Very great damage has been done the farmers by the heavy rains. The city and village people grumble on account of the high prices of meat, etc., think the farmer is getting all the profit; but some of the farmers have hundreds of dollars worth of fertilizer in the ground and work hard all summer, lose their hay and potatoes and crop, it's them that should be the discontented party, but they are generally the most cheerful.

Isaac Stephenson and Sime Smith are erecting a fine summer cottage on the bank of the St John, about a mile above the Big Presqu Coast, which when completed, for location and style of building will be hard to surpass. It will be a great convenience for canoe or fishing parties going down river.

Despite the rainy day, quite a large number from this place took in (or got took in) the circus at Bristol.

Ben Good, of Good Corner, spent last Thursday night at J A Perley's. Mrs Perley accompanied him as far as Centreville, on his way home. "Hear them bells jingle."
