

PROMISING HEIFERS SAVED FROM THE BUTCHER

The importance of keeping samples and having the milk tested regularly to determine the quantity of butter fat produced by each cow in the herd is quite as important as to know the quantity of milk given by each animal.

The following are the returns from four two year old heifers in the same herd during the months of September and October at the Kensington, P. E. I. Dairy Record Centre conducted under the direction of the Dairy Division, Ottawa.

Cow	Pounds Test	Pounds Value
A	1475	2.9 43.3 \$10.82
B	1400	2.7 37.8 9.45
C	1330	2.9 38.5 9.62
D	1105	4.0 44.6 11.15

While A produced 370 pounds more milk than D it contained 1.3 pounds less of butter fat, and B with 295 pounds more of milk had 6.8 pounds less of butter fat to her credit, a difference of \$1.70 in the value of butter fat in favour of D, also C with 225 pounds more milk returned her owner one dollar and fifty three cents worth less of butter fat.

These four heifers freshened about the same time, and are all half sisters and from a pure bred sire. A, B, and C, are from grade cows, while D is from a pure bred Jersey that has produced since March 10th to October 30th, 4458 pounds of milk containing 229.9 pounds of butter fat, an average test of 5.15 per cent. Her dam was imported to Prince Edward Island years ago from the herd of Mrs. E. M. Jones, Brockville, Ont.

Had the owner of these heifers not been keeping records of both the milk and butter fat from each cow in his herd no doubt D would have been looked upon as the poorer one of the four on account of the quantity of milk she is giving in comparison with the other three.

The owner had decided to beef these heifers until his attention was drawn to the butter fat they gave compared with mature grades in his herd.

By the keeping of individual records valuable information is acquired in reference to the herd which if taken advantages of means a better herd and more dollars in your pocket. A card to the Dairy Division, Ottawa, will give you full instructions how to proceed.

LARGE AUDIENCE HEARD MRS. DICKINSON'S LECTURE

(Fredericton Mail)
The lecture of Mrs. C. D. Dickinson, of Woodstock, in the opera house last evening, under the auspices of the W. C. T. U., on "The Monarch of the Feast," was listened to with deep interest by a large audience. Her grasp of the subject was broad and her thoughts were eloquently expressed. Her illustrations were for the most part Biblical, going back over four thousand years to the date when an entire people was cursed through a single deceiver.

The principal topic of her address, however, referred to the memorable occurrences, when Fashti, the beautiful and modest, if somewhat wilful wife of the Persian king, refused to show herself to her husband and his besotted nobles. She also referred to the feast in Babylon, which occurred in the same century, when Belshazzar and a thousand of his nobles, while at their drunken orgies, beheld a ghastly hand writing mysterious characters on the wall beside them, which none save Daniel, the Hebrew captive, could translate. "Weighed in the balance and found wanting," was their written doom. In convincing words the speaker proved that the history of alcohol is still repeating itself from that remote period until the present hour.

Canadian Home Journal

Artistic taste combined with practical common sense makes Miss Rorke's department of "Household Decoration" in Canadian Home Journal very interesting. It is a subject that is important to the bachelor girl as well as to the (lucky) married lady. Writing of window curtains in November number she describes the two and often three sets of curtains for prominent windows. For women of moderate means she has plans that are inexpensive, yet dainty and effective, instead of the cheap imitations of expensive material that are utterly condemned. "Flowers at Christmas" is an attractive

part of her November article. There is excellent home stenciling suggestions for walls, curtains, table covers, pillows, etc., and the instructions for a most fascinating home made silk shade to take the place of the ugly cheap colored ones.

The minister of many marriages evidently encounters amusing incidents, some of which are related by Murdock Mackinnon.

"Children of the Mormons," is written by one who has taught among them. Undoubtedly few have a better opportunity to know them in their home lives.

The Canadian Girls' Club offers a way for girls of all ages to earn money in their spare time. Each member has money and makes a luncheon, excellently illustrated, not only to show the table arrangement and decoration, but showing how to serve each dish to make it most attractive. The November issue shows a luncheon for a child's birthday party. In the culinary department are many most delectable recipes. Among them is one for Chop Suey, which we usually associate with the Chinese, but on closer acquaintance proves to be an appetizing mixture of our ordinary ingredients.

A page of music, another of gardening, embroidery, a children's page of stories, and several good short stories and serials make Canadian Home Journal as entertaining as it is interesting and helpful.

SIR WALTER RALEIGH'S PIPE.

(London Telegraph.)

A pipe with a history is to be offered for sale in London. It was once the property of Sir Walter Raleigh, and is not unlike the letter "Y" in shape, and for centuries now has had its home in an ancient inlaid box dated "Anno 1527."

It is constructed in four pieces of wood

Scott's Emulsion

keeps children
healthful and happy.

Give them a few drops of this strengthening food-medicine every day and watch them grow.

IT PREVENTS

Croup
Whooping-Cough
Bronchitis
Loss of Flesh
and many other troubles

ALL DRUGGISTS

rudely carved with dog's heads and made with the faces of red Indians.

On the bowl there is a cap about as large as the bowl itself, and attached to the stem is a string of beads made of the same wood as the pipe. In this stem a powerful whistle has been cut, and the suggestion is that Sir Walter Raleigh used it to summon his servants.

The Archaeological Society exhibited it at the Guildhall in the '60's of the last century, the inscription accompanying it bearing these words: "The original pipe of the above celebrated Historian of the World," and who first introduced tobacco and potatoes into England. Tradition (corroborated by a parchment in the possession of the owner) states that this pipe was used by Sir Walter Raleigh on the scaffold just previous to his execution.

The Borden Government is to place the Department of External Affairs directly under the wing of the Prime Minister. When this department was proposed by Sir Wilfrid Laurier, the Flag-Flappers denounced it as a step towards "separation." Now they are as wildly applauding it as a great administrative achievement! Funny fellows, they are indeed.

BRAIN WORKERS

who get little exercise, feel better all round for an occasional dose of

"NA-DRU-CO" Laxatives

They tone up the liver, move the bowels gently but freely, cleanse the system and clear the brain. A new, pleasant and reliable laxative, prepared by a reliable firm, and worthy of the NA-DRU-CO Trade Mark.

TORTURED BY BILIOUSNESS

AND TERRIBLE SICK HEADACHES

Both Completely Cured by "Fruit-a-lives"

DRESDEN, Ont. July 17th, 1910.
"I was a dreadful sufferer for many years from Sick Headaches and Biliousness, or Torpid Liver. I tried many remedies and physicians, but nothing seemed to do me any good. I finally used 'Fruit-a-lives' and after the first trial I was cured."

"I certainly can recommend 'Fruit-a-lives' to anyone who suffers from Headaches, Biliousness or Stomach Trouble." Mrs. ISAAC VANSICKLE.
Thousands of people have had the same experience as Mrs. Vansickle. They have tried doctors and taken all sorts of medicine, only to find that "Fruit-a-lives" is the one and only remedy that actually cures these troubles.

"Fruit-a-lives" is the only medicine in the world made of fruit juices, and is the greatest Liver Cure ever discovered. It acts directly on Liver, Kidneys and Skin—sweetens the stomach and purifies the blood. 50c. a box, 6 for \$2.50, or trial size, 25c. At all dealers or from Fruit-a-lives Limited, Ottawa.

HOW THEY WON.

A few weeks ago some of Mr. Borden's organs were denouncing, with much heat and vehemence, the allegation that the Flag-Flappers had raised the religious cry against the Laurier Government in Ontario and other sections of the Dominion. It is useless for them to make further denials. It is admitted, nay, boasted of, by their own friends. Certain orators in Toronto who take their inspiration from the Orange Sentinel were the first to let daylight on the Tory campaign in that Province, when they boasted that the Borden victory on September 21st was a victory for the Orange Order. Now Mr. Burnham, one of Mr. Borden's most prominent supporters from Ontario, has given personal testimony on this point. He signified his first appearance in debate in the House of Commons by openly attacking Sir Wilfrid Laurier on religious grounds, charging that he was responsible for the operation of the Ne Temere Decree, and, although Hon. F. D. Monk adroitly tried to side-track the inquiry directed to Mr. Burnham by Hon. A. K. Maclean, he blurted out the truth, namely, that the Ne Temere Decree had "played a very important part" in the Tory campaign in Ontario.

The religious cry did its most deadly work in Ontario, but Liberals in the other Provinces know full well that the same miserable appeal was used insidiously wherever there was a chance of arousing prejudice against the Government. This was one side of the canvass. But what was the confession made, on the other hand, by the Nationalist wing of the Borden-Bourassa coalition? Mr. Mondou, the fiery young Nationalist orator, repeated in the House of Commons, in the hearing of the members of the Government, the canvass which had been "worked" against Sir Wilfrid in the Province of Quebec, namely, that he had been a traitor to his race and religion in connection with the Manitoba School question and the Auto-Native Bills creating the Provinces of Alberta and Saskatchewan. Thus the broad facts of the game of duplicity played by the two wings of the Tory Nationalist Party have been made notorious. They cannot be disputed. And this is the party which brazenly flaunts its "loyalty" and its "patriotism" and shrieks that the result of the election of September

SHE WAS SURPRISED

When Dr. Morse's Indian Root Pills Cured her Chronic Liver Complaint

Mrs. R. Smith, of Winnipeg, Man., tells an interesting story of relief from almost intolerable sufferings: "I can hardly tell you how great my sufferings have been. Chronic liver complaint accompanied by biliousness was a daily source of trial to me. Every day I experienced the sickening effects of these ailments. I longed for some medicine that should permanently drive them away."

Hearing of Dr. Morse's Indian Root Pills, I thought they were worthy of a trial. My surprise was indeed great. From the very first I experienced relief. Continuing with them I found my troubles were slowly but surely leaving me, and before long I once more knew what it was to be free from the harassing effects of the ailments that had long sickened and weakened me. So great is my faith in Dr. Morse's Indian Pills that I shall never on any account be without them."

Dr. Morse's Indian Root Pills cure Bowel and Kidney as well as Liver troubles, and keep you healthy. 25c. a box at your dealer's.

THE SHOEMAN

21st was a "victory for the flag"! The pity is that Canada should have to bear the shame of a victory achieved by such despicable and incendiary appeals. It is deplorable in the extreme. Every honest Conservative who wants to see peace and harmony and good will between the different races and creeds of this Dominion must blush for shame at the confessions which have been made on the floor of Parliament—Chronicle.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

THE IDEAL REFERENDUM.

(From the Toronto Telegram (Con.))
The sort of referendum that Canadians expect at the hands of Hon. R. L. Borden is a chance to vote for the abolition of Bourassa, Monk & Co. The commercial travellers of the United States are about to start a campaign against the tipping nuisance. They think, and the public think with them, that the time has arrived when the condition which compels an employee to stand in with his employer and work for the people should cease. The travellers will have universal sympathy in their movement, although the prospect for success under present conditions is not particularly favorable.
