

# BABIES SORES

Every mother should realize that the skin of her baby is so tender that the secretions of the body often lead to rashes, eruptions, etc., all of which may be removed by Zam-Buk and the use of Zam-Buk Soap. Sores, redness, crying babies, upon examination, are found to be suffering from some form of skin irritation or "heat." Use Zam-Buk soap for the bath and apply Zam-Buk ointment to the sores, and the trouble will soon vanish.

Mrs. L. Hood, of 455 Alexander Ave., Winnipeg, writes: "Some nasty sores broke out around my baby's mouth, and despite all the preparations used, they refused to heal. I took him to St. Boniface Hospital and he remained there for two weeks. At the end of that time he was no better, and we again took him home. I was then advised to try Zam-Buk and obtained a supply. The effect of the first few applications was very gratifying and I continued with the use of the balm. A little perseverance resulted in a complete cure."

Zam-Buk Soap is sold by all Druggists at 25c per tablet and Zam-Buk Balm at 50c per box. The Zam-Buk treatment quickly cures eczema, rashes, sores, ringworm, eruptions, pimples, heat rashes, bites, cuts, burns and all skin diseases.

## "Dr. Miles' Nervine Raised Me From the Grave"—Mrs. Taylor

This is a strong statement to make, but it is exactly what Mrs. Thomas Taylor, of Blum, Texas, said in expressing her opinion of this remedy.

"Dr. Miles' Restorative Nervine raised me from the grave and I have much confidence in it. I can never say enough for your grand medicines. If anyone had offered me \$1000 for the second bottle of Nervine that I used I would have said 'no indeed.'"

MRS. THOMAS TAYLOR, Blum, Tex.

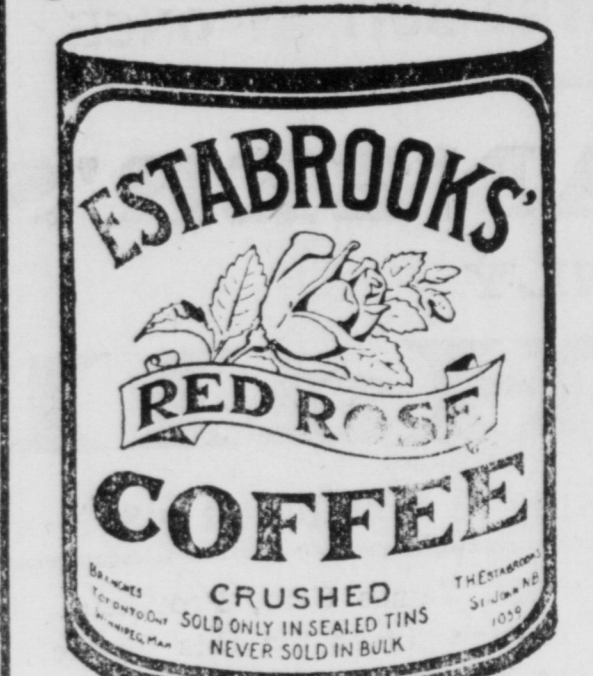

Nervous exhaustion is a common occurrence of modern life. The wear and tear on the nervous system is greater now than at any time since the world began. For sleeplessness, poor appetite and that "run down" feeling, nothing is so good as

### YESTERDAY AND TODAY.

Had he lived, Grover Cleveland twice President of the United States would have been 74 years of age on Saturday. Recalling on this anniversary the various acts of his presidential administrations that were construed as hostile to England, the speech of Sir Edward Grey last week in the British Parliament commending to the favorable consideration of his countrymen an alliance with the United States for the preservation of universal peace, is significant of the marked change in feeling toward each other now entertained by the two nations.

To no one more than the dead President would the growing improvement in the relations of the States with the mother country as indicated by recent occurrences give greater satisfaction were he alive today. It will be 23 years next August since he sent to Congress a message affirming a policy of retaliation against Canada in connection with the acrimonious Newfoundland fisheries question, amicably adjusted recently through a court of arbitration. The following October he dismissed Lord Sackville-West, the Minister of England to Washington for venturing to advise a fellow countryman, who had become an American citizen how to vote and in 1895 during his second administration he stirred a widespread feeling of resentment toward his country by attempting to interfere in the dispute over the boundary line between British Guiana and Venezuela, then assuming an acute stage.

Under the sobering influence of time the rancor and bitterness which formerly needed little to inflame the smoldering embers of national prejudice have given way to a spirit of mutual toleration, forbearance and appreciation. Twenty years ago, a reciprocity agreement with Canada such as has been sponsored by President Taft and Premier Laurier would have been condemned as evidence of national weakness and commanded scarcely a single vote in the Congress or Parliament. Now we welcome it as a good thing and acclaim it a necessary feature in the commercial evolution of both countries. Twenty years ago, a suggestion for any sort of alliance between the States and England, offensive or defensive, would have aroused the fire of every jingo in the land and destroyed the future political usefulness of the statesman who recommended it. Now not a leaf's stir or a bird's flutter in the whole land.

England sends her surplus millions to the United States to finance some of the foremost industries in the east and help James J. Hill and other railroad builders develop the tractless wastes of the west. American money, with the encouragement and co-operation of the English Colonial government, finds profitable investment in rubber cultivation in British Guiana, public service corporations in Canada, fruit in its West Indian possessions and tin in India. Our children inter-marry with more frequency, our navies vie with one another in hospitality, our scientific and research bureaus work in unison for the common good and there is less suspicion, less jealousy, less disposition apparent to impute to each other questionable motives and sinister ambitions in our diplomatic and commercial relations than there used to be.

In a closer business union, we have buried, let us hope forever, old animosities and come to a better understanding, which the years will strengthen and fortify as they glide by.

## RAGING HEADACHE STOPPED AT ONCE

When He Took "Fruit-a-lives"

SHANLEY, ONT., Sept. 23rd, 1910.  
"You certainly have the greatest discovery of the world. I had a raging headache and I took 'Fruit-a-lives' and it was gone in five minutes."

"One of your travellers called on me when I had one of my raging headaches and he had my head almost drawn from my neck by the time he had taken 'Fruit-a-lives'."

"I did so, with what I would call amazing results. They completely cured me and since then (nearly six years ago) it is only necessary for me to take one occasionally to preserve me in my present good health. I was 65 years old yesterday and have been a general store keeper at the above address for twenty-five years."

WM. PITT  
As Mr. Pitt says "Fruit-a-lives" is the greatest headache cure in the world. Dealers everywhere have "Fruit-a-lives" at 50c a box, 6 for \$2.50 or trial size, 25c, or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

### THE SHOW THAT'S DIFFERENT.

Princess Iris with those sterling young artists and a supporting company of merit are billed for an appearance at the Hayden-Gibson theatre on Friday and Saturday, April 7 and 8. The play is a series of surprises introducing many novel and bewildering illusions, catchy music and specialties by different members of the cast.

Mildred and Rouclere are acknowledged the leaders in their line of mystic work and they have cleverly weaved their big fantastical fancies together into a play of unique and novel nature making it a big fun show constructed for laughing purposes, it is three hours of good clean amusement, a performance that not only charms the ear but bewilders the eye. An early reservation of seats is desirable so as to insure against disappointment for a capacity house will no doubt greet "Princess Iris" on its appearance in this city.

### FREE AMATITE SAMPLE.

Farmers are conservative and reluctant to experiment with novelties until they have thoroughly investigated them. Some farmers are still sticking to the old-fashioned smooth-coated roofings which require regular painting simply because they don't know very much about the new mineral-surfaced type. Probably they do not realize how easy it is to find out all about the new kind of roofing that needs no painting. All that is necessary to do is to write to the manufacturers of Amatite Roofing, asking for a free sample. It will be sent by return mail and involves no obligation whatever on the part of the inquirer.

### MCBRIDE REPUDIATES IT.

(From the Victoria Times.)

Our Premier, to give him all the credit that is his due, rises higher than his friends at Ottawa in one particular. He has had the good sense and the good taste to put behind him the temptation of "waving the old flag." He has paid Canadians the compliment of refraining from an insinuation that they can be tempted from their allegiance to the British Crown by the prospect of larger profits as a result of improved business relations with the United States. For that candid confession we thank him, because it will have the effect of clearing the way for a discussion of the question on the only basis upon which it ought to be argued, from a purely economic or business standpoint.

### REGISTRATION OF INFANTS BAPTISM

Many letters are received from natives of Carleton County, now residing in different parts of the world, requesting a certificate of date and place of birth. Except where infant baptism is the rule and the clergyman attends to registration, few births are reported to registrar. Although the law requires that the father, or in his absence the mother shall attend to this duty, consequently many of these requests cannot be complied with. This is often a cause of much inconvenience and sometimes considerable loss. On request the Registrar will forward a self addressed envelope containing as many registration forms as required which are easily filled and cost nothing.

### CANADIAN BIBLE SOCIETY

A meeting of the Canadian Bible Society was held in the office of Col Vince on Monday. Present, Rev Dr Campbell, General Secretary of the Society, Col Vince, President, Rev Messrs Kennedy, Weddall, LePage, Messrs A W Hay, Geo L Holyoke, H E Burt, F L Atherton and J A Lindsay. On motion, J A Lindsay was called to act as Secretary. Dr Campbell gave a very interesting address on the work of the society at the winter port and stated among other things that the society furnished the Scripture in 115 different tongues at St John to the people coming to Canada. The Bible revised in 1611 is known as the King James Version and these tercentenary celebrations are taking place all over the world. It was decided to take the matter up this fall for the County of Carleton and the following committee were appointed to arrange: Rev R W Weddall, Rev H G Kennedy, Rev H C Archer, Rev A E LePage, Messrs George L Holyoke, H E Burt, A W Hay, F L Atherton, Lee Raymond, Mrs C Dickinson.

Col Vince, Rev Mr Kennedy and J A Lindsay were appointed a committee to look after the work in out lying districts and to arrange for collections for the society.

Election of officers for 1911 resulted as follows: Col D McLeod Vince, President; R E Holyoke, Secretary; J A Lindsay, Treasurer.

### Canadian Motor Car A Success.

The "Everitt" a Model of Staunchness and Thorough Construction Throughout.

The fact that the "Everitt" is the first Canadian made car to be built throughout in its big modern factory by the thorough-going Tudhope family of Orillia is a guarantee of better car value than has hitherto been possible in Canada in a Canadian made car. The "Everitt" is not an assembled car—every part of it is built in the Tudhope plant, this including the car bodies, a very unusual feature. The "Everitt" car at \$1450 not only offers the best value in the motor world today at the price but the fact that the Tudhope name and fame are bound up with the after purchase record of every car is the reason that is inspiring the most remarkable of the "Everitt" advantages, that is, "Tudhope Service." This means that every "Everitt" owner will be looked after, the history of the car traced, every help and advantage possible extended him. So that not only is the "Everitt" guaranteed for two years but a guarantee of interest in its owner by the Tudhope people for a life time goes with it.

The Special Tudhope Equipment, including an extra tire, offers unprecedented value and is only possible through economy of manufacture. With ample capital at their disposal the Tudhopes were able to at once equip their plant with the latest machinery and to engage the most expert workmen so that there was no costly experimenting to do—every "Everitt" car made is a credit to the name "Tudhope" and is at once available for market.

This year's output is limited and an early demonstration with the Carleton Automobile & Supply Co is advisable.

### INCONSISTENCY EXPOSED.

(Chronicle.)

Sir Wilfrid Laurier went to the root of all the outcry against reciprocity, when he said that it was prompted by the old instincts of Toryism. Every effort which the Liberal Party has made for the freedom of the people from responsible government down to this trade measure, which means so much to the tolling masses, has been resisted by Toryism, on the plea, the absurd plea, that it would lead to annexation. History is repeating itself.
