## This Old Gentleman Cured of Rheumatism

By One Box of GIN PILLS.

YARMOUTH, N.S.  
"I have been bothered with Rheumatism for the past year and have taken a good many different kinds of medicine and found no relief for it."

One day a friend advised me to try GIN PILLS, and after taking one box of them, I felt like a new man. I thought I would write you a few lines to let you know how thankful I am for the relief they gave me, and would advise all sufferers from Rheumatism to try GIN PILLS."

Wm. Conry,  
Don't bother with liniments and so-called "blood purifiers." They won't help your kidneys—and Rheumatism is caused by weak, strained or irritated kidneys. The only possible way to cure Rheumatism, is to cure the kidneys. GIN PILLS will do this as nothing else will. Take GIN PILLS NOW and be free from Rheumatism this winter. 50c. a box—6 for \$2.50—and money promptly refunded if it may not be satisfied.

Order from us if your dealer does not handle GIN PILLS. Sample box sent free on request. National Drug and Chemical Co., Dept. N.B., Toronto.

The original GIN Pills made by National Drug and Chemical Co. of Canada Limited, Toronto, are sold only in this box.

## THE RAILWAY "SCARE."

A great deal has been said by the opponents of reciprocity about the menace to Canadian Railroads in the extension of American railroad systems into Canadian territory. One would suppose from the argument, which is put forward in support of this position, that Canadian railroads were confining their operations to Canadian territory and that their whole business was to take care of Canadian traffic handled through Canadian channels. It may be useful, then, to examine the position of Canadian railroads as compared with their American competitors. "Economist," a well known contributor to the Toronto Saturday Night, has compiled a comparative statement of the mileage of United States lines in Canada and of Canadian lines in the United States. It is exceedingly illuminative at this time:

### U. S. RAILWAY MILEAGE IN CANADA.

	Miles.
Delaware and Hudson Ry.	
Q M & S—Sorel to Noyan Jct	88
Q M & S—Montreal to Forterville	116
Q M & S—Rouse's Pt to St Constant	28

N Y Central and H R R.	
Ottawa to Cornwall	56
Montreal to Malone	65

Michigan Central Ry.	
Detroit to Suspension Bridge	237
St Thomas to St Clair	67
Petrolia to Eddys	12

Niagara Falls to Niagara-on-the-Lake	13
Essex to Amherstburg	16
Leamington to Comber	14

Pere Marquette Ry.	
London to Port Stanley	24
Sarnia to Blenheim	67
Detroit to St. Thomas	128

Great Northern Ry.	
Manitoba lines	225
British Columbia lines	339

Total American railway mileage in Canada	1485
--	------

### CANADIAN RAILWAY MILEAGE IN THE UNITED STATES.

	Miles.
Grand Trunk Railway.	
Grand Trunk Western Ry	336
Detroit, Grand Haven and Milwaukee Ry.	191

Toledo, Saginaw and Muskegon Ry.	116
Cincinnati, Saginaw and Mackinaw Ry	53
Pontiac, Oxford and Northern R R	100

Central Vermont Ry	612
Island Pond to Portland	150
Detroit and Toledo Shore Line Railroad	78

Canadian Northern Ry.	
D R L & W (Fort Frances to Duluth)	170

Canadian Pacific Ry.	
D S S & A System	614
Soo System	4295
Spokane International	140
Sumas to Seattle	125
Megantic to Vanceboro, Maine	217

Total Canadian Railway mileage in the U S	7197
---	------

From this statement we see that Canadian railroads are far in the lead, having at least five times the mileage in the United States than the American roads have in Canada. Some opponents of the reciprocity agreement are trying to raise a bogey about the "nose" of Jim Hill's railroads resting on the Canadian frontier, whereas, on the other hand, the fact is that Canadian railroad companies have invaded the United States' territory and have built thousands and thousands of miles of railway into that country. They have done so because it is good business, and because, in spite of tariff walls, the trade between the two countries is constantly growing. In point of fact, it will take the American roads a long time to catch up with their Canadian competitors. These figures ought to go to show how little importance is to be attached to the "scare" about American railroads.

## RECIPROCITY POPULAR.

(Globe)

The feeling in favor of, the belief in, the advantages which reciprocal trade relations between Canada and the United States would confer upon both countries, grows steadily. At first there was a good deal of coolness in regard to the arrangements made by Mr Fielding and Mr Patterson at Washington. In a general way it may be said that before the negotiations began there was a strong desire common to men in the ranks of the two great parties in this country for more intimate trade relations with the United States. But of course the Conservatives were naturally on the lookout for any political material which might operate against the government. When, therefore, a group of imperialists in Toronto and its suburbs, many of whom posed as Liberals,

professed to see in the opportunities for larger trade relations with our American neighbors a movement disadvantageous to the Mother Country, the influence of their utterances and action met with a more lively response throughout a considerable portion of the country than at one time seemed probable. "Let well enough alone," "The Americans want to gobble up our country," "You will destroy the British preference," were among the cries of the moment. Men who had strongly opposed the preference, echoed this latter cry in all parts of the country.

At first the observer might draw the inference that Canada generally was opposed to the Washington negotiations. But there were many who felt confident that the fever season would pass away, and that the sober sense of the country would, in due time, assert itself in favor of the new project. Soon the ardent voice of the West made itself heard in loud tones favoring the suggested arrangements and condemnatory of the monopolies which were struggling to maintain themselves and which were so detrimental to the true interests of Canada. The East also began to think. The generous, liberal ideas of those who were once free traders, but which had been put to sleep by the long continued influence of protection, began to awaken and there are most hopeful evidences of a substantial public opinion which will make it very easy to direct aright the thought of the country on this very important question. The outlook is most hopeful. Since the year 1867 these Maritime Provinces have had a hard struggle against an adverse fate arising out of their political partnership, a partnership which has made them tributary, almost wholly, to the Western Provinces. Better trade relations with the adjoining states will enlarge our markets and may fairly awaken hopes of a greater era of prosperity than we have yet enjoyed. Every man whose common sense tells him that these new trade relations will benefit Eastern Canada, and all Canada, should give the movement his heartiest support. It is not a mere question as between Liberals and Conservatives. It is a question which will have a very deep influence upon our progress and our prosperity. This fact is thoroughly realized throughout the Maritime Provinces, evidence of which is afforded by the large attendance at and keen interest in the reciprocity meetings. The meeting in St John on last Monday evening in favor of reciprocity was one of the largest ever seen here at a time that an election campaign was not going on.

The anti-reciprocity meeting a few weeks before could not compare with it, although the two speakers on that occasion were men of high standing. From all sections of the lower provinces come reports of the same tenor—that the people are heartily in favor of the adoption of the reciprocity agreement.

## ATTACKS ON CABINET MINISTERS.

(Monetary Times.)

One of the penalties of being a Cabinet Minister is to suffer personal attack. Whether a man be pure or poisoned politically, he can never shake himself of the taunts of others' viciousness, jealousy and ambition. The Monetary Times has always been, and is, a non-partisan journal, fighting only for the principles in which it believes, and irrespective of politics. We feel the more regret, therefore, in seeing the name of the Honorable Frank Oliver, Minister of Interior, dragged into the mire of supposed scandal. We regard Mr. Oliver as one of the strong men of the Dominion, a man who has actually hewed his way as a pioneer across the prairie and as a statesman through the labyrinth of poli-

tics. He will undoubtedly clear himself of the charges made against him.

There is a serious aspect of the Oliver incident which has not received due attention, and is the relation of a bank to its customers and in turn to curiosity mongers. A photograph is said to have been taken of a certain bank's ledger showing part of Mr. Oliver's bank account. If that photograph had really been obtained it would reflect little credit upon the institution guarding the account.

The photograph was apparently faked in a clever although clumsy manner. So far as we can learn, a minor official of the bank which had Mr Oliver's account, was approached by a certain gentleman whom we need not name, with an offer of a substantial cash, payment and a remunerative and permanent position elsewhere. The bank official, whose method of address is usually of the best, was so astounded at the request, that his reply may be recorded as a matter of history. The suppliant was told to "Go to h—."

The branch bank manager was informed as to what was happening. In the meantime by some, up to the present, inexplicable manner certain items of Mr. Oliver's account had been seen, noted, and apparently copied upon ledger paper, then photographed. This was the photograph which Mr. D. R. Wilkie, general manager of the Imperial Bank, stated that in the most emphatic terms was not an exact photograph of Mr. Oliver's account, as had been stated. A comparison of the original with the spurious at once reveals this fact.

An investigation is to be held respecting the Oliver charges. No one desires that it shall be limited, except that it shall not pry into private affairs. It is not difficult to draw the line between a man's business and his private matters. Undoubtedly there will be an attempt to bring Mr. Oliver's bank account into the limelight, to analyse it, trace the source and the destination of every debit and credit item, and generally to make public a document which concerns only the bank and its customer. This would be a dangerous precedent. The office boy, the business man, the industrial corporation all consider their bank account a matter of the strictest privacy. Were it to become known that at the slightest show of caprice, envy or spitefulness on the part of enemies, one's bank account might be exposed to public gaze, the whole country would soon be tanking their money in stockings, cellars and mattresses. Only when a man is absolutely proved to be a criminal should his bank account be shown to others than the bank officials and their customers. Even then, the greatest discretion should be observed. It is not a question as to whether or not a man's account is clean. Those who have the most honest accounts would be among the strongest objectors to publicity of their bank account figures.

The Victoria County News, a staunch supporter of the Hazen Administration, makes the following editorial reference to the Grand Falls bridge:

"Unless some action be taken soon by the local government the people of this County will be confronted with another Grand Falls bridge disaster. The bridge is in a far worse state than the much discussed suspension bridge at St John, and the chances for saving any lives in the gorge below Grand Falls are as few as in the Reversing Falls at St John."

"When the present bridge was built in 1860, a four horse team in hauling the foundation stones for the abutments was able to drive between the abutment on the west side and the river. The rush of water gradually washed those rocks away. Five years ago 30 feet of rock fell away from the base of the abutment in one night. Today the water is working completely under the abutment to what depth in the bank no one knows. It can be plainly seen that the remaining rocks are becoming loose fast. Nature has given plenty of warning to prevent a repetition of or eclipse the disaster when two lives were lost when the old bridge fell over 50 years ago."

## AFTER SUFFERING YEARS

### Cured by Lydia E. Pinkham's Vegetable Compound

Fox Creek, N.B.—"I have always had pains in the loins and a weakness there, and often after my meals my food would distress me and cause soreness. Lydia E. Pinkham's Vegetable Compound has done me much good. I am stronger, digestion is better, and I can walk with ambition. I have encouraged many mothers of families to take it, as it is the best remedy in the papers."—Mrs. WILLIAM BOURQUE, Fox Creek, N.B., Canada.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women after all other means have failed, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.

Kennold Wolf, dramatic editor of the New York Morning Telegraph, praises unqualifiedly, "The Thief" the dramatic sensation which had its premiere at the Lyceum Theatre, New York and ran for two solid years. He says: "Originality, intenseness, directness, suspense and pathos 'The Thief' has in a wonderful degree. It is powerful and it is human. Once the story begins each scene is a 'big' scene. One hangs on every word and every word is significant. 'The Thief' first of all must stand as an example of structural perfection and there is not dramatist in America today whose work gives the most ardent patriot reason to believe that he can equal it."

"The Thief" is scheduled for one night at the Hayden-Gibson Theatre, Friday, May 26th.

When you buy Paint, get the real thing

It is extravagant and foolish to buy and pay for paint, and instead of paint, get a mixture containing cheap adulterants.

Pure paint—the real thing—reads easier, covers more surface (and covers it better) and wears longer than adulterated paint. Pure paint is far more economical to use. Pure paint gives the handsomest finish.

Pure paint insures you against paint "troubles"—the cracking, the peeling, scaling, etc. that comes from the use of impurities. "English" Liquid Paint is pure paint—made from 70% pure white lead (Brandram's B.B. Cement) 3% pure zinc white, pure linseed oil, pure turpentine and 1 drop of... It will give you the greatest satisfaction and save you money on your paint bill.

Made by Brandram Brothers, Ltd., Limited, in 45 shades in addition to black and white. Come in for a color card.
