

SERIOUS RIOTS IN VIENNA

Great Cost of Living Drove People to Desperation—Many Wounded.

Vienna, September 19.—The expected happened here on Sunday, and there were serious riots as the result of the Social Democrats' demonstrations against the increased cost of living. About 200,000 gathered in various parts of the city, but the biggest assemblage was in front of the Rathaus, where angry speeches were made. After the speeches it appeared that all the mob had concealed stones in their pockets, and with the missiles they bombarded the windows of the Rathaus. The police attempted to check the attack, but only succeeded in drawing the missiles on themselves.

There were fierce clashes between the police and the rioters until noon, when a regiment of cavalry was sent against the mob. Three charges were made before the mob was dispersed for long. Reinforcements came from other parts of the city and the rioters stoned everything in sight, yelling "Give us bread not soldiers."

The situation rapidly grew worse. The mobs invaded cafes and wrecked furniture and fittings. The cavalry charged repeatedly, but with little effect, and the stormy scenes were not ended until the infantry was called and ordered to fire upon the mobs, that by this time had begun to build barricades in the streets. Many were killed. The firing by infantry ended the trouble in the city, but it was renewed in the outer districts and especially in the quarters where the working classes live. The rioters wrecked schools, attacked the house of a priest that had been barricaded with overturned street cars, and smashed the street lamps, so that at nightfall they could not be lighted.

It is reported that at least two hundred were wounded. Many of the rioters made use of revolvers. The mobs rushed through the streets, giving vent to their feelings in such revolutionary cries as "Down with the Government," "Down with the landlords," and "Long live the Republic."

The working classes have been embittered for the past eighteen months by the general increase in the price of food, the raising of their rents and increased taxation. The Emperor is credited with vainly urging the government to remedy the situation.

Abandoning his efforts at remaining out of the custody of Canadian authorities, Ed. Davis, the confessed abductor of Miss Eleanor Gladys Price, the Snowflake, Man., school-teacher, was taken on Monday from Grand Forks, North Dakota, to Mordean, Man., where he will be held for hearing. Davis declared that his confession as to being an escaped convict from California was made under the impression that he had murdered William Adams, a Snowflake hotel-keeper, but when Adams arrived here and visited the prisoner at the jail, Davis expressed entire willingness to return to Canada and face trial.

The Earl of Dudley, the Governor-General of Australia, says the difficulty with the Australian navy is to supply the men, and it is expected that for some years Great Britain will have to help the Commonwealth to man the ships of that part of the Empire.

DOCTOR ADVISED OPERATION

Cured by Lydia E. Pinkham's Vegetable Compound

Canifton, Ont.—"I had been a great sufferer for five years. One doctor told me it was ulcers of the uterus, and another told me it was a fibroid tumor. No one knows what I suffered. I would always be worse at certain periods, and never was regular, and the bearing-down pains were terrible. I was very ill in bed, and the doctor told me I would have to have an operation, and that I might die during the operation. I wrote to my sister about it and she advised me to take Lydia E. Pinkham's Vegetable Compound. Through personal experience I have found it the best medicine in the world for female troubles. For it has cured me, and I did not have to have the operation after all. The Compound also helped me while passing through Change of Life."—Mrs. LETITIA BLAIR, Canifton, Ontario.

Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has proved to be the most successful remedy for curing the worst forms of female ills, including displacements, inflammation, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, and nervous prostration. It costs but a trifle to try it, and the result has been worth millions to suffering women.

THE GREATEST DRAMATIC HIT IN YEARS.

"Madam X" is what the players call a growing play. It's methods and situations are so intensely interesting that instant favor is always accomplished, but the second act fascinates more than the first, and the third grips the heart-strings with more magnetic interest, and the fourth creates the sense that this is a remarkable story, this extraordinary drama of "Mother Love". Much has been related of what is said and done in this play, by the ablest critics in the world and their unanimous verdict is "The greatest Drama of the age." The author Alexandra Bisson and the players of "Madam X" have created what may be fairly regarded as a classic, and when it is played here on Tuesday evening, Sept. 26th, at Hayden-Gibson Theatre it will be sure to delight a large and distinguished audience.

SHE WAS WISE.

(Boston Transcript.)

She was a bright girl and her escort, who was also her intended, was delighted to find how quickly she grasped the points of the game.

She got on so well that he ventured a light witticism on the subject. "Baseball reminds me of the household," he remarked; "there's the plate, the batter, the fowls, the flies, etc."

"And it reminds me of marriage," she retorted; "first the diamond when they are engaged, then the struggles and the hits, then the men going out, and finally the difficulty they have in getting home." And he sat and thought and thought.
