Frederick Orin Bartlett, promises well. In all its features and departments the December St. Nicholas maintains the high standard of the past. Published by the Century Company, New York.

A REMEDY FOR BILIOUS HEADACHE.—To those subject to bilious headache, Parmenter's Vegetable Pills are recommended as the way to speedy relief. Taken according to directions they will subdue irregularities of the stomach and so act upon the nerves and blood vessels that the pains in the head will cease. There are few who are not at some time subject to biliousness and familiar with its attendant evils. Yet none need suffer with these pills at hand.

If anyone imagined that the Liberal Opposition at Ottawa were not going to fight he should guess again.
