SUPPORT LAURIER'S POLICY.

(From the Montreal Star, (Con.) But our belief is that it ought to be possible for the British Government to get the majority of the foreign people with whom it has trade treaties to appreciate the fact that the self-governing colonies have become commercial entities, and that they must be treated with separately in trade matters. Any foreign Government which refuses this act of justice, advertises thereby its intention to take an advantage of the situation which does not properly belong to it. That is, it got the colonies "thrown in" in the course of a bargain with the mother country at a time when the trade of the colonies did not amount to much, and would propose to now keep them under wholly changed conditions.

HE WAS SO MODEST.

(From the St. John Telegraph.) Mr. Borden concluded his Winnipeg speech with the assertion that Sir Wilfrid Laurier is not fit to represent Canada in London at this time. Mr. Borden, perhaps, could have suggested a more fitting representative whom the Canadian people might have sent across the water, but doubtless modesty prevented him from giving this person a local habitation and a name. Of Sir Wilfrid's fitness to represent this country at the Coronation and of his political stature, Canadians are not in doubt; but if they were in doubt, and if they sought for some ready means to determine his size with accuracy, they could not do better than compare some of his recent speeches with that delivered by the leader of the Opposition in Winnipeg.

OBEYED ORDERS.

(From the Hamilton Times.) Some of the Conservative organs are giving Mr. Borden much praise for his frankness in opposing the reciprocity agreement in the Northwest. What else could he do? The "interests" which sent him thither left him no option.

(Daily Mail, F'ton.)

Sir Richard Cartwright, minister of trade and commerce, and one of Canada's political veterans, predicts that under reciprocity the foreign trade of Canada will reach the billion dollar mark by the close of 1912. Last year our trade totalled seven hundred million dollars and more than half of it was with the United States.

HIGH SCHOOL CLOSING EXERCISES

The closing exercises of the High School took place, before a large audience, in the Hayden-Gibson theatre, on Thursday evening last. Seventeen young ladies and gentlemen graduated. This is the largest class in the history of the Woodstock High School. The theatre was appropriately decorated with flags and the class colors blue and black were in evidence. The class motto is "Palmarum Qui Meruit Ferat," and the class officers were Mildred A. MacGibbon, president; John A. Draper, vice president; Marion L. Lindsay, secretary.

Mr. W. B. Belyea, chairman of the school board, presided, and those on the platform included Rev. Frank Baird, J. D. Carey, Trustees Geo. E. Balmain and J. T. A. Dibblee, and the following

W. B. Belyea's Remarks

Mr. Belyea congratulated those who were present, and he was particularly pleased at an unusually large number of gentlemen who attended. He referred to the coronation of King George who was crowned a few days ago under such happy auspices. Every loyal subject was proud of the Empire and the flag. He spoke of the good work of Principal Richards and his efficient staff of teachers. This was the largest graduating class in the history of the town, having 17 bright young men and women to graduate, as against 21 graduates this year in the larger city of Fredericton. This fact gave great pleasure to the board and citizens as a whole. To-night the graduates received the reward of three years of hard work. He impressed upon parents the great importance of seeing that the children are kept at school. The trustees were expending yearly some \$11,000 of the people's money and parents should take a great interest in the work. He told of the efforts put forth by the board of the efforts put forth by the trustees to get good results. The new high school, a gift of the late L. P. Fisher, now being constructed, would probably be the finest in the Maritime Provinces, in equipment and having everything necessary to accomplish great work along educational lines.

The program then continued as follows—

Piano Duet, Misses Marian Winslow and Marian Lindsay.
Essay, "The Condition and Prospects of the Canadian People," Miss Beatrice Adams.
Reading, "The Pleasures of Knowledge," Leonard T. Sabine.
Class Prophecy, Miss Mildred MacGibbon.
Valedictory, John A. Draper.

He complimented the young lady personally, and because the name Raymond is taking a leading part in educational work in this province at the present time.

Ten Deaths in New York.

New York, July 3.—The advancing heat wave from the west struck New York and vicinity with full force yesterday, driving the official thermometer to 94.5, the highest record of the season, and causing ten deaths and dozens of prostrations. There were nine deaths by drowning among those who sought the water to escape the torrid air. One man suicided to avoid the heat.

Street thermometers showed 100 degrees and the humidity had made the heat along the sun-baked streets almost unendurable AND GETTING HOTTER.

The thermometer at 8 o'clock this morning registered 15 degrees higher than at the same hour yesterday, which was good enough indication that Monday would beat Sunday for the high temperature record.
